---

Greenway Holdings is a company that has been located in Hay River for almost 40 years offering all types of accommodation services.

The economic activity for the South Slave Region generated by Pine Point Mining Ltd. has been greatly felt and appreciated.

Our company has provided some accommodation services to the proponents of this project and have found them to be very professional in their dealings with local service providers.

Their goals associated with this project will have far reaching benefits to Hay River and surrounding communities for hopefully many years to come.

Please consider this to be a letter of strong support for their Land Use Permit and Type B Water Licence.

Yours truly

Jane Groenewegen  
Owner  
Greenway Holdings Ltd.
