

# **GREAT SLAVE DRILLING & EXPLORATION LTD.**

Dear Ms. Ho,

I am writing on behalf of Great Slave Drilling and Exploration Ltd. to support Pine Point Mining Limited's application for a new land use permit and water licence (MV2018C0005 and MV2018L2-0003). Our company has been working for them under their current permit and we would like to be able to continue to work for them under this new permit. We are able to provide jobs to local people through our work at Pine Point and our business and employees are supporting local businesses. The expanded drilling program will provide a lot more economic benefit to the local communities and businesses.

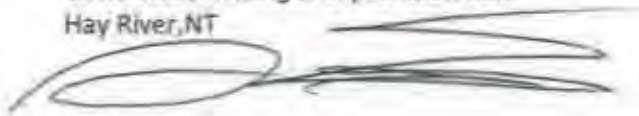

Please understand that the drilling we do to confirm previous results has very little environmental impact. Mobilizing our equipment onto previously disturbed ground means fewer impacts to soil, water and habitat. Great Slave Drilling and Exploration is committed to insuring that all environmental issues are handled in a timely manner and are following the guideline of the permits. We at Great Slave Drilling and Exploration are excited to see what the future holds for our Town of Hay River and surrounding area as we move forward.

We hope you will issue their permit without any delays.

Thank you for your time.

Sincerely,

Shawn Grandguillot
