Date: January 17, 2019 12:38:10 PM

Thank you for the update. If this project goes ahead the TCWR will require enough notice to allow for proper preparation. Although you will be responsible for management of the road north of Ekati you will have truckers operating on and off our project that will require organization.

Folks,

The attached materials have been submitted to the MVLWB, in support of Nahanni Construction Ltd.'s application for a land use permit to construct and operate a portion of the Tibbitt to Contwoyto Winter Road from the Ekati turnoff to the Lupin Mine in Nunavut.

The documents, along with others related to the application, can be accessed on the MVLWB public registry under file #MV2018F0024.

Should you wish to discuss any of these materials, don't hesitate to contact me.

Kind regards,
Sharleen
