Introduction

This Plan describes the engagement activities that Pine Point Mining Limited will undertake over the life of the Land Use Permit and Water License that covers the confirmation drilling program at Pine Point. A copy of the engagement log is attached; it covers engagement activities to date specifically related to the land use and water license applications for 27-month confirmation drilling program.

Project Location

Confirmation drilling may be planned and conducted within the boundaries of any of the 19 Mineral Leases and 4 Claims registered to Pine Point Mining Limited that are to be part of this program. The locations of the leases and claims held by Pine Point Mining Limited in the Pine Point District that are to be included in this program are shown in Figure 1.

Potentially Affected Parties

The following list of potentially affected parties have been identified as being the most likely to be affected by the confirmation drilling program at Pine Point. This list was developed based upon overlap of PPML’s mineral leases and claims with existing surface leases or traditional lands (DKFN, Metis Nation and Councils, Timberworks, Avalon, and Hamlet) as well as interest in project-related activity in the Hay River area (WPFN, KFN, and Town).

- Hamlet of Fort Resolution
- Town of Hay River
- West Point First Nation
- K’atlodeeche First Nation
- Deninu K’ue First Nation
- Hay River Metis Council, Fort Resolution Metis Council, & Northwest Territory Metis Nation
- Timberworks, Inc.
- Avalon Advanced Materials, Inc.

However, Pine Point Mining Limited “cast a wider net” to inform additional parties in the South Slave region about the project during initial engagement efforts (see Engagement Log). At the time of initial engagement activities the anticipated project footprint included some claims that were subsequently removed from the plan. Under the larger footprint scenario, there was overlap with cabins, a power substation, cemetery, and surface lease held by Teck Metals. Engagement was initiated with those parties. Once the project footprint was decreased, those parties were no longer directly affected by the project.

Engagement Triggers

PPML has signed Exploration Agreements in place with some of the Affected Parties, and the confidential terms of those agreements have separate engagement triggers and requirements. Those terms are not discussed here.

Pine Point Mining Limited will contact the potentially affected parties listed above in writing at different points throughout the project as follows:

- Amendments – All parties contacted in writing.
- Assignments – All parties contacted in writing.
- Drill Locations, Access Path, and Expected Footprint -- GNWT Inspector and MVLWB notified in advance of field deployment. This information will be submitted on a 1:50,000-scale map with coordinates and map datum provided to an Inspector. MVLWB posts this information to the project registry which is then available to all parties.
- Initiation of Drilling Activity – All parties contacted in writing 30 days before annual start-up.
- Completion of Exploration Program – All parties contacted in writing within 60 days.

Engagement Methods

As stated above, Pine Point Mining Limited will attempt to engage with potentially affected parties over the life of the active confirmation drilling program. Written notification of planned activities will be provided to potentially affected parties. These notices will contain contact information at Pine Point Mining Limited whereby the potentially affected parties can ask questions, raise concerns, suggest project modifications, etc.

Engagement Log

Pine Point Mining Limited will maintain a permit-specific engagement log over the life of the permit. This log will be available for the MVLWB to review to ensure that the engagement plan has been followed and that issues raised by potentially affected parties have been considered and addressed (when possible).

Table 1. Engagement Log for Confirmation Drilling Program LUP and WL Applications (Affected Parties in Bold)

Date	Communication	Response
Akaitcho IMA Office		
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.
Avalon Advanced Materials		
January 9, 2018	Registered Letter informing that Osisko Metals is purchasing PPML. Provided contact information.	No response.
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.
Pine Point Cabin Owners		
February 1, 2018	In meeting with DKFN officials, PPML obtained names of cabin owners at Pine Point known to these officials. No contact information was provided.	
February 2, 2018	Sent Public Notice messages describing confirmation drilling program and asked that cabin owners contact the company. Notices sent via email to Town of Hay River, Hamlet of Fort Resolution, KFN, DKFN, HRMC, FRMC, and NWTMN requesting public display of the notices.	Environmental staff at FRMC replied 2/2/18 that PPML can contact FRMC or DKFN to get information about cabins. Frank Lafferty replied via email on 2/14/18 that he and his brother Kevin both have cabins in the Pine Point area; he provided contact information for future reference.
February 2018	PPML administration changed the project plan. Claims on which the private cabins are located were removed from the project plan. The application no longer overlaps with the cabins.	
Deh Cho Land Use Planning		
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.

Date	Communication	Response
Deninu K'ue First Nation		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet.	No response.
January 10, January 15, February 1, and February 12, 2018	Face-to-face meetings to discuss: PPML's purchase by Osisko Metals, intent to file LUP and WL applications for a confirmation drilling program, preferences for communication related to the application and permit, and economic opportunities for DKFN.	Correspondence on the project is to be directed to Rosy Bjornson (IMA) with cc: to Carol Chapman (SAO).
February 20, 2018	Copies of Draft LUP and WL applications and the supporting Plans were provided via email. Asked for comments within 2 weeks. Available to meet to discuss.	Chief and SAO forwarded a letter from one of their members about trapping access.
March 6, 2018	Face-to-face meeting. Chief reported that the LUP and WL applications had been presented to and reviewed by the DKFN Council and that they had no comments or concerns.	Discussed trapper's concerns; Chief explained that the trapper who wrote the letter operates in the winter months in an area not covered by the leases and claims in this application. He will get maps and more information to PPML for future reference.
Fort Resolution Metis Council		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	President (Arthur) Beck replied on 1/3/2018 with details for a meeting on Jan. 10, 2018. Environmental staff person from FRMC called on 1/4/18 and emailed on 1/5/18 asking for a meeting; requested funds for honoraria and substantial meeting expenses. PPML replied both times of willingness to meet but not prepared to pay honoraria or meeting expenses.
January 10 and January 15, 2018	Face-to-face meetings with President Beck to discuss: PPML's purchase by Osisko Metals, and intent to file LUP and WL applications for a confirmation drilling program.	
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.
February 13, 2018	President Beck called PPML to discuss economic opportunities for FRMC in the future. New ideas include	PPML reviewed the drilling levels expected in the confirmation program that will be the subject of the new LUP

Date	Communication	Response
	FRMC owning/operating a camp and/or a drill.	and WL applications.
February 20, 2018	Copies of Draft LUP and WL applications and the supporting Plans were provided via email. Asked for comments within 2 weeks. Available to meet to discuss.	No response.
March 6, 2018	PPML attended a meeting in Fort Resolution with the DKFN/FRMC coalition to discuss the permit application. However, no one from FRMC was in attendance. DKFN representatives said they would pass on information to FRMC coalition partner.	J Key from PPML called President Beck after the meeting in Fort Res to request another meeting date or teleconference to discuss the applications.
March 8, 2018	PPML attended a meeting in Fort Resolution with FRMC President and Vice President.	Economic opportunities associated with the drill program were discussed. No concerns about the application documents were raised.
Hamlet of Fort Resolution		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	No response.
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.
Hay River Metis Council		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	President (Trevor) Beck replied on 1/9/2017 with details for a meeting.
January 12, 2018	Face-to-face meeting with President Beck to discuss: PPML's purchase by Osisko Metals, and intent to file LUP and WL applications for a confirmation drilling program.	HRMC interested in economic opportunities.
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.

Date	Communication	Response
February 20, 2018	Emailed review copies of the LUP and WL applications along with the supporting Plans. PPML offered face-to-face meeting next week to discuss.	President Beck stated in meeting on March 1, 2018 that he had reviewed the documents and had no comments.
February 22, 2018	President Beck sent email notice that he wants an equitable exploration agreement going forward.	PPML reminded him that a Draft Agreement had been sent and HRMC had not responded.
March 1, 2018	Face-to-face meeting to discuss the proposal. President Beck stated that he wants HRMC to receive more benefits.	PPML reminded President Beck that PPML offered to negotiate an exploration agreement in early 2016, but HRMC was not interested at that time.
March 12, 2018	Face-to-face meeting with President Beck. Discussed application. Provided informational poster about the project and asked him to post it.	No concerns about the application were raised. HRMC wants business opportunities.
Katlochee First Nation		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	KFN asked that meeting include clarification of new business and management arrangements following the sale. Expect PPML and Osisko to provide funds for KFN to conduct a due diligence review; sale of company is not to proceed until KFN has completed its review.
January 12, 2018	Face-to-face meeting with Chief and 3 staff members to discuss: PPML's purchase by Osisko Metals, and intent to file LUP and WL applications for a confirmation drilling program.	Discussion and follow-up emails clarified that PPML will become a wholly owned subsidiary of Osisko Metals once the sale closes.
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	Peter Redvers replied 2/1/18 that he will be the primary contact for engagement. KFN expects an advance copy of the applications for review and comment.
February 6, 2018	Face-to-face meeting with 2 KFN staff members. Discussed upcoming application for LUP and WL for confirmation drilling program; map of affected area provided. A draft of the application will be provided for their review.	KFN reminded that they want to be given copies of bidding information.
February 20, 2018	Emailed review copies of the LUP and WL applications along with the supporting Plans. PPML offered face-to-face meeting to discuss.	Emails exchanged to establish meeting time.
March 5, 2018	Face to face meeting to discuss the applications. KFN	A poster summarizing the new application was provided to

Date	Communication	Response
	stated that they had no issues. They defer to DKFN/FRMC to make comments on the applications.	KFN; PPML asked that it be posted at the Reserve.
Northwest Territory Metis Nation		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	President Bailey called on 1/3/2018 to request a meeting on 1/15/2018. On 1/11/2018 PPML contacted President Bailey to ask for details on meeting time and location. Pres. Bailey asked for funds to meet, PPML replied that meeting funds were not available but PPML could come to Fort Smith or meet at Round-UP in Vancouver. Pres. Bailey replied on 1/15/2018 that he would have to check his schedule and reply at a later time.
January 23, 2018	Face-to-face meeting with President Bailey and Jake Heron (NWTMN's consultant) to discuss: PPML's purchase by Osisko Metals, OM's background and capacity, and intent to file LUP and WL applications for a confirmation drilling program.	Pres. Bailey indicated NTWMN wanted more business opportunities and all future negotiations with Councils should include NWTMN and its attorneys. President Bailey will propose dates for future meetings.
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.
March 1, 2018	Face-to-face meeting with Jake Heron (consultant to NWTMN). Mr. Heron stated that the Metis do not agree that PPML has rights to the minerals in their (PPML's) leases and claims. He also said PPML should establish agreements only with the NWTMN not the individual Councils.	No response.
NWT & Nunavut Chamber of Mines		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	No response.
January 10, 2018	Face-to-face meeting to discuss: PPML's purchase by Osisko Metals, OM's background and capacity, and intent	Support for project.

Date	Communication	Response
	to file LUP and WL applications for a confirmation drilling program.	
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	Receipt acknowledged.
Salt River First Nation		
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.
Smith Landing First Nation		
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.
Teck Metals		
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	Teck replied 2/12/18 pointing out overlap between PPML claim and tailings facility that Teck manages. Asked if PPML planned to conduct activities in the overlapping area. PPML replied 2/16/18 that PPML has re-evaluated drill targets and determined that the claim which adjoins Teck's tailings facility will not be included in the new permit application.
Timberworks Inc.		
January 9, 2018	Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	No response.
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	No response.

Date	Communication	Response
Town of Hay River		
January 9, 2018	Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	No response.
January 12, 2018	Face-to-face meeting to discuss: PPML's purchase by Osisko Metals, OM's background and capacity, and intent to file LUP and WL applications for a confirmation drilling program.	
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact information for response provided.	Judy Goucher, SAO, replied 2/1/18 that she would be primary contact for the Town. She will speak to Council about engagement preferences.
February 6, 2018	Face-to-face meeting to discuss: PPML's intent to apply for LUP and WL for confirmation drilling program.	Mayor Mapes was supportive of the proposal.
February 12, 2018	Requested letter from the Town that there is capacity at municipal facilities to accept and process anticipated volumes of garbage and sewage from the proposed confirmation drilling program.	Feb. 15, 2018 received Letter confirming the Town's willingness to accept waste at the landfill and lagoon. Letter signed by Judy Goucher
March 6, 2018	Face-to-face meeting with the Mayor to discuss the applications. Mayor stated that the Town supports the program and the applications.	Poster summarizing new application provided to mayor. Asked that it be posted.
West Point First Nation		
January 3 and 9, 2018	Email (on the 3 rd) and Registered Letter (on the 9 th) informing that Osisko Metals is purchasing PPML. Provided contact information and offered to meet to discuss.	Misty Ireland replied 1/3/2018 to set up a meeting with the full Council.
January 15, 2018	Face-to-face meeting with Chief and Council to discuss: PPML's purchase by Osisko Metals, OM's background and capacity, and intent to file LUP and WL applications for a confirmation drilling program.	No unresolved issues.
February 1, 2018	Email notification that LUP and WL applications for confirmation drilling program will be filed in the near future. Asked how they'd like to be engaged over the life of the project. Map with Area of Interest and Contact	No response.

Date	Communication	Response
	information for response provided.	
February 6, 2018	Face-to-face meeting. Reviewed proposal to apply for LUP and WL for confirmation drilling program. Discussed some specific potential economic opportunities for WPFN.	Preferred contact for permit-related correspondence is via email directed to Misty Ireland.
February 20, 2018	Emailed review copies of the LUP and WL applications along with the supporting Plans. PPML offered face-to-face meeting to discuss.	Richard Lafferty (WPFN Edagondee? Coordinator) replied via email on 3/14/2018 that WPFN had reviewed the draft applications and had no concerns. One comment is to watch
March 6, 2018	Telephone conversation with WPFN Lands Officer to get comments on the applications. She said she had not reviewed them.	water management near muskegs and marshes in protect wildlife.
