Mr. Earle Dumas, Director Projects and Planning  
 Town of Hay River  
 100-62 Woodland Drive  
 HAY RIVER NT X0E 1G1

Email: earled@northwestel.net

Dear Mr. Dumas:

**Issuance of Type B Water Licence  
 Recreational Undertaking - Porritt Landing Dredging, Hay River, NT**

Attached is Water Licence MV2018L7-0002 granted by the Mackenzie Valley Land and Water Board (MVLWB or the Board) in accordance with the *Mackenzie Valley Resource Management Act* and *Waters Act*. This Licence has been approved for a period of five years commencing February 7, 2019 and expiring February 6, 2024.

Please read all conditions carefully. For the purpose of submitting plans in accordance with this Licence, the date of this letter, February 7, 2019, is the date of issuance. Also attached is a copy of the *General Procedures for the Administration of Licences in the Northwest Territories*. The MVLWB requests that you review these and address any questions to the Board's office.

Management Plans – Approved

The Board hereby approves the following Plans as summarized in Table 1:

**Table 1: Plans that have been approved**

Condition Number	Title of Plan	Date Received	WL Requirement
B.17	Engagement Plan	June 12, 2018	The Licensee shall act in accordance with the approved <b>Engagement Plan</b> .

Management Plans – Not Approved

The Board hereby directs the Town of Hay River to resubmit the Waste Management Plan and Spill Contingency Plan as required under Part G, condition 3 and Part H, condition 1 of MV2018L7-0002. Updates to the Waste Management Plan will be confirmed by Board staff prior to Board approval.

Updates to the Waste Management Plan should address the following:

- a) Details on sediment and erosion control methods during dredging activities that would contain suspended sediments to the area of disturbance;
- b) Details on sediment and erosion control methods to prevent surface water run-off from the stockpiled materials into surrounding waterbodies; and
- c) Final disposal plans for dredged materials, including associated approval documentation.

Updates to the Spill Contingency Plan should address the following:

- a) Preventative measures to contain sediment during dredging activities;
- b) Measures to avoid sediment loading from the stockpiles to the receiving environment; and
- c) Detailed response plans for potential sediment loading into the Hay River.

A copy of this Licence has been filed on the [Public Registry](#) at the office of the MVLWB. Please be advised that this letter, with attached procedures, all inspection reports, and correspondence related thereto is part of the Public Registry and is intended to keep all interested parties informed of the manner in which the Licence requirements are being met. All Public Registry material will be considered if an amendment to the Licence is requested.

The full cooperation of the Town of Hay River is anticipated and appreciated. If you have any questions or concerns, please contact Shannon Allerston at (867) 766-7465 or email [sallerston@mvlwb.com](mailto:sallerston@mvlwb.com).

Yours sincerely,

Mavis Cli-Michaud  
MVLWB, Chair

Attached: Water Licence  
Reasons for Decision  
*General Procedures for the Administration of Licences in the Northwest Territories*

**Mackenzie Valley Land and Water Board  
Water Licence**

Pursuant to the *Mackenzie Valley Resource Management Act*, *Waters Act*, and Waters Regulations, the Mackenzie Valley Land and Water Board, hereinafter referred to as the Board, hereby grants to:

Town of Hay River

(Licensee)

of 100-62 Woodland Drive, Hay River, NT X0E 1G1

(Mailing Address)

hereinafter called the Licensee, the right to alter, divert, or otherwise use water subject to the restrictions and conditions contained in the *Waters Act* and Regulations made thereunder and subject to and in accordance with the conditions specified in this Licence.

Licence Number: MV2018L7-0002

Licence Type: B

Water Management Area: Northwest Territories 01

Location: 60° 50'33" N 115° 45'39" W

Purpose: To use water and dispose of waste and associated uses

Description: Recreational

Quantity of Water **not to be exceeded:** 100 (m<sup>3</sup>)

Effective date of licence: February 7, 2019

Expiry date of licence: February 6, 2024

This Licence issued and recorded at Yellowknife includes and is subject to the annexed conditions.

**Type B Water Licence #MV2018L7-0002**  
**Town of Hay River – Porritt Landing Dredging Project**

**Part A: Scope and Definitions**

1. Scope

- a) This Licence entitles the Licensee to use Water and dispose of Waste for the purpose of *recreational undertaking located at Porritt Landing dock in Hay River, Northwest Territories*. This undertaking is described in the Application submitted on June 12, 2018 and includes the following:
  - I. Sediment removal at the Porritt Landing dock; and
  - II. Deposit of Waste at Lot 1057, Plan 977, Hay River, NT.
  
- b) This Licence is issued subject to the conditions contained herein with respect to the taking of Water and the depositing of Waste of any type in any Waters or in any place under any conditions where such Waste or any other Waste that results from the deposit of such Waste may enter any Waters. Whenever new Regulations are made or existing Regulations are amended by the Commissioner in Executive Council under the Act, or other statutes imposing more stringent conditions relating to the quantity or type of Waste that may be so deposited or under which any such Waste may be so deposited this Licence shall be deemed, upon promulgation of such Regulations, to be automatically amended to conform with such Regulations.
  
- c) Compliance with the term and conditions of this Licence does not relieve the Licensee from responsibility for compliance with the requirements of all applicable Federal, Territorial or municipal legislation.

2. Definitions

**Act** - the *Waters Act*, S.N.W.T. 2014, c.18.

**Board** - the Mackenzie Valley Land and Water Board established by subsection 99(1) of the *Mackenzie Valley Resource Management Act*;

**Construction** - any activities undertaken to construct or build any components of, or associated with, the undertaking.

**Discharge** - the direct or indirect release of any Water or Waste to the Receiving Environment.

**Engagement Plan** - a document, developed in accordance with the Board's June 2013 *Engagement and Consultation Policy* and the *Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits* describes proposed engagement activities during the life of the undertaking.

**Inspector** - an Inspector designated by the Minister under subsection 65(1) of the Act.

**Licensee** - Town of Hay River.

**Minister** - a duly appointed member of the Executive Council who is responsible for the *Waters Act* or the department responsible for administering that Act.

**Modification** - a change, other than an expansion, that does not alter the purpose or function of a structure.

**Receiving Environment** - the aquatic environment that receives any Water or Waste released from the undertaking.

**Reclamation** - activities which facilitate the return of areas affected by the undertaking to viable and, wherever practicable, self-sustaining ecosystems that are compatible with a healthy environment, human activities, and the surrounding environment.

**Regulations** - Regulations promulgated pursuant to section 63 of the Act.

**Spill Contingency Plan** - a document, developed in accordance with Indian and Northern Affairs Canada's April 2007 *Guidelines for Spill Contingency Planning*, that describes the set of procedures to be implemented to minimize the effects of a spill.

**Traditional Knowledge** - the cumulative collective body of knowledge, experience and values built up by a group of people through generations of living in close contact with nature. It builds upon the historic experiences of a people, and adapts to social, economic, environmental, spiritual and political change.

**Unauthorized Discharge** - a Discharge or spill of any Water or Waste not authorized under this Licence.

**Waste** - any Waste as defined in section 1 of the Act.

**Waste Management Plan** - a document, developed in accordance with the Board's March 2011 *Guidelines for the Development of a Waste Management Plan* which describes the methods of Waste management from Waste generation to final disposal.

**Water** - any Water as defined in section 1 of the Act.

## Part B: General Conditions

1. The Licensee shall ensure a copy of this Licence is maintained on site at all times.
2. The Licensee shall take every reasonable precaution to protect the environment.
3. In conducting its activities under this Licence, the Licensee shall make best efforts to consider and incorporate any scientific and Traditional Knowledge that is made available to the Licensee.
4. All references to policies, guidelines, codes of practice, statutes, Regulations or other authorities shall be read as a reference to the most recent versions, unless otherwise denoted.
5. All information submitted to the Board, as required by this Licence, shall:
  - a) Be in a form acceptable to the Board;
  - b) Be in accordance with the Mackenzie Valley Land and Water Board's *Document Submission Standards*; and
  - c) Include a section within each submission which identifies where the pertinent requirements of the Licence are addressed.
6. For all submissions that include monitoring data, the Licensee shall also submit all raw data in Excel™ format.
7. The Licensee shall ensure management plans are submitted to the Board in a format consistent with the Mackenzie Valley Land and Water Board's *Standard Outline for Management Plans*.
8. The Licensee shall operate in accordance with any approved plans, programs, studies, and manuals referred to in this Licence, including such revisions as may be made pursuant to the conditions of this Licence and as approved by the Board.
9. The Licensee may propose revisions at any time by submitting a revised plan to the Board for approval. Unless otherwise specified, a minimum of 90 days prior to implementing any proposed updates or changes in the plan, the Licensee shall submit all revisions to the Board, for approval.
10. The Licensee shall review the approved plans annually, or as directed by the Board, and make any necessary revisions to reflect changes in operations. All revised plans shall be submitted to the Board, for approval, at least 60 days, unless otherwise specified, prior to implementing any proposed updates or changes in the approved plan, and shall be accompanied by a brief summary of the changes made. All revised plans shall be presented in a format consistent with the Board's Standard Outline for Management Plans.
11. If any submission is not approved by the Board, the Licensee shall revise the submission according to the Board's direction and resubmit it for approval.
12. If any date for any submission falls on a weekend or holiday, the Licensee may submit the item on the following business day.

13. The Licensee shall comply with the Schedules, which are annexed to and form part of this Licence, and any changes to the Schedules as may be made by the Board.
14. The Schedules and any compliance dates specified in this Licence may be changed at the discretion of the Board.
15. The Licensee shall install, operate, and maintain meters, devices, or other such methods used for measuring the volumes of Water used and Waste Discharged to the satisfaction of an Inspector.
16. Beginning March 31, 2020, and no later than every March 31 thereafter, the Licensee shall submit an **Annual Water Licence Report** to the Board. The Report shall be in accordance with Schedule 1, condition 1.
17. The Licensee shall act in accordance with the approved **Engagement Plan**.
18. A minimum of ten days prior to commencement of the Project, the Licensee shall provide written notification to the Board and an Inspector. Notification shall include the name and contact information for the Project superintendent. Updates shall be provided to the Board and an Inspector in writing as changes occur.
19. The Licensee shall immediately provide written notification to the Board and an Inspector of any non-compliance with the conditions of this Licence or any direction from the Board pursuant to the conditions of this Licence.
20. The Licensee shall submit a revised Project schedule to the Board and an Inspector upon request.

**Part C: Conditions Applying to Security Deposit**

*Intentionally left blank*

**Part D: Conditions Applying to Water Use**

*Intentionally left blank*

**Part E: Conditions Applying to Construction**

1. The Licensee shall ensure that all structures intended to contain, withhold, divert, or retain Water or Wastes are designed, constructed, and maintained to prevent escape of Waste to the Receiving Environment.

**Part F: Conditions Applying to Modifications**

*Intentionally left blank*

**Part G: Conditions Applying to Water and Waste Management**

1. The Licensee shall manage Water and Waste with the objectives of minimizing impacts on the quantity and quality of Water in the Receiving Environment through the use of appropriate mitigation measures, monitoring, and follow-up actions.
2. The Licensee shall minimize erosion by implementing suitable erosion control measures that shall be located and maintained to the satisfaction of an Inspector.

**Management Plans and Monitoring Programs**

3. Within 60 days following issuance of this Licence, the Licensee shall submit to the Board, for approval, a revised **Waste Management Plan**. The Licensee shall not commence operations until the Board has approved the Plan.

**Discharge Locations**

4. The Licensee shall direct all dredged material to the designated stockpile area, as described in the approved Waste Management Plan referred to in Part G, condition 2, or as authorized by the Inspector.
5. A minimum of ten days prior to depositing any Waste into a licenced municipal facility, the Licensee shall provide written notification to the Board and an Inspector.
6. Waste, including dredged material and Wastewater, shall not be discharged or decanted to any Waterbody or Watercourse.
7. Prior to disposing dredged material at the designated stockpile area, the Licensee shall submit sediment analysis results to the Board and the Inspector.
8. The Licensee shall obtain representative samples as per the following, or as authorized by an Inspector:

<b>Volume of Soil (m<sup>3</sup>)</b>	<b>Number of Composite Samples Required</b>
1 - 50	1
51 - 500	2
501 - 1000	3
1001 - 2000	4
2001 - 4000	5
Each additional 1000	1 additional

9. Representative samples of the dredged material shall meet the Residential/Parkland Criteria in the Government of the Northwest Territories' *Environmental Guideline for Contaminated Site Remediation* prior to disposal at the designated stockpile area.
10. Prior to disposing dredged material to an appropriate final disposal location, the Licensee shall notify the Board and the Inspector.

**Part H: Conditions Applying to Contingency Planning**

1. Within 60 days following issuance of this Licence, the Licensee shall submit to the Board, for approval, a revised **Spill Contingency Plan**. The Licensee shall not commence operations until the Board has approved the Plan.
2. If, during the period of this Licence, a spill or an Unauthorized Discharge occurs or is foreseeable, the Licensee shall:
  - a) Implement the Spill Contingency Plan;
  - b) Report the incident immediately via the 24 Hour Spill Reporting Line (867) 920-8130 in accordance with the instructions contained in the Spill Report Form NWT 1752/0593 or subsequent editions;
  - c) Report each spill and Unauthorized Discharge to the Board and an Inspector within 24 hours; and,
  - d) Submit a detailed report on each spill and Unauthorized Discharge, including descriptions of root causes, response actions and any changes to procedures to prevent similar occurrences in the future, to the Board within thirty (30) days.
3. The Licensee shall ensure that adequate spill prevention infrastructure and spill response equipment is in place prior to commencement of the Project.
4. The Licensee shall restore all areas affected by spills and Unauthorized Discharges to the satisfaction of an Inspector.

**Part I: Conditions Applying to Closure and Reclamation**

1. The Licensee shall carry out progressive Reclamation of areas as soon as is reasonably practicable.

Signed on behalf of the Mackenzie Valley Land and Water Board

---

Mavis Cli-Michaud, Chair

**Schedule 1: Annual Water Licence Report**  
**Attached to Water Licence MV2018L7-0002 Part B, condition 16**  
**Town of Hay River – Porritt Landing Project**

Part B: General Conditions – Annual Water Licence Report

1. The Annual Water Licence Report referred to in Part B of this Licence shall include, but not limited to, the following information:
  - a) A summary of the calibration and status of the meters and devices referred to in Part B of this Licence;
  - b) A summary of engagement activities conducted in accordance with the approved **Engagement Plan**, in Part B of this Licence, undertaken during the previous calendar year and shall include a brief description of activities planned for the forthcoming year;
  - c) A summary of **Construction** activities conducted in accordance with Part E of this Licence, undertaken during the previous year calendar year;
  - d) An updated schedule for the undertaking;
  - e) A summary of activities conducted in accordance with the approved **Waste Management Plan**, required in Part G of this Licence, undertaken during the previous calendar year, including:
    - i. A summary of updates or changes to the process for the management of Waste; and
    - ii. Daily, monthly and annual quantities in cubic metres of all solid Waste deposited, identified by location.
  - f) A description of any erosion susceptible areas encountered and a summary of activities to prevent or mitigate erosion;
  - g) A report of the performance of erosion mitigations applied;
  - h) A summary of activities conducted in accordance with the approved **Spill Contingency Plan**, required in Part H of this Licence, undertaken during the previous calendar year, including:
    - i. A list and description for all Unauthorized Discharges that occurred during the previous calendar year, including the date, NWT spill number, volume, location, summary of the circumstances and follow-up actions taken, and status (i.e. open or closed), in accordance with the reporting requirements in Part H of this Licence; and
    - ii. An outline of any spill training and communications exercises carried out during the previous calendar year.
  - i) Any other details on Waste disposal requested by the Board by November 30 of the year being reported; and
  - j) A summary of actions taken to address concerns, non-conformances, or deficiencies in any reports filed by an Inspector.

**Annex B: Table of Items Requiring Submission**

*Supplemental information to be submitted by Licensee as required through Water Licence conditions.*

<b>Part of Licence</b>	<b>Item</b>	<b>Date</b>
B	Annual Water Licence Report	- March 31, 2020
B	Engagement Plan	- Approved, Annual Updates
G	Waste Management Plan	- April 8, 2019
G	Sediment Analysis Results	- Prior to disposing dredged material - Prior to removal of dredged material for final disposal
H	Spill Contingency Plan	- April 8, 2019

**Annex B Revisions to Water LicenceMV2018L7-0002**

*List of changes that have been made to the Water Licence since issuance*

<b>Date</b>	<b>Location of Change</b>	<b>What has changed</b>

**General Procedures for the Administration of Licences  
Issued Under the *Waters Act*  
in the Northwest Territories**

1. At the time of issuance, a copy of the Licence is placed on the Public Registry in the office of the Mackenzie Valley Land and Water Board (MVLWB or the Board) in Yellowknife and is then available to the public.
2. To enforce the terms and conditions of the Licence, the Minister of Environment and Natural Resources has appointed Inspectors in accordance with subsection 65(1) of the *Waters Act*. The Inspectors coordinate their activities with staff of the MVLWB. The Inspector responsible for Licence MV2018L7-0002 is located in the Hay River/South Slave office.
3. To keep the MVLWB and members of the public informed of the Licensee's conformity to the Licence's conditions, the inspectors prepare reports which detail observations on how each item in the Licence has been met. These reports are forwarded to the Licensee with a covering letter indicating which action, if any, should be taken. The inspection reports and cover letters are placed on the Public Registry, as are any responses received from the Licensee pertaining to the inspection reports. It is therefore of prime importance that you react in all areas of concern regarding all inspection reports so that these concerns may be clarified.
4. Licence MV2018L7-0002 will expire on February 6, 2024, if required; it is the responsibility of the Licensee to apply to the MVLWB for a new licence. The past performance of the Licensee, new documentation and information, and points raised during a public hearing, if required, will be used to determine the terms and conditions of any new licence. Please note that if the Licence expires and another has not been issued, then water and waste disposal must cease, or you, the Licensee, would be in contravention of the *Waters Act*. For a Type A Licence, an application for a new licence shall be made at least one year in advance of the Licence's expiry date. In the case of a Type B Licence, an application shall be made at least six months in advance of the Licence's expiry date.
5. If, for some reason, Licence MV2018L7-0002 requires amendment, a public hearing may be required. You are reminded that applications for amendments should be submitted as soon as possible to provide the MVLWB ample time to complete the amendment process. The process may take up to six months or more depending on the scope of the amendment requested.

6. Specific clauses of your Licence make reference to the Board, Analyst, or Inspector. The contact person, address, phone, and fax number of each is:

**Mackenzie Valley Land and Water Board:**

## Reasons for Decision

Issued pursuant to section 72.25 and 121 of the *Mackenzie Valley Resource Management Act* and Section 54 of the *Waters Act*

Water Licence – Submission	
Preliminary Screener	MVLWB
Reference/File Number	MV2018L7-0002
Company	Town of Hay River
Project	Recreational Operation, Porritt Landing, Hay River, NT
Date of Decision	February 7, 2019

These Reasons for Decision set out the Mackenzie Valley Land and Water Board's (the Board or MVLWB) decision on a Water Licence Application made by the Town of Hay River (the Town) to the Board on June 12, 2018 for Water Licence (Licence) MV2018L7-0002.

### 1.0 Background

On June 12, 2018, the Town of Hay River (the Town) submitted a Type B Water Licence Application (the Application) to conduct dredging at the Porritt Landing dock in order to provide adequate water depth for recreational watercraft to safely launch and dock. As proposed, dredged materials were to be excavated with a hydraulic excavator from shore at the Porritt Landing site, loaded into truck and hauled to stock pile locations between 500-700 m away.

### 2.0 Public Review

- June 12, 2018 – Type B Water Licence submitted to the Board;
- June 27, 2018 – Application deemed complete and distributed for review;
- July 3, 2018 – Notice of Application published in News North;
- July 18, 2018 – Reviewer comments due and received;
- August 10, 2018 – Information Request (IR) distributed to the Government of the Northwest Territories (GNWT) Departments of Infrastructure and Lands regarding land tenure;
- August 17, 2018 – Response to IR due and received;
- September 11, 2018 – Sediment sampling completed by the Town;
- January 9, 2019 – Confirmation from the GNWT regarding deposit of dredged materials;
- January 15, 2019 – GNWT posted a letter to the Online Review System (ORS) confirming its approval; and
- **February 7, 2019 – Application presented to the Board for decision.**

By July 18, 2018, comments and recommendations on the Application were received from 6 reviewers:

- Environment and Climate Change Canada (ECCC);
- Fisheries and Oceans Canada;
- GNWT – Department of Environment and Natural Resources (ENR);
- GNWT – Department of Lands (Lands);
- Katlodeeche First Nation (KFN); and
- MVLWB Staff.

The Town of Hay River responded by August 17, 2018.

### **3.0 Decision**

After reviewing the submission of the Town, the written comments received by the Board and the Staff Report prepared for the Board, the Board, having due regard to the facts, circumstances, the merits of the submissions made to it, and to the purpose, scope, and intent of the MVRMA and *Waters Act* and Regulations made thereunder, has determined that Licence MV2018L7-0002 should be issued, subject to the scope, definitions, conditions, and term contained therein. The scope, definitions, conditions, and term set forth in the Licence have been developed to address the Board's statutory responsibilities and the concerns that arose during the regulatory process. The Board's determinations and reasons for this decision are set out below.

The Town did not specify a duration required for the Licence. The description of the work suggests it could be complete in one ice-free season. Reviewers, including the GNWT, requested information on the final disposal location for the dredges sediment. Since the GNWT are the owners of the lands upon which the dredged material is proposed to be stockpiled, the Board decided to set the term of the Licence to 5 years so that the Town can identify a location for final disposal of the dredged material.

The scope of the Licence ensures the Licensee is entitled to conduct activities which have been applied for and screened by the Board. In setting out the scope of the Licence, the Board endeavoured to provide enough detail to identify and describe the authorized activities, without be unduly restrictive or prescriptive.

Parts E and G of the Licence contain conditions applying to waste management activities for the dredged materials and are consistent with standard conditions included in previous Licences issued by the Board. Dredged sediment quality must meet the Residential/Parkland Criteria in the Government of the Northwest Territories' *Environmental Guideline for Contaminated Site Remediation* prior to disposal at the designated stockpile area. This is the quality achieved by sediment sample results submitted to the Board and GNWT prior to obtaining approval to stockpile the material on Commissioner's lands. Sediment sample results submitted during the course of Application review indicate that these criteria are achievable.

Parts G and H require the resubmission of the Waste Management Plan and Spill Contingency Plan for Board approval prior to operations. These plans should be updated to address reviewer concerns and recommendations made during Application review. In particular, these plans should address the methods and implementation of sediment and erosion control measures for both dredging activities and stockpile management and identify an appropriate final disposal location for the dredged sediment.

**4.0 Conclusion**

Water Licence MV2018L7-0002 contains provisions that the Board deems necessary to ensure and monitor compliance with the MVRMA and the *Waters Act* and the Regulations made thereunder, and to provide appropriate safeguards in respect of the Town's use of the waters and deposit of waste. The Board will provide additional referenced material or documents if requested in writing to do so.
