Happy New Year Earl,

We have reviewed the reports along with the water officer at ENR and there are no concerns on our end for this project.

**Subject:** Porritt Landing Dredging

Hi Derise/Gary, I am trying to get things back up and running on the Porritt landing Dredging Project with the Mackenzie Valley Land and Water Board. Have you had an opportunity to go through the soil samples I sent at the end of November to see if the material is acceptable? If the Town is granted permission to place the excavated materials on MTS property I would like to start the work after river break up when the river is most turbid, likely second or third week in May. If you have any questions or concerns please contact me. Thanks
