Subject: FW: Discontinuance and Final Plan for MV2019J0019

Good afternoon Kyle and Danielle,

Attached you will find a notice of request for discontinuance submitted by Redbed Resources Corp. Redbed has submitted a new application to cover all activities under MV2019J0019 and additional activities (mineral exploration). The new application is out for review and comment now, my hope is that when I present the new application to the Board, I can also present the request for discontinuance as well as final clearance.

Let me know what your thoughts are.

Thanks

Tyree

Hi Tyree,

Thank you again for your help.

Please see attached letter of discontinuance.

Still waiting on input about muds and waste oil, etc. for the Security worksheet so once I get that info I'll email you the completed form.

Teresa

Subject: Discontinuance and Final Plan for MV2019J0019

Good afternoon Teresa,

There are other documents that I will need for MV2019J0019. Essentially what I am needing from you is a request to discontinue the Permit (MV2019J0019) and I will also need a final plan for the Permit.

The final plan is fairly simple, it is just a map showing what has been done on site (essentially the same map that was in the application) and an indication of any lands used.

I have attached a link to a [letter](#) submitted by another company for you to use as an example.

The rationale for you to request the discontinuance is so that you are not left trying to administer two authorizations and that you have submitted an application to cover the activities under MV2019J0019 and additional activities.

If this is at all confusing, please give me a call.

Thanks

Tyree

Good morning Tyree,

The cheque was sent by courier to your attention on Friday so hopefully you'll get it today or tomorrow.

I did reach out to the communities again this morning and have logged that engagement.

Please see attached final documents and let us know if you require anything further.

Thank you for all your help.

Teresa
