Transport Canada - New Permit application - Fort Smith Airport Monitoring Wells (MV2019X0012) (MVLWB)

By submitting comments and recommendations to the Online Review System, you and/or your organization become a Party to this Proceeding and, as such, are expected to follow the Boards' [Rules of Procedure](#).

Item Description

***** Please note that this item has been extended in order to capture all parties on the distribution list. Please note that some parties have already responded in the review.*****

Transport Canada (TC) has submitted a complete application for a type B land use permit (permit). The purpose of this Application is to conduct groundwater monitoring at Fort Smith Airport, in Fort Smith, NT. This includes the installation of monitoring wells and the use of drill equipment and vehicle.

Reviewers are invited to submit comments and recommendations using the Online Review System (ORS) by the review comment deadline specified below. If reviewers seek clarification on the submission, they are encouraged to correspond directly with the Applicant prior to submitting comments and recommendations.

Please provide comments and recommendations on the documents linked below. Reviewers may also wish to consider providing an overarching recommendation regarding whether they are in support of the submission, to provide context for comments and recommendations and to assist the Board with its decision.

Please note that the draft Permit has been developed using the MVLWB's current Standard Land Use Permit Conditions Template. The purpose of this draft Permit is to allow reviewers to comment on possible conditions. These draft materials are not intended to limit in any way the scope of reviewers' comments. The Board is not bound by the contents of the draft Permit and will make its decision at the close of the proceeding on the basis of all the evidence and arguments filed by all reviewers.

Under the Preliminary Screening Requirement Regulations of the Mackenzie Valley Resource Management Act (MVRMA), the Board must conduct a preliminary screening for an application for a proposed development that requires a land use permit, unless it is exempt from preliminary screening in accordance with the Exemption List Regulations. Reviewers are encouraged to provide comments and recommendations (e.g. on impacts and mitigation measures) to assist with the completion of the preliminary screening.

Please be advised that comments made by reviewers regarding impacts of this project to wildlife and wildlife habitat in this preliminary screening will inform the GNWT Minister of Environment and Natural Resources' determination regarding whether a Wildlife Management and Monitoring Plan will be required for this project as per Section 95 of the *Wildlife Act*.

All documents that have been uploaded to this review are also available on our public Registry. If you have any questions or comments about the ORS or this review, please contact Board staff identified below.

REVIEW COMMENT TABLE

Transport Canada - New Permit Application - Fort Smith Airport Monitoring Wells (M020180012) (MVLW)

By submitting comments and recommendations to the Online Review System, you accept your registration under a Public Access Policy and you agree to follow the Board's [Rules of Procedure](#).

Item Description

*** Please note that this item has been extended in order to capture all parties on the distribution list. Please note that some parties have already responded on the system.***

Transport Canada (TC) has submitted a complete application for a Land Use Permit (LUP) for the purpose of the development of a public airport monitoring well at Fort Smith Airport, in Fort Smith, NT. This includes the installation of monitoring wells and the use of a pump and storage tank.

Reviewers are invited to submit comments and recommendations using the Online Review System (ORS) by the review comment deadline indicated below. If reviewers seek clarification on the submission, they are encouraged to correspond directly with the Applicant prior to submitting comments and recommendations.

Please provide comments and recommendations on the documents listed below. Reviewers may also wish to consider providing an overarching recommendation regarding whether they are in support of the submission, to provide context for comments and recommendations and to assist the Board with its decision.

Please note that the draft permit has been developed using the MVLW current standard Land Use Permit Conditions Template. The purpose of this draft permit is to allow reviewers to comment on possible concerns. These draft permits are not intended to set final policy, they are only intended as comments. The Board must be satisfied by the contents of the draft permit application to make its decision on the basis of the information and evidence provided by the applicant.

Under the Permitting Authority Requirements of Regulation of the Multinational Valley Water Management Act (MVA), the Board will submit a preliminary review of an application for a proposed development that requires a Land Use Permit (LUP) and will provide a preliminary decision in accordance with the Multinational Valley Water Management Act. Reviewers are encouraged to provide comments and recommendations (e.g. an overall recommendation) to assist with the completion of the permit application.

Please be advised that comments made by reviewers regarding impacts of this project on wildlife and riparian habitat in the traditional territory of the Dene/Métis of the Government of British Columbia, including the Dene/Métis of the Government of British Columbia, will be considered in the context of the Wildlife Management and Monitoring Plan will be provided for this project as per section 10 of the Wildlife Act.

All documents that have been uploaded to the review web system on this public register. If you have any questions or comments about the ORS, this review, please contact Bob's Vail (bvail@ec.gc.ca) below.
