**Date:** Monday, October 19, 2020 3:24:15 PM

---

4 and 5 are fine. 35 and 40 were backwards. 44, 45, 46 relate to East

Thanks,  
Terence

**Subject:** Paramount Liard West and East Review

Hi Terence,

In reading the public review comments, recommendations and responses for the [West review](#) I noticed what may be a few errors in the response to MVLWB comment ID-3 where Paramount provided feedback on [draft conditions](#):

- Paramount recommended removal of conditions 4 and 5 as they relate to drilling (cont.), but conditions 4 and 5 are not related to drilling but rather 'quarry setback' and 'parallel watercourse setback';
- It seems the response for conditions 35 and 40 may be mixed up; and
- It seems the response for conditions 44, 45, 46 and 48 pertains to Liard East.

Can you reply to this email clarifying the intended response so I can be sure to bring the correct evidence to the Board?

The responses for the [East review](#) look to align, but perhaps it's best to quickly confirm this as well.

Regards,  
Andy
