07-08-2020	Northwest Territory Metis Nation	Jake Heron	Jeff Hussey and Andrew Williams	Telephone	Requested dates for presentation to the NWTMN. Jake tentatively suggest August 10, 11, 12.	Meeting time was not confirmed	None
07-08-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Jeff Hussey	Telephone	Left message requesting the Chief call back to setup up meeting with Chief Louis.	n/a	None
11-08-2020	Akaiitcho Territory Government	Stephanie Poole	Andrew Williams	Email	Asked if emails addresses were correct for Chief Marlowe at LKDFN and for the Akaiitcho Dene First Nations	Replied with new email addresses; sent emails to Richard Simon, Greg Guthrie, and Sarah Taylor.	None
11-08-2020	Deninu K'ue First Nation	Chief Louis Balsillie	Jeff Hussey	Telephone	The chief was busy and said he would call back	n/a	None
11-08-2020	Town of Hay River	Stacey Barnes	Andrew Williams	Email	Presentation update on the PEA and upcoming permitting to the Council	Questions asked and responses: 1 Has PPML contacted NTPC? Response: Yes, we have been in contact with NTPC regarding the mines power requirements. Some of the power can be provided by NTPC however Taltson will not have enough capacity to meet the mines full power requirements so the mine will have to generate additional power on site. 2. What will be the nature of the workers shifts? Response: The actual shift configurations are preliminary; however, we are planning on 12-hour shifts. This will required that workers are accommodated at site as driving back after a shift would be a safety concern. The rotation for the crews is still under discussion, While 2 weeks on and 2 weeks off are common in the northern mines, there are other options given the road access to the site, such as 4 days on , 3 off.	Presentation
12-08-2020	K'atl'odeeche First Nation	Peter Redvers	Andrew Williams	Email	Forwarded email invitation for online meeting (Teams)	Meeting invitation accepted.	Presentation
12-08-2020	Northwest Territory Metis Nation	Jake Heron	Jeff Hussey	Telephone	To arrange for meeting to present project post PEA		None
13-08-2020	Northwest Territory Metis Nation	Jake Heron	Jeff Hussey	Telephone	Followed up on date to represent PEA results. Jake suggested two presentations, the first to the Environment staff on during the NWTMN meeting on 28-29th August.	Jake will respond will a time slot to present the PEA. 28 August 2020: Jake advised that they would contact us with the time slot.	None
13-08-2020	Deninu K'ue First Nation	Chief Louis Balsillie	Jeff Hussey	Telephone	Requested date for PEA and permit presentation. The chief said he would contact his SAO to determine a date.	Chief called back and said he needed to review upcoming council meeting agenda and would confirm the date	None
14-08-2020	City of Yellowknife	Brooklyn Poeschuk	Andrew Williams	Email	Followed up on request to present PEA results and upcoming permit applications	A Williams responded and Paula Mackenzie setup meeting date for August 20, 2020	None
18-08-2020	Hamlet of Fort Resolution	Tom Beaulieu	Andrew Williams	Email	Request an opportunity to present the PEA results and upcoming permit applications	Response Received from SAO Tom Beaulieu that he would provide letter to Mayor and Council at the next meeting. Indicated the future employment would be one of the items that Council may wish to discuss as well as business opportunities, contracts and management may be other topics that Council wishes to discuss	Letter
19-08-2020	Akaiitcho Territory Government/DKFN	Richard Simon	Andrew Williams	Email	Request an opportunity to present the PEA results and upcoming permit applications	No Response as of 18 September 2020	Letter
19-08-2020	Akaiitcho Territory Government/LKDFN	Greg Guthrie	Andrew Williams	Email	Request an opportunity to present the PEA results and upcoming permit applications	No Response as of 18 September 2020	Letter
19-08-2020	Akaiitcho Territory Government/YKDFN	Sarah Taylor	Andrew Williams	Email	Request an opportunity to present the PEA results and upcoming permit applications	No Response as of 18 September 2020	Letter

19-08-2020	Lutselk'e Dene First Nation	Andrew Williams	Hanna Catholique	email	Notified PPML of possible meeting date for August 26th, 2020.	Confirmed the August 26th meeting date	
19-08-2020	Town of Hay River	Andrew Williams	Stacey Barnes	email	Request from Stacey for PPML to fill out request for letter of support.		Letter of Support Form
20-08-2020	City of Yellowknife	Mayor Alty, Kerry Penny (Dir, Econ Dev and Strategy)	Jeff Hussey and Andrew Williams	Online Presentation	Presented update on the Pine Point project based on the results of PEA including the project description, upcoming permit applications and EA initiation package submission.	<p>Questions and responses:</p> <p>1. Mayor asked about employment rotations and has PPML completed a Labour Resource Study. PPML replied that at the PEA level we have not yet undertaken a Labour Resources Study. This would be addressed in later studies.</p> <p>2. K Penny asked about where, when and how many employees PPML would require.as the City of YK has several infrastructure projects in the 2020's. PPML replied that apart from the high-level employment numbers in the PEA we have not yet scheduled in detail employment timing and positions. PPML undertook to keep the City apprised as planning continues and timing etc. is firmed up.</p> <p>3. Has PPML presented to the YK Chamber of Commerce. PPNL has not presented to the YK Chamber, however PPML has presented to the NWT Chamber of Mines. K Penney provided a contact for the Chamber of Commerce.</p>	Presentation
20-08-2020	Fort Providence First Nation	Maggie Levavasseur	Andrew Williams	Telephone	Called private number and explained who I was and that I had been calling various numbers on the web site without success. Maggie provided a new number. I also noted that Maggie had been sent some emails related to permit applications and engagement requests	Maggie provided a new number for the Fort Providence Band Office and contact name, Michael Hadley	None

24-08-2020	Lutselk'e Dene First Nation	Hanna Catholique	Andrew Williams	Email	PPML confirmed the August 26th conference call date and time.	LKDFN confirmed the date and time	None
24-08-2020	Lutselk'e Dene First Nation	Hanna Catholique	Andrew Williams	Email	Sent meeting invitation with conference call details and PDF of PPML presentation.	Hanna acknowledged receipt of the presentation PDF.	None
25-08-2020	K'atl'odeeche First Nation	Chief Martel, Sub Chief Lamalice, Councillors R Sondfer, P Sabourin, and J Studney, R Lamalice, P Redvers, D Miller, P Riley, D Cardinal	Jeff Hussey, Andrew Williams, Jesse O'Brien	Online Presentation	<p>Purpose of the meeting was to provide and update on the PEA results, upcoming permit applications and TK studies. Introduction that Golder wants to work with communities to determine how they'd like to participate in socio-economic and TK studies and how these studies should be undertaken.</p> <p>KFN expressed concern that Osisko and PPML are paying too much attention to the Hay River Métis Government Council (which only has asserted and not recognized rights in the KFN Exploration Agreement area), the Town of Hay River (which has no rights or authorities outside of town boundaries), and Indigenous governments that have no connection at all to the Pine Point or KFN areas (such as Łutsel K'e First Nation). KFN continues to have environmental and socio-cultural concerns about the project, so mitigation of impacts on boreal caribou, fish in Ejeé Túé Dehé (Buffalo River), air and water contamination, and cultural sites in the area, particularly near Ejeé Túé Dehé, will be very important, along with appropriate management of transient workers entering Hay River or the Hay River Dene Reserve. KFN is not being adequately informed in a timely matter of all of the economic opportunities available and may be getting bypassed in favour of Hay River workers and businesses. KFN members will need advance training in order to qualify for potential job opportunities, but that training may not be available. The time and cost of engagement with Osisko / PPML in regulatory and pending IBA negotiations is not being covered so puts a strain on KFN personnel and resources.</p> <p>From a KFN perspective, some of the stated and implied outcomes from this session are as follows: Consistent with the KFN-PPM Exploration Agreement (EA), KFN needs to be viewed by Osisko-PPM as the primary rights holder in the EA area and treated accordingly, for activities taking place in the area but also given the transportation route through the KFN area. Osisko / PPM needs to clearly recognize that the Hay River Dene Reserve is a distinct community from the Town of Hay River and act accordingly, not lumping KFN in under the term 'Hay River'. KFN needs to be involved in the environmental assessment and regulatory process, both by being able to review licence applications in advance, but also contractually to provide environmental monitoring and traditional knowledge research services. Beginning immediately, KFN needs to be informed fully and in a timely manner of all pending opportunities for employment and contracting services, not only for those opportunities that fall explicitly under the KFN EA but also for opportunities that are open for applications or bids from all parties, not just EA parties (KFN or otherwise). KFN and Osisko / PPM need to develop a short- and longer-term training plan for KFN members, such that members can be prepared for opportunities when and as they arise. KFN and Osisko / PPM need to immediately begin the process of negotiating a Benefits Agreement, as contemplated in the EA, and further need to discuss funding arrangements for KFN's meaningful participation in these negotiations. The EA Implementation Committee needs to meet in the near future to review these concerns and outcomes and plan how to address them. Presented slides describing the Confirmation and Exploration Program scope and out intention to submit these applications.</p>	PPML is preparing follow-up notes from this meeting	Presentation
25-08-2020	Lutselk'e Dene First Nation	Hanna Catholique	Andrew Williams	Email	Provided updated copy of presentation for meeting on the 26th	n/a	Presentation
25-08-2020	Lutselk'e Dene First Nation	Andrew Williams	Hanna Catholique	Email	Confirmed receipt of presentation package	n/a	None
25-08-2020	Deninu K'ue First Nation	Chief Louis Balsillie	Jeff Hussey and Andrew Williams	Telephone	Advised Chief Louis that PPML wished to present the results of the PEA to the Chief and Council. Chief Louis queried why were we including others beside the DKFN/KFN in this consultation.	The call was terminated prematurely. PPML will try to reconnect with the Chief.	None

Engagement Record for Pine Point Mining Limited
26 June 2020 to 18 November 2020

Date	Affiliation	Contact	Contact Initiated By	Engagement Activity Type	Issue / Recommendation from Party	Proponent Response / Resolution	Supplementary Materials
25-08-2020	Lutselk'e Dene First Nation	Hanna Catholique	Andrew Williams	Email	PPML provided presentation and conference call in details for meeting on 26 August 2020 to LKDFN	None required	Presentation
26-08-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	Email	Andrew noted that we had not discussion the 2018 Permit Renewal during out meeting with the KFN leadership.	Peter responded that we had essentially covered this off in the discussion on Permit Applications	
26-08-2020	Deninu K'ue First Nation	Jeff Hussey and Andrew Williams	Carol Ann Chaplin	Email	Changed date of meeting with Council from August 26, 2020 to September 2, 2020	PPML confirmed the change	None
26-08-2020	Deninu K'ue First Nation	Chief Louis Balsillie	Jeff Hussey and Andrew Williams	Telephone	Informed Chief Balsillie that PPML was providing information on the project to various communities in the region as required by our engagement plans. We informed the Chief of our presentation to LKDFN regarding the project and that LKDFN informed PPML that under umbrella of the Akaitcho Dene First Nations there was agreement among the ADFN regarding benefit agreements for future projects in the Akaitcho Lands.	Chief Louis acknowledged the information.	None
26-08-2020	Lutselk'e Dene First Nation	Stephanie Poole, Mervin Able, Adeline Jonasson, Ron Desjarlais	Jeff Hussey, Andrew Williams, Jesse O'Brien	Teleconference	Purpose: Go over the Preliminary Economic Assessment and Project Description, upcoming permit applications and introduce social baseline work. Key Feedback from LKDFN: LKDFN is Akaitcho, and the Project is in their territory, and asserts that they should benefit just as much as DKFN. LKDFN would like an IBA. Concern that LKDFN have not been targeted for engagement. LKDFN requests funding to support engagement with their communities given that they cannot invite PPML in for community meetings. LKDFN would like to conduct their own socio-economic and Traditional Land and Resource Use studies, and would like PPML to fund these. Concern re: impacts to water quality and levels in Great Slave Lake, and the risk of COVID-19 to workers. Presented slides describing the scope of work for the upcoming Confirmation and Exploration Program application and EA Initiation package.	PPML is preparing follow-up notes from this meeting	Presentation
27-08-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	Email	Acknowledged date for presentation to DKFN Council on September 2nd. Reiterated request for comment on the 2018 permit renewal/extension application. We will discuss the renewal/extension application at the meeting.	n/a	Letter
27-08-2020	Town of Hay River	Stacey Barnes	Andrew Williams	Email	Follow up email regarding renewal extension application	Stacey replied that council was issuing letters of support for upcoming new permit applications and for PPML's upcoming EA Initiation Package submission.	None
27-08-2020	West Point First Nation	Wendy Ross	Andrew Williams	Email	Follow-up with WPFN enquiring if WPFN would like to discuss the application extension/Renewal	n/a	None
27-08-2020	West Point First Nation	Wendy Ross	Andrew Williams	email	Copied previous letter to Chief Cayen. Invited comment should WPFN wish.		
28-08-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	Email	Noted that we had duplicated our engagement log for KFN. Also was not aware that the permit would be submitted when they were but committed to reviewing and meeting the boards schedule.	Apologised for any confusion and committed to removing duplicates from the log.	
28-08-2020	Town of Hay River	Stacey Barnes	Andrew Williams	Email	Provided letter of support for extension of LUP/WL (2018 permits) and the Confirmation and Exploration Program Application	Thanked Council for their support	Letter
28-08-2020	NWTMN	James Heron	Andrew Williams	Email	Provided presentation for our scheduled meeting to present PEA and upcoming permit applications.		
28-08-2020	NWTMN	Andrew Williams	James Heron	Email	Thanked PPML for providing a copy of the presentation and requested a schedule of potential upcoming work.		
28-08-2020	West Point First Nation	Chief Bonnetrouge; Maggie Levavasseur	Andrew Williams	email	Sent letter advising of our upcoming application to renew MV2018C0024 and MV2018L2-003.		

Date	Affiliation	Contact	Contact Initiated By	Engagement Activity Type	Issue / Recommendation from Party	Proponent Response / Resolution	Supplementary Materials
31-08-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	Email	Provided a shortened copy of presentation for upcoming meeting		
31-08-2020	Northwest Territory Metis Nation	Gary Bailey, James Heron, Trevor Beck, Allan Heron, Lloyd Cardinal, Norman (last name unknown)	Jeff Hussey, Andrew Williams, Jesse O'Brien	Teleconference	<p>Introduction that Golder wants to work with communities to determine how they'd like to participate in socio-economic and TK studies and how these studies should be undertaken. NWTMN is concerned that KFN doesn't have any land rights in the area. J Hussey noted that part of the project is located west of the Buffalo River and some to the east of the Buffalo River on land which KFN does have rights. NWTMN wondered why Teck and Avalon are being consulted. J Hussey noted that Teck still has rights over the Tailings Impoundment Area and Avalon did have land tenure in the past.</p> <p>In response to questions from NWTMN, J Hussey noted that there is no plan to reuse the railbed, the highway will be used to transport concentrates., and that the railbed is a federal responsibility. No plan to reroute the highway at his time. If future planning and design suggested that the highway needs to be rerouted, we would investigate further. Also noted that not all pits are full and PPML would not be releasing water to surface.</p> <p>NWTMN noted the people who would need to be on the Joint Implementation Committee (JIC) Stressed the need to establish what are the opportunities at the mine. Question regarding what contracts are going to be available and how long with they be for. J Hussey replied very little work is currently happening but PPML is ramping up at the site and PPML is keeping Jake Heron informed. The Joint Implementation Committee needs to be established to take the lead on future benefits. NWTMN noted that while the work opportunities may be small there could be room for the Métis. They would be willing to share opportunities with KFN. If there are opportunities at Hay River, please give the NWTMN an opportunity to bid for this work. Note that in the past, there was an agreement that each community (Fort Resolution and DFKN) would get a percentage of the drilling. J Hussey clarified that that agreement was not successful. NWTMN noted that their agreement includes a payment when the project is approved and asked if that has occurred. J Hussey noted that we have not yet reached the approval stage yet, which will require a Feasibility Study to be completed and approved. It is expected that a Feasibility Study will take 8 to 12 months to complete. Finished the presentation with some slides that described the Confirmation and Exploration Program scope, including camp requirements.</p>	Jake Heron and Jeff Hussey to arrange a date for the JIC meeting; Send Presentation to J. Heron for the record.	Presentation
01-09-2020	K'at'l'odeeche First Nation	Peter Redvers	Andrew Williams	Email	Peter asked is the current application was only for the licence renewals and that we would be submitting new applications for the CEP program in the future or are they for production?	Responded that Peter was correct: New applications would be forthcoming for the expanded program (CEP) and that we would submit a new EA initiation package after that.	
01-09-2020	Deninu K'ue First Nation	Andrew Williams	Sarah Gillis	email	Declined invitation to meeting on August 22, 2020		
02-09-2020	K'at'l'odeeche First Nation	Peter Redvers	Andrew Williams	email	KFN requested a letter regarding IBA negotiations and potential funding for the negotiations. KFN indicated that they would be supporting the permit renewals	Thanked KFN for their support for the permit renewals and committed to following up on the IBA negotiations	
02-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	email	Cancelled schedule meeting for today due to unavailability of councillors.	Responded that PPML was flexible and could DKFN suggest new dates.	
02-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	Email	Requested to reschedule the meeting from 2 September to 9 September as some Councillors could not attend the 2 Sep	Changed meeting invitation to 9 September.	None
02-09-2020	West Point First Nation	Andrew Williams	Wendy Ross	email	Responded to my email of 27 August 2020 and advised the Janice Switlo would be contacting PPML.	Acknowledged Ms. Ross's reply.	
03-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	email	Suggested date for new meeting on Sep 9, 2020		
03-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	email	Acknowledged suggested date for presentation to Chief and Council to present PEA and upcoming permit applications.		

Date	Affiliation	Contact	Contact Initiated By	Engagement Activity Type	Issue / Recommendation from Party	Proponent Response / Resolution	Supplementary Materials
04-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	email	Sent invitation for meeting between PPML and DKFN Chief and Council. Purpose of meeting is to provide and update on the recently completed PEA and the upcoming permit applications.		
08-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	Email	Accepted Meeting invitation for 9 September 2020		
09-09-2020	Deninu K'ue First Nation	Chief and Council	Jeff Hussey, Andrew Williams, Jesse O'Brien	Teleconference	<p>Purpose: To present the results of the Preliminary Economic Assessment and the next steps for the project, including permit applications and TK studies. Request for support from the DKFN for the upcoming project permit applications</p> <p>Key Outcomes: Introduction that Golder wants to work with communities to determine how they'd like to participate in socio-economic and TK studies and how these studies should be undertaken.</p> <p>Question if the old pits have machinery at the bottom will these be cleaned up by the Project? J Hussey responded that the cleanup of the old Pine Point mine site was now the responsibility of the GWNT and the Federal Government.</p> <p>DKFN expects to benefit from the Project in the DKFN's area. J Hussey responded that at this early stage in the project the main activity is drilling. clarification of project schedule provided, and discussion regarding training and associated funding available to communities. The benefits for the DKFN need to be discussed at a Joint Implementation Committee meeting. As the construction period approaches in 2023 PPML will have completed the Environmental Assessment and the Feasibility Study. PPML will be engaging closer to that time on the benefits that will be available to the DKFN. DKFN noted an arrangement with Forward Mining through Rows Construction.</p> <p>DKFN concerned about how PPML will protect workers from COVID if people are coming in from outside. J Hussey noted that workers follow all the COVID-19 rules mandated by the Chief Public Health Officer and explained the camp and commuting measures in place.</p> <p>Discussion around how PPML would monitor contaminants such as lead and zinc, as well as contaminants from blasting. Discussion about next steps and conclusion of meeting.</p>	PPML acknowledged they would only work with DKFN businesses or their designates when planning social baseline studies. Jeff Hussey to arrange a Joint Implementation Committee meeting. Agenda to include DKFN Members using their own equipment for work on the Project. PPML to share Covid 19 protocols for workers at the Exploration Camp.	Presentation
10-09-2020	K'atl'odeeche First Nation	Andrew Williams	Doug Cardinal	email	Acknowledged PPML thanks for the support of the project		
10-09-2020	West Point First Nation	Janice Switlo	Damian Panayi	email	Response to request for engagement provided by Ms. Janice Switlo on behalf of WPFN. Ms. Switlo provided feedback on the relationship between the Crown, Canada and GWNT with WPFN. Ms. Switlo offered to meet with PPML to explain this situation in a conference call and follow up with a written brief.	Arranging a meeting with Ms. Switlo and West Point First Meeting	
15-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Daniel Slade	Email	Placed order for core boxes with DKFN.		
18-09-2020	Town of Hay River	Stacey Barnes	Andrew Williams	Email	Thanked the Council for their letters of support		
21-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	Email	Requested confirmation of DKFN attendees at presentation by PPML on 9 September 2020	Provided list of attendees	
22-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	Email	Provided copies of PPML Covid-19 protocols as requested during our meeting on September 9, 2020		
23-09-2020	Deh Gah Gotie First Nation	Chief Joachim Bonnetrouge	Andrew Williams	Email	Contacted Chief Joachim by telephone. Followed with email providing an introduction to myself and including letters previously sent.		Letters
24-09-2020	Deh Gah Gotie First Nation	Andrew Williams	Chief Joachim Bonnetrouge	Email	Acknowledge receipt and responded with question about the project mining rare earths what has been the progress of reclamation since the mine shutdown. Follow up conversation to be arranged to discuss details of the project.		
25-09-2020	Timberworks	Robert Mills	Andrew Williams	Telephone	Left message and asked for Robert to call me back.		

Date	Affiliation	Contact	Contact Initiated By	Engagement Activity Type	Issue / Recommendation from Party	Proponent Response / Resolution	Supplementary Materials
25-09-2020	Timberworks	Robert Mills	Andrew Williams	Telephone	Contacted Robert via telephone. Discussed PPML's proposed activities in relation to Timberworks activities. There should be some synergy in the two operations. Agreed to stay in touch as plans develop.	Timberworks is not expecting to commence operations in the near future	None
30-09-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Andrew Williams	Email	Responded to request for information regarding numbers of southern workers on site. We have 10 southerners of a total of 20 workers as on 21 September 2020.		
02-10-2020	NWTMN	James Heron	Andrew Williams	Email	A Williams informed Jake that he would be reaching out to follow up on items from our last meeting.	Jake indicated he was travelling and would reach out to set a date when he returned	
20-10-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Jesse O'Brien	Email	Follow-up by Jesse after discussion on September 9, 2020, to discuss the preferred method of validating the available TK as well as supplement the TK.		
26-10-2020	NWTMN	James Heron	Andrew Williams	Email	Advised Jake that PPML intends to submit a new Land Use Permit and Water License for the Confirmation and Exploration (CEP) program. We requested that the NWTMN review these documents and provide a response by 11 November 2020 (2 weeks, as per agreement between the NWTMN and PPML). Provided a link to access the documents.	Jake Responded that he would forward the documents to Tim Heron, NWTMN Land and Resource Manager. A new link was provided to Tim by Golder.	Link to documents
26-10-2020	NWTMN	Andrew Williams	James Heron	Email	Notified PPML that he would forward the link to Tim Heron (Land and Resource Manager) for his review and action.	Provided separate link to Tim Heron so that he could download the CEP documents.	
26-10-2020	K'atl'odeeche First Nation	Peter Redvers	Andrew Williams	Email	Advised Peter that PPML intends to submit a new Land Use Permit and Water License for the Confirmation and Exploration (CEP) program. We requested that the KFN review these documents and provide a response by 11 November, 2020 (2 weeks, as per agreement between the KFN and PPML). Provided a link to access the documents.		
26-10-2020	Deninu K'ue First Nation	Chief Balsillie	Andrew Williams	Email	Advised Chief Balsillie that PPML intends to submit a new Land Use Permit and Water License for the Confirmation and Exploration (CEP) program. We requested that the DKFN review these documents and provide a response by 11 November 2020 (2 weeks, as per agreement between the DKFN and PPML). Provided a link to access the documents.		
26-10-2020	Deninu K'ue First Nation	Jessica	Andrew Williams	Email	Carol Ann Chaplin's out of office email directed enquires to Jessica. Forwarded letter of PPML's intention to submit an application for a Water License and Land Use Permit for the Confirmation and Exploration Program		
26-10-2020	K'atl'odeeche First Nation	Peter Redvers	Andrew Williams	Email	Advised Peter that PPML intends to submit a new Land Use Permit and Water License for the Confirmation and Exploration (CEP) program. We requested that the NWTMN review these documents and provide a response by 11 November 2020 (2 weeks, as per agreement between the KFN and PPML). Provided a link to access the documents.		
27-10-2020	K'atl'odeeche First Nation	Peter Redvers	Andrew Williams	Email	Acknowledged receipt of link to the CEP documents and was forwarding to Carrie Breneman, KFN's regulatory consultant.		
28-10-2020	NWTMN	James Heron	Andrew Williams	Email	Provided Jake with list of potential economic opportunities during Exploration		
28-10-2020	NWTMN	Andrew Williams	James Heron	Email	Jake asked for PPML to have a discussion around potential economic opportunities based on template provided by PPML. Attended a Zoom meeting with Jeff Hussey and the NWTMN presidents to discuss the template.		
28-10-2020	NWTMN	Tim Heron	Andrew Williams	Email	Asked Tim to confirm that he could download the documents provided by Golder.		
30-10-2020	NWTMN	James Heron	Jesse O'Brien	Email	Follow-up by Jesse after discussion on August 31, 2020, to discuss the preferred method of validating the available TK as well as supplement the TK.		
30-10-2020	K'atl'odeeche First Nation	Peter Redvers	Jesse O'Brien	Email	Follow-up by Jesse after discussion on August 25, 2020, to discuss the preferred method of validating the available TK as well as supplement the TK.		
30-10-2020	NWTMN	James Heron	Jesse O'Brien	Email	Follow-up by Jesse after discussion on August 31, 2020, to discuss the preferred method of validating the available TK as well as supplement the TK.		

Date	Affiliation	Contact	Contact Initiated By	Engagement Activity Type	Issue / Recommendation from Party	Proponent Response / Resolution	Supplementary Materials
03-11-2020	K'atl'odeeche First Nation	Jesse O'Brien	Peter Redvers	email	Responding to Jesse O'Brien request to validate and supplement TK. Peter requested copies of the earlier studies Jesse referred to in his email. If Jesse could provide the report, Peter suggested a meeting on the week of November 16.		
04-11-2020	K'atl'odeeche First Nation	Peter Redvers	Andrew Williams	email	Peter responded with comments on the Confirmation and Exploration permit application documents.		
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q1 KFN CEP Program Review : How long is this expanded program expected to last and for what proposed timeline (dates / seasons / etc.)?	PPML will start the program as soon as the authorizations are issued. At time we anticipate the greatest activity in the first 18-24 months (collection of metallurgical data, dewatering tests and delineation drilling) but continuing for the life of the authorization at a lesser intensity as deposits are more fully delineated or new exploration targets are targeted for drilling).	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q2 KFN CEP Program Review: Are the 3000 drill sites in addition to the existing licences (i.e. additional sites) or are they simply the previous drill sites carried forward? Or are a portion of them new sites?	These are all new drill holes, many of them in areas that previous drilling already exists as well as some new sites. We have at least five deposits that will fall in the KFN area.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q2.1 KFN CEP Program Review: How many of these sites will be in the KFN agreement area?	PPML estimates that approximately 10 to 20% of the drill sites will be in the KFN area. The actual number of drill holes are yet to be finalized.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q3 KFN CEP Program Review: What are the possible dimensions of the proposed test pits?	Typically, the pits will be 3 to 5 m deep, 5 to 6 m long, and 1.5 to 2.0 m wide but may be smaller or larger depending on the local conditions. The disturbed area at each site will be approximately 20 m by 20 m in extent. The test pits are described in Section 7.2 of the project description.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q3.1 KFN CEP Program Review: :How many of these pits would be within the KFN agreement area?	PPML estimates that up to 10% of the test pits will be in the KFN area. The actual number of test pits is yet to be finalized.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q4 KFN CEP Program Review: What are the estimated dimensions of the blast holes required for sampling mineralized bedrock?	Typically, around 270mm, but depending on the drill rig and the information sought from the blast, they may be larger (up to 406mm)	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q4.1 KFN CEP Program Review: How large is the blast radius from the explosion site and what is the potential impact on wildlife in proximity to the blast radius?	The drill holes are spaced to obtain the required fracturing of the rock. In most cases the holes will be a few metres apart (e.g. 3-20m), which is a proxy for the blast radius. The Blast Supervisor is responsible to make sure all blasts proceed safely, which includes confirming that there are no people or large mammals in the blast radius. Considering that there is extensive activity at a blast site prior to blasting (heavy equipment, light vehicles, drilling, blast horns), wildlife are very unlikely to be in the vicinity prior to a blast.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q 4.2 KFN CEP Program Review: Will blasting occur in the KFN agreement area?	Specific locations for the blasting are not yet finalized, but it is likely there will be at least one test, potentially more, in KFN Agreement Area.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q4.3 KFN CEP Program Review: With respect to drilling, test pits, and/or blasting, what economic opportunities re this work would be made available to KFN?	Opportunities that could exist would be drill services, blasting services, personnel support for drilling, excavation, and screening of material to collect samples, environmental monitoring.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q5 KFN CEP Program Review: With the addition of a 200-person camp, how many person-days will personnel be required to be in camp during the expanding exploration program?	We will operate crew rotations similar to those currently in place for exploration (2 weeks in – 2 weeks out or 3 weeks in -3 weeks out)	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q5.1 KFN CEP Program Review: Will the camp be dry?	Yes	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q5.2 KFN CEP Program Review: Where will the workers likely be coming from?	We would like to hire as locally as possible and will be encouraging our contractors to do the same. If skilled positions cannot be filled by	

Date	Affiliation	Contact	Contact Initiated By	Engagement Activity Type	Issue / Recommendation from Party	Proponent Response / Resolution	Supplementary Materials
						local workers, we may look further afield for suitable workers, including from outside the NWT.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q5.3 KFN CEP Program Review: KFN CEP Program Review: What is the proposed shift rotation?	This is to be determined, but will be dependent upon the position, season and where the employee is based. See response to Question	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q5.4 KFN CEP Program Review: Will personnel be allowed to spend furlong or other off time in Hay River and how will behaviour be monitored?	Our experience is that workers chose to return to the homes and families when they are between rotations and PPML will encourage this. We do not expect them to be in Hay River except coming to and from the airport. If workers leave the site during a shift, or on return to the site, the normal alcohol and drug rules will apply and those not meeting the rules will be removed from the project.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q5.5 KFN CEP Program Review: How will PPML determine who supplies and operates the camp?	We will go out to the market to find a camp supplier and a camp operator (janitorial, kitchen) by a Request for Proposal (RFP) process and would require that the responses to the RFP include the steps the bidder will take to benefit the FN's as part of their contract (joint venture or similar participation, employment training, subcontractors etc.).	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q5.6 KFN CEP Program Review: KFN has an interest in the economic opportunities associated with camp supply but is also concerned about social impacts of imported workers in the Hay River / Hay River Dene Reserve area.	We understand this concern. We believe there will be limited social interaction by southern workers as they will wish to return to their homes and families at the end of a rotation, which PPML will encourage.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q6 KFN CEP Program Review: Will water quality testing occur for water withdrawal?	Water withdrawn for camp use will be treated and tested prior to use. The quality of water moved for groundwater testing will be tested according to the Groundwater Management Plan prior to discharge. Water used for drilling will be deposited to a sump or natural depression removed from the source waterbody, as per the Land Use Permit requirements. The quantity of water used or moved will be recorded in all cases.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q6.1 KFN CEP Program Review: In the case of using water from existing pits, will PPML be testing the water composition/quality?	See response to Question #6. The quantity of water used will be recorded regardless of the source. Water quality will be tested according to the method of discharge rather than whether the water came from a natural source or a man-made structure.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q7 KFN CEP Program Review: With both the test pitting and the blasting of mineralized bedrock, is there any potential for Acid Rock Drainage or Metal Leaching from the crush bedrock or in the test pits? Will the predictions of seepage water chemistry address ARD and ML potential and subsequent impacts?	ARD and ML potential is very low due to the neutralising effects of the carbonate limestone rocks. The material from the test pits and blasting will be returned to the pits once the samples/testing is complete. No material will be left on the surface and so there will not be a source of ARD/ML.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q8 KFN CEP Program Review: Significantly, in the Draft Conditions Annexed to and Forming Part of Land Use Permit for Exploration and Advanced Exploration at the Pine Point Mine, two key conditions from the previous LUP and WL are missing:	The Draft Conditions for the LUP and WL were developed based on the standardized conditions provided by the MVLWB. PPML provides the following responses:	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q8a KFN CEP Program Review: "The Permittee shall not conduct any activity within 500 metres of the Buffalo River and 1000 metres of Great Slave Lake."	While PPML agrees that these waterbodies should be protected, there should be assurance that activities such as water quality monitoring of the Buffalo River and water withdrawal from Great Slave Lake may continue. To address this request, PPML has removed all waterbodies within 500 m of the Buffalo River as potential water sources from Water Withdrawal Plan. CHANGES MADE: Change made to Water Withdrawal Plan removing all sources within 500m of the Buffalo River	

Date	Affiliation	Contact	Contact Initiated By	Engagement Activity Type	Issue / Recommendation from Party	Proponent Response / Resolution	Supplementary Materials
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q8b KFN CEP Program Review: "The Permittee shall not move any equipment or commence any drilling when one or more caribou are within five hundred (500) metres. Caribou and all wildlife shall be given the right of way at all time."	The current version of the Draft LUP conditions no longer has this condition which is from our 2017 permit. We have added it back to the draft conditions for this application. We have also included in the application that was sent for review, the Wildlife Protection Plan framework, which will be applied to this authorisation.	
04-11-2020	K'atl'odeeche First Nation	Andrew Williams	Peter Redvers	email	Q8c KFN CEP Program Review: Why are these conditions not carried forward into the new applications?	These were unintentionally omitted and have added back to the draft conditions.	
09-11-2020	NWTMN	Tim Heron	Andrew Williams	Email	Asked Tim to confirm if he was having difficulties downloading the documents since the document site does not show any activity from the NWTMN.	No Reply from Tim. Just in case, requested Golder to resend the link to Tim.	
10-11-2020	K'atl'odeeche First Nation	Jesse O'Brien	Peter Redvers	email	Advised that Camila Morcos would be contacting Peter to provide the documents and set up a follow-up discussion		
10-11-2020	NWTMN	James Heron	Andrew Williams	email	Shared my contact details with all Presidents (Garry Bailey, Lloyd Cardinal, Trevor Beck, Allan Heron)		
12-11-2020	NWTMN	James Heron	Andrew Williams	Email	Acknowledged that problems with the CEP documents could not be physically printed and committed that this would be rectified for future document transmittals.		
12-11-2020	NWTMN	Damian Panayi	Tim Heron	Email	Tim advised Damian that the documents provided through Golder were not printable	Damian advised he would send printable documents, however the 2-week period was over and could not promise that any comments received would be included in the final documents submitted. Damian pointed out that there would another change to comment when the board posted the documents on the online review system.	
12-11-2020	NWTMN	James Heron	Camila Morcos	Email	Provided copies of TK studies done for the NWTMN by Swisher. Requested an opportunity to discuss further		
12-11-2020	Deninu K'ue First Nation	Carol Ann Chaplin	Camila Morcos	Email	Provided copies of TK studies done for LKDFN by Swisher. Requested an opportunity to discuss further		
12-11-2020	K'atl'odeeche First Nation	James Heron	Camila Morcos	Email	Provided copies of TK studies done for the NWTMN by Swisher. Requested an opportunity to discuss further		
13-11-2020	K'atl'odeeche First Nation	Camila Morcos	Peter Redvers	Email	Peter responded to Camila's request for a meeting and provided a suggested date		
16-11-2020	West Point First Nation	Chief Cayen	Andrew Williams	email	Attached letter informing council of our intent to seek amendment to LUP MV2017C0024	No Response to letter at this time	Letter
17-11-2020	West Point First Nation	Andrew Williams, cc. Chief Cayen	J Switlo	email	Response to email from A Williams to Chief Cayen and J. Switlo earlier this day. J Switlo advised there was insufficient notice for the suggested meeting dates (due to an email problem). J Switlo advised she would first discuss the matter with Chief and Council.	Responded suggesting that the Community suggest alternative dates for a presentation.	
17-11-2020	West Point First Nation	Chief Cayen, J. Switlo	Andrew Williams	email	Responded to email of 10 September, 2020 from Ms. Switlo requesting an opportunity to present the Project status to the WPFN community.		
18-11-2020	West Point First Nation	Chief Cayen, J. Switlo	Andrew Williams	email	Responded to Ms. Switlo's letter, unfortunately with email problems it was delayed and suggested meeting dates had passed.	Requested that WPFN provide meeting dates that were suitable. The purpose of the meeting would be to update the FN on the project progress and to receive any feedback
