Hi Tyree,

Thank you again for all the reminders in regards to the NTPC Bluefish Hydro WL renewal process.

At this time, NSMA will not be submitting an intervention for this process. We would still like to attend the Pre-hearing Conference on Oct 28 though, if possible. We appreciate the opportunity to participate, listen, and learn from other parties during these processes.

A question for you: what entails a Written Proceeding in lieu of a Public Hearing? I am still relatively new to the LWB process and I am less familiar with this alternative.

Thanks,  
Jess

Good morning everyone,

This email serves as a reminder that Interventions are due to be submitted on October 20, 2020. Board staff are requesting that Interveners indicate in their Intervention if they intend to participate in a formal Public Hearing or if a Written Proceeding will suffice.

Board staff would also like to note that in accordance with rule 93 of the Rules of Procedure, that no new evidence can be submitted after the deadline for Interventions has passed, unless a Request for Ruling is submitted under Rule 22 and approved by the Board.

If you have any questions please feel free to contact me.
