**Attention: Sean Joseph**

**RE: New Land Use Permit and Water Licence for Pointed Mountain NWT**

**Dear Mr. Joseph,**

Paramount Resources Ltd. ("Paramount") is hereby applying for a Land Use Permit Water License to facilitate activities at the former oil and gas sites at Pointed Mountain. Paramount became the operator of the project area in the fall of 2017. Paramount is seeking an exemption from preliminary screening for these applications as the current Land Use Permit associated with the project, MV2014X0011, was screened. The current applications have a narrower scope than the current approval. The new Land Use Permit and Water Licence have been scoped to address the next five years at the project area. The work contemplated will allow Paramount to gather the necessary information to refine the scope of work required for an updated Remediation Action Plan and closure activities.

Supporting documents that will be uploaded for the applications include:

- Pointed Mountain Spill Contingency Plan
- Pointed Mountain Waste Management Plan
- Pointed Mountain Engagement Plan
- Pointed Mountain Application Attachment "A"

Paramount has sent cheques for the Licence and Permit application fees and associated water use fees. If there are any questions, please do not hesitate to contact the undersigned at (403) 206-3859 or email me at [terence.hughes@paramountres.com](mailto:terence.hughes@paramountres.com).

Yours truly,

**PARAMOUNT RESOURCES LTD.**
