Dear Sir/Madam:

**Re: Land Use Permit S12X-006
Slater River Groundwater Baseline Drilling Program
Request for Comments**

Attached for your review and comment is the Land Use Permit Application from Husky Oil Operations Limited (Husky) for their groundwater baseline drilling program in the Tulita District. Additional information submitted can be viewed on our Public Registry at <http://www.mvlwb.ca/slwb/registry.aspx> under "Initial Application", "Additional Information to Application" document dated October 26, 2012. Your comments will be used in the evaluation of this application. Husky is proposing;

- Conducting a groundwater investigation program consisting of up to fifteen bedrock wells on five well pads (up to three wells on each well pad) and twenty shallow wells.

Please submit your comments or concerns in writing to our office (by fax or email), or through the online review system, no later than **Wednesday November 21, 2012**. Should you have any questions regarding this request or the project, please contact the Sahtu Land and Water Board office. Should you need additional time, please contact us prior to the above noted date.

Thank you for your time and effort on this matter.
