Attention: Paul Dixon, Executive Director

Dear Paul:

Re: Site Wide Services Land Use Permit and Water Licence Applications for Husky Oil Operations Limited - Slater River Program

Please find enclosed applications and supporting documentation for a Land Use Permit (LUP) and Water Licence (WL) for the Husky Oil Operations Limited (Husky) Site Wide Services in association with the Slater River program. Husky is applying for a five-year Type A Land Use Permit under Section 4 of the Mackenzie Valley Land Use Regulations and a Type B Water Licence under Section 8 of the Northwest Territories Water Regulations for the same five-year period.

The Slater River program area is located approximately 40 kilometres (km) south southeast (SSE) of the Town of Norman Wells on the west side of the Mackenzie River (see Program Map in Appendix 2). In order to allow for improved efficiency and overall reporting to the Sahtu Land and Water Board (SLWB) and Aboriginal Affairs and Northern Development Canada (AANDC), Husky is applying for a new LUP and WL for Site Wide Services to consolidate the following:

- LUP S11T-002 – Permits camp operations, winter access construction and use of a staging area and security station.
- LUP S12F-007 – Permits construction and maintenance of an all-weather road, camp/storage site construction, an airstrip and quarrying.
- WL S11L3-002 – Permits water for access construction and camp operations.
- WL S12L8-007 – Permits for the installation of bridges and culverts on the all-weather road.

This new Site Wide Services LUP and WL covers all of the infrastructure and facilities, including access road, barge landing/staging area, security station, camp, and airstrip) that will support Husky's current and future exploration (seismic, drilling, and testing/completions) programs. The new land use area being applied for in this LUP application is as follows:

Base Camp extension (200m x 305m) = 6.1ha
All-weather airstrip extension (60m x 60m) x 2 = 0.72ha
Total = 6.82ha; Round Up to 7ha
2ha included in initial fee = 5 ha

Husky acknowledges that all liability and existing Terms and Conditions outlined in each existing LUP and WL listed above will be consolidated in the new LUP and WL.

Husky Oil Operations Limited

Two cheques made out to the Receiver General for Canada are attached to cover the land use permit fee (\$400.00) and one cheque to cover the water licence application fee (\$30.00). Should you have any questions regarding this application please contact the undersigned by telephone at (403) 298-6655, by fax at (403) 750-1722, or by email ken.hansen@huskyenergy.com.

Sincerely,

HUSKY OIL OPERATIONS LIMITED

GARETH LEWIS, FOR KEN HANSEN. AUG. 23/13
