Attention: Sabrina Sturman, Regulatory Specialist

Dear Sabrina:

**Re: Husky Slater River Drilling Program - Request for Extension of Land Use Permit S13X-003 and Renewal of Water Licence S13L1-006**

Husky Oil Operations Limited (Husky) acknowledges that the above Land Use Permit (LUP) and Water Licence (WL) will be expiring on October 23, 2018. At this time we are requesting a two-year extension on the LUP and a renewal of the WL with a revised expiry date of October 23, 2020.

The LUP and WL are applicable to Husky's oil and gas exploration activities associated with the Slater River project. Husky has land use activity associated with the infrastructure licenced under this WL such as access, staging area, campsite and quarries. Husky has an associated hydrocarbon well program permitted and licenced under S13A-002 and S13L1-005 respectively. Two wells associated with these existing approvals; Little Bear N-09 and Little Bear H-61 are currently both suspended. Husky is planning to carry out suspension and abandonment activities necessary to keep these wells in compliance with the Well Suspension and Abandonment Guidelines and Interpretation Notes issued by the Government of Northwest Territories Office of the Regulator of Oil and Gas Operations (OROGO). This work is scheduled to take place during the 2018/19 winter and will require the infrastructure licenced under S13X-003 and S13L1-006 in order to access the wells.

No new footprint is required during the extension period; activities will be conducted on existing and approved leases. Given that this extension and renewal request will not require any new land use or modifications to approved works, Husky humbly requests that this LUP extension and WL renewal request be exempt from Preliminary Screening.

Please find enclosed the Water Licence renewal application fee (Cheque # 60183845). The WL renewal application form and LUP extension request have been uploaded to the registry for your review. I trust this letter notification and associated fee is sufficient for the Sahtu Land and Water Board to grant an extension of the LUP and a renewal of the WL.

If you require additional information or, if you have any questions, please contact the undersigned at 403-523-2313 or by email at ([jenica.vonkuster@huskyenergy.com](mailto:jenica.vonkuster@huskyenergy.com)).

Sincerely,

**Husky Oil Operations Limited**
