

Friday April 27, 2018 11:40 am

Good Day Bonnie,

Since the proposed modification does not require any deposit of waste, cause the Licensee to exceed the annual authorized water withdrawal limits, and will implement best practices to protect the fish and fish habitat then the Resource Management Officer does not have any concerns and supports the Licensee in this request.

Please contact me if you require anything further.

Tim Morton  
Resource Management Officer

**Subject:** Imperial Oil Water Licence Modification Request

Dear Members of the Imperial Oil Distribution List,

Imperial Oil has submitted a request for a modification to the Water Licence (see attached).

The request is to withdraw water from the Mackenzie River at a location other than the approved water intake for the operation.

This is necessary in order to complete flushing of a flowline prior to start-up of operations.

The proposal is not in contravention of any Acts or the Licence and has been received by the Board more than 60 days prior to the commencement of the modification.

The SLWB is requesting that all stakeholders or affected parties review the proposal and respond to the SLWB if you would like a formal review of this request to be undertaken.

The SLWB will also be requesting the Water Resources Inspector to provide written confirmation that the proposed modification is acceptable.

Please respond to this e-mail by **May 4, 2018** if you would like the SLWB to undertake a formal review of this proposed modification.

Regards,

Bonnie Bergsma, M.Sc.
