Re: Imperial Oil Resources Limited's Application for Type A water Licence Renewal  
(S13L1-007)

Dear Sir,

In reference to the above, on behalf of the TDLC, I write to express our deep concern about the 1940's approach that IORL is taking in 2014.

It is inconceivable that the ongoing and future operations of the IORL are not transparent to the First Nations community that IORL has operated in since the 1930's.

Yours truly,

J. Richard W. Hall, CEO
