Attn: Ken Hansen

**RE: Land Use Permit S13X-003
Site Wide Permit – Winter Access**

Dear Ken Hansen,

I was in the area of your project on December 30th, 2013 and was approached by your representative Mr. Bobby Dreaver to discuss the need for additional width on your winter road access from the G.N.W.T. Winter Road to the Mackenzie River.

Mr. Dreaver asked for an additional 3 meter width for a distance of approx. 1.5 kms. to facilitate the safe passage of equipment. The request is in anticipation of hauling crushed material from Vermillion Ridge to your all weather road.

This request does not change the scope of your permit and therefore does not require an amendment. Furthermore, the additional clearing conforms to Section 10 (b) of the Mackenzie Valley Land Use Regulations and no Program Modification is needed either.

As a result, the further clearing of this section is hereby approved. Please ensure you conform to the conditions of your permit that specifically deals with brush disposal and tree salvage.

If you have any questions, please contact me at 867 587-2911.

Sincerely,

Steve Deschene
Resource Management Officer
