

# Schedule “A”

## Record of Engagement

Date	Individual / Organization	Purpose	Issues	Mitigation / Action Required
January 31, 2018	Tulita Renewable Resources Council	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	Concern over using fish lakes in the area for the well abandonment program.	Husky will only use existing water sources that were previously approved under the current Land Use Permit; no new water sources will be requested.
January 31, 2018	Tulita Land Corporation	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	Concern over how much extra traffic there will be on the GNWT road during the winter and if Husky could help repair it to make it safer.	Husky confirmed that traffic for our well abandonment program would likely be only 30% of what it was like during the well drilling program and program length is very short in duration. Husky is already making plans to financially support the GNWT road but cannot interfere with Department of Transportation contractors.
January 31, 2018	Fort Norman Métis Land Corporation	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	General discussion; no particular concern	None
January 31, 2018	Tulita District Land Corporation	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	Concern over how much extra traffic there will be on the GNWT winter road during the program.	Husky confirmed that traffic for our well abandonment program would likely be only 30% of what it was like during the well drilling program and program

Date	Individual / Organization	Purpose	Issues	Mitigation / Action Required
				length is very short in duration. Husky committed to discussing with vendors to coordinate the loads.
January 31, 2018	Tulita Community	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	General discussion; no particular concern	None
February 1, 2018	GNWT-Lands (Trevor Bremner, Steve Deschene); GNWT-ENR Water Resources (Alex Lynch)	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	Requested update of LUP S04A-004 and WL S04L1006 (Sah Cho L-71 Wellsite), specifically the status of phytoremediation program at well centre. Requested update of LUP S02A-004 and WL S02L1-003 (B-44 program) and LUP S05A-007 and WL S05L1-004 (K-44 program), specifically the status of soil remediation program at well centre. Discussed upcoming summer site inspections schedule.	Husky is currently tracking down soil monitoring reports that were prepared for the legacy sites (L-71, B-44, K-44) in 2011-2014 but were never finalized nor submitted. Once these have all been located they will be submitted to the LSWB for review in order to begin the process of closing the sites.
February 1, 2018	Norman Wells Community	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	General discussion; no particular concern	None
February 2, 2018	Danny McNeely, MLA Sahtu	Brief in-person meeting to discuss Slater River project update summaries	General discussion; no particular concern	None

Date	Individual / Organization	Purpose	Issues	Mitigation / Action Required
February 2, 2018	Norman Wells Land Corporation and Norman Wells Renewable Resources Council	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	No particular concern. Discussion mainly about other permits and licences.	None
March 12, 2018	Tulita Community, Fort Norman Métis Land Corporation, Tulita Land Corporation	In-person meeting to review Husky's vendor procurement process, employment & contract opportunities, and policies that will be in effect during well abandonment program	General discussion about process and policies	None
March 12, 2018	Norman Wells Community and Norman Wells Land Corporation	In-person meeting to review Husky's vendor procurement process, employment & contract opportunities, and policies that will be in effect during well abandonment program	General discussion about process and policies	None
March 20, 2018	Sahtu Land and Water Board staff	In-person meeting to discuss Slater River project update (summary of 2017 activities, well abandonment scheduled for Winter 2018/19, status of Land Use Permits and Water Licences)	Requested update of LUP S04A-004 and WL S04L1006 (Sah Cho L-71 Wellsite), specifically the status of phytoremediation program at well centre. Requested update of LUP S02A-004 and WL S02L1-003 (B-44 program) and LUP S05A-007 and WL S05L1-004 (K-44 program), specifically the status of soil remediation program at well centre. Discussed upcoming LUP and WL expiries and well as surface water monitoring under associated LUP S12X-006.	Husky is currently tracking down soil monitoring reports that were prepared for the legacy sites (L-71, B-44, K-44) in 2011-2014 but were never finalized nor submitted. Once these have all been located they will be submitted to the LSWB for review in order to begin the process of closing the sites. Husky will submit LUP extension and WL renewal requests to the SLWB for LUP S13A-002 and WL S13L1-005 as well as LUP S13X-003 and WL S13L1006.

Date	Individual / Organization	Purpose	Issues	Mitigation / Action Required
April 9, 2018	Tulita District Land Corporation	Submit Project Access Plan for EL494 (Slater River program) as required under Access Agreement	None	None
