Dear Mr. Kerkhoven,

**Re: Suncor Energy Inc. – Re-suspension of Tweed Lake M-47 Well Site – Type “A”  
Land Use Permit S14A-006 and Type “B” Water Licence S14L1-004 Terms and  
Conditions**

Consideration has been given to your request dated November 20, 2014 in which you seek clarification on above noted Land Use Permit and Water Licence terms and conditions pertaining to quantity of water withdrawals and historical and archaeological setbacks.

The Board finds justification provided for a daily limit on the allowable direct water use as reasonable and approves the requested amendment for the quantity of water not to be exceeded from 299 m<sup>3</sup> per day to 15,000 m<sup>3</sup> per year.

The Board also confirms Suncor’s interpretation of the archaeological buffer identified in Condition 6 of the Water Licence and Condition 27 of the Land Use Permit as referring to lands contemplated within the application outside of the Colville Lake municipal boundary. The Board appreciates Suncor’s consultation with the Prince of Wales Northern Heritage Centre, seconds PWNHC recommendation and anticipates from Suncor that it will further cooperate with the community members of the Colville Lake for a full protection of the site.
