Subject: RE: Canyon Creek bridge

Hi Nathalie,

Attached to this email, you will find a copy of the most recent inspection report conducted a few weeks ago on the road. As seen in the report, there are still sediment and erosion issues occurring along the entire road. Until these issues are fixed, and all remediation is deemed complete, the permit will not be recommended for file closure. This permit will expire on December 19th, 2020. I would suggest applying for a 2-year permit extension from the Sahtu Land and Water as soon as possible; this will mitigate any delays if work needs to be completed after December 19th, 2020.

If you have any questions or concerns, do not hesitate to contact me.

Cheers,

Jon

Jonathan Gillingham (B Sc ENR)
