Subject: Re: Request for extension to address contaminated soil at SMB

Hi Sam,

After reviewing the documents that you provided regarding the clean up effort at Sawmill Bay, I authorize an extension until September 1st 2016 to remove the remaining soils.

Please ensure that all of the contaminated soil is removed by this date.

Tim

Hi Tim,

CARD would like to request an extension on the Inspector's Order at SMB to be for end of summer next year 2016/17. Up to now, a summary memo was provided to you on CARD's effort in removing the contaminated soil on site (CIDM #753321) and provided soil lab results at the base of each excavation (CIDM #760017).

CARD is anticipating a field program next summer in the Great Bear Lake area and will address the remaining contaminated soil at Sawmill Bay by end of summer next year.

Please let me know if this is acceptable

Regards,

Stanley
