Dear Ms. DeCoste,

### **Great Bear Lake Sites 2016 Water Quality Monitoring Report v. 3 Board staff Confirmation of Conformity with Board direction–Plan Approved as submitted**

The Sahtu Land and Water Board (SLWB) met on July 20, 2018 to consider Indigenous and Northern Affairs Canada – Contaminant and Remediation Divisions' (INAC-CARD) 2016 Water Quality Monitoring Data Report (v.2.0) for the Great Bear Lake Sites Remediation Project (the WQMR) to fulfill Part E, condition 1 of Licence S15L8-001. At that meeting the Board conditionally approved the report and required CARD to submit revisions to the WQMR by August 20, 2018, to be in accordance with comments made during the regulatory review period. Board direction in the issuance letter states that the WQMR would be considered approved upon written confirmation of conformity from Board staff.

The Board has received the final version 3.0 of the report on July 13, 2018 and Board staff has confirmed concordance with Board direction. This letter hereby confirms that version 3.0 of the 2016 Water Quality Monitoring Data Report satisfies the Board's direction in the July 20, 2018 issuance letter and the revised WQMR is considered approved as submitted and has been filed on the Public Registry.

The full cooperation of INAC-CARD is anticipated and appreciated. If you have any questions or concerns please contact Bonnie Bergsma at (867) 496-2778 or email [bonnie.bergsma@slwb.com](mailto:bonnie.bergsma@slwb.com).

Respectfully,

Bonnie Bergsma  
Regulatory Specialist
