

## **WASTE MANAGEMENT PLAN**

### **NORMAN WELLS CCG WHARF REPAIRS, DREDGING**

**PROJECT NUMBER: R.084190.001**

**CONTRACT NUMBER: EP9221821221/001/PWU**

**HRN CONTRACTING LTD.**

## **ENVIRONMENTAL POLICY**

HRN Contracting Ltd (*HRN*) is committed to achieving and maintaining a high standard of environmental stewardship in our operations while conducting business as a resource development and industrial construction company.

*HRN* will seek continuous improvement in all matters that affect the Environment, by engaging employees, community, client, government and industry.

***HRN* will specifically:**

- Communicate openly with our clients, the government, community leaders and employees regarding Environmental issues.
- Comply with all applicable regulations, laws and industry standards. Where regulations do not provide adequate Environmental protection *HRN* will apply methods that will minimize Environmental impact.
- Implement a risk management system that identifies controls and monitors potential environmental risks arising from *HRN* operations.
- Ensure that employees are aware of this policy and their environmental responsibilities by utilizing the (IRS) system of individual accountability when it comes to the Environment at every stage in the work process.
- Provide site-specific training for all employees and contractors, emphasizing that they must report all concerns or potential problems to their Supervisors immediately in an effort to prevent damage to the environment.
- Ensure that suppliers of goods and services, including sub-contractors, comply with this policy and are aware of their responsibilities in relation to *HRN*.
- Implement sustainable business practices in order to make efficient use of materials and energy, while reducing the use and production of hazardous substances.
- Continue to improve our Environmental record through ongoing development of our programs and processes, and to ensure that new ideas and technology are always at the forefront of our business.
- Audit for effectiveness *HRN's* programs, our work sites and our practices to ensure the environment always remains in the highest regard.

The information in this policy does not take precedence over applicable government legislation in which all workers should be familiar. Always refer to the regulations for your workplace to ensure compliance.

**Miles Safranovich, P. Eng**  
**Vice President**

HRN Contracting Ltd (HRN) is committed to achieving and maintaining a high standards of environmental stewardship in our operations. The Norman Wells CCG Warf Repairs, Dredging project Management team will ensure the site is kept clean, orderly and all waste removed on a continuous basis.

#### **Waste Disposal**

All combustibles on a daily basis; food scraps, paper etc. as well as non-hazardous solid "inert" waste (i.e. Scrap metal, pipe, wood, plastics, liners, Styrofoam) will be disposed of at the town landfill.

#### **Used Tire Disposal**

If found on site, used tires will be disposed of in the approved landfill location.

#### **Used Container Disposal**

Containers having contacted, collected or contained an acute hazardous material, corrosive or reactive substance must be triple washed with water prior to disposal.

Metal containers can be disposed as scrap metal in the approved landfill after being triple washed and crushed.

Any free liquid in the container must be disposed of properly, and the residual material allowed dry or solidify.

#### **Unforeseen Hazardous Waste/Contaminated Material**

Once material composition is known and deemed hazardous or contaminated it will be dealt with in accordance with territorial regulations.

A clean and organized work place **free** of debris is a safe and productive workplace. HRN will ensure all employees are aware of their environmental responsibilities at every stage of the site project.
