APPLICATION FOR A NEW WATER LICENCE, AMENDMENT OF LICENCE, OR RENEWAL OF LICENCE

Application/Licence No:
 (amendment or renewal only)

<p>1. Name and Mailing Address of Applicant</p> <p>DFO Real Property, Safety & Security</p> <p>501 University Crescent</p> <p>Winnipeg, MB R3T 2N6</p> <p>Telephone: 204-984-8552</p> <p>Fax: 204-983-5192</p>	<p>2. Address of Head Office in Canada if Incorporate</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>Telephone: _____</p> <p>Fax: _____</p>
---	---

3. Location of Undertaking (Describe and attach a map, indicating watercourses and location of any proposed waste deposits).

The project will be undertaken at the CCG wharf located in Norman Wells, NT. Plan and description attached. Any waste resulting from the work will be disposed of at an approved land fill.

Latitude: 65.27089 Longitude: -126.770361
 Easting: 604059.342 Northing: 7240484.723

4. Description of Undertaking (Describe and attach plans)

The project involves two main components of work for repairs to the existing federally owned steel sheet pile wharf located at Norman Wells, NT: The demolition and removal of the top 2m of existing SSP (Steel Sheet Pile) and backfill and the installation of new SSP which will be welded to the existing SSP above the water line and new, full length SSP installed where required. The area behind the sheet piling will be infilled with rock and surfaced. New capping channel, steel curb, will be installed on the wharf. Amour stone will be placed along the east shoreline replacing a previous installation that has been eroded by the movement of ice. There may also be a requirement to excavate silt build up around the east and south face of the wharf.

Construction plans are not yet available as we are just in the planning stages and preparing to tender the design work for the project. We hope to have this tendered in the next couple of weeks with a final design by the end of March or mid-April, 2017.

5. Type of Undertaking.

- | | | | |
|-----------------------|-------|--|-------|
| 1. Industrial | _____ | 5. Agriculture | _____ |
| 2. Mining and Milling | _____ | 6. Conservation | _____ |
| 3. Municipal | _____ | 7. Recreation | _____ |
| 4. Power | _____ | 8. Miscellaneous X: Conduct repairs to existing steel sheet pile wharf | |

6. Water Use

- | | | | |
|--|-------|--------------------------------------|-------|
| To obtain water | _____ | Flood control | _____ |
| To cross a watercourse | _____ | To divert water | _____ |
| To modify the bed or bank of a watercourse | _____ | To alter the flow of, or store water | _____ |

Other (describe): No water use required – repairs to existing structure only.

7. Quantity of water involved (litres per second, litres per day or cubic meter per year), including both quantity to be used and quality to be returned to source.

N/A

8. Waste deposited (quantity, quality, treatment and disposal)

N/A

9. Other persons or properties affected by this Undertaking (give name, mailing address and location). Attach a list if necessary.

Copies of the application will be provided to Public Services and Procurement Canada who are the contracting authority for this project.

10. Predicted environmental impacts of Undertaking and proposed mitigation.

Please see attached CEAA Project Effects Determination Report

11. Contractors and sub-contractors (names, addresses and functions). Attach a list if necessary.

To be determined – contract has not yet been tendered

12. Studies undertaken to date. Attach a list if necessary.

Structure Condition Report (2015) and Inspection Report (2009)

13. Proposed time schedule.

Start date: June 2017

Completion date: October, 2017
