Dear Mr. Lanteigne,

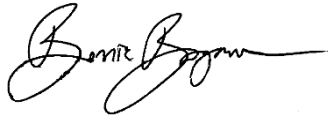

**Re: Emergency Response Spill Contingency Plan Updated Appendix A and B
Board staff Confirmation of Conformity with Board direction–Plan Approved as submitted**

The Sahtu Land and Water Board (SLWB or the Board) met on February 28, 2018 to consider the additional documents submitted to the SLWB as required in the issuance letter dated April 19, 2017 for the Type B Water Licence S16L8-002 for dredging and repair to the Canadian Coast Guard Wharf in Norman Well. At that time, the Board approved the plans submitted and required DFO to submit revisions to the Emergency Response Spill Contingency Plan, with the deadline date of March 10, 2018, to be in accordance with comments made during the regulatory review period. Board direction in the issuance letter states that the Plan would be considered approved upon written confirmation of conformity from Board staff.

The revised Appendices A and B of the Emergency Response Spill Contingency Plan was received by the Board on March 8, 2018, after which Board staff confirmed concordance with Board direction. This letter hereby confirms that updated Appendices A and B of the Emergency Response Spill Contingency Plan satisfies the Board's direction in the February 28, 2018 Issuance Letter, and the updated Appendices of the Plan is considered approved as submitted and has been filed on the Public Registry.

The ongoing full cooperation of the Department of Fisheries and Oceans Canada is anticipated and appreciated. If you have any questions or concerns please contact Bonnie Bergsma at (867) 496-2778 or email bonnie.bergsma@slwb.com.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Bonnie Bergsma". The signature is fluid and cursive, with a long horizontal flourish extending to the right.
