**Subject:** S17L1-004 S17P-005 - Waste Management Plan and Sediment and Erosion Control Plan - Version 1.1  
**Attachments:** S17L1-004 S17P-005 - Staff Confirmation of Conformity - Feb 16\_18.pdf

Hello Sarah,

Please find attached a letter from Board staff confirming that Versions 1.1 of the Waste Management Plan and Sediment and Erosion Control Plan, received Feb 15, 2018, conform with Board direction of required revisions and thus are considered approved.

Should you have any questions or concerns, please contact me at your earliest convenience.

Dear Ms. McKenzie

**Re: Sediment and Erosion Control Plan Version 1.1 and Waste Management Plan Version 1.1  
Board staff Confirmation of Conformity with Board direction – Plans Approved as submitted**

The Sahtu Land and Water Board (SLWB or the Board) met on February 7, 2018 to consider the land use permit and water licence applications submitted by Enbridge Pipeline (NW) Inc. (Enbridge) to support the Saline River Line 21 Pipeline Integrity Dig Project. At that time, the Board granted issuance of both authorizations and required Enbridge submit revisions to the Spill Contingency Plan, Waste Management Plan, and Sediment and Erosion Control Plan, with the deadline date of February 16, 2018, to be in accordance with comments made during the regulatory review period and conditions included in the Water Licence (Part E, Condition 4 – Sediment and Erosion Control Plan scope). Board direction in the issuance letter states that the Plans would be considered approved upon written confirmation of conformity from Board staff.

The revised [Waste Management Plan](#) and [Sediment and Erosion Control Plan](#) (both Version 1.1) were received by the Board on February 15, 2018, after which Board staff confirmed concordance. This letter hereby confirms that Version 1.1 of both Plans satisfies the Board's direction in the [February 7, 2018 issuance letter](#), and the revised Plans are considered approved as submitted and are filed on the Public Registry. Board staff also acknowledge that the Sediment and Erosion Control Plan, Section 4.1.2, includes water quality monitoring details for turbidity and requests results are included in the Annual Water Licence Report required under Part B, Condition 8d.

The ongoing full cooperation of Enbridge is anticipated and appreciated. If you have any questions or concerns, please contact me at (867) 598-2413 ext 224 or email [sabrina.sturman@slwb.com](mailto:sabrina.sturman@slwb.com).

Respectfully,

Sabrina Sturman  
Regulatory Specialist
