As such, the focus of ENR's review was related to the items outlined within that letter. Further, ENR recommends that in future submissions by Transport Canada or its consultants, revision (or concordance) tables for new versions are included at the front of the document clearly outlining the sections that have been updated and how they have addressed the previous Board direction.

#### **Recommendation(s):**

- 1) ENR recommends that future plan updates submitted by the proponent include revisions tables outlining the changes from the previous plan versions.
