Sarah McKenzie
Manager, Regulatory Affairs,
Enbridge Pipelines NW Inc.,
200, 425 – 1st Street SW,
Calgary, AB T2P 3L8

Dear Ms. McKenzie,

Re: Board Review of Enbridge Notification to Establish Temporary Camp Use for 2019 Construction Season Under Permit S17P-005

The Sahtu Land and Water Board met on January 23, 2019 to consider the notification letter received on January 17, 2019 with respect to the use of the temporary camp permitted under Land Use Permit S17P-005 for the 2019 winter construction season. Enbridge will establish, maintain, and decommission the camp in compliance with the conditions of Permit S17P-005, and the Waste Management Plan ("WMP") and Spill Contingency Plan ("SCP") on file with the Board. The WMP and SCP have been reviewed and do not require updating. Enbridge will complete engagement with identified stakeholders in accordance with the approved Engagement Plan and submit an updated Engagement Record in the Annual Progress Report required under condition 7 of the Permit. The camp will be established to support pipeline operations and maintenance activities, regulated by the National Energy Board, which are restricted to the existing pipeline right-of-way. Enbridge will be using existing accesses, permitted under Enbridge's operations land use permit MV2013P0011.

The Board has reviewed all relevant documentation and has determined that the temporary camp may be re-established in 2019 under the conditions of Permit S17P-005 and in accordance with the Board approved WMP, SCP and Engagement Plan. A new Land Use Permit is not required.

This letter, all Inspection Reports, and related correspondence is part of the Public Registry and is intended to keep all interested parties informed of the manner in which the Permit requirements are being met.

Your full cooperation is anticipated and appreciated. If you have any questions or concerns, please contact Bonnie Bergsma at (867) 496-2778 or email at bonnie.bergsma@slwb.com.

Yours sincerely,

Sahtu Land and Water Board

Larry Wallace
Chair
