Dear Ms. Goddard,

**Re: Spill Contingency Plan Version 1.1
Board staff Confirmation of Conformity with Board direction – Plan Approved as submitted**

The Sahtu Land and Water Board (SLWB or the Board) met on January 29, 2018 to consider the land use permit application submitted by Government of Northwest Territories, Department of Municipal and Community Affairs (GNWT-MACA or MACA) to install monitoring wells in the vicinity of active, decommissioned, and/or closed landfill and sewage lagoon facilities in four communities within the Sahtu Region. At that time, the Board granted issuance of Permit S17X-006 and required Enbridge submit revisions to the Spill Contingency Plan, with the deadline date of February 28, 2018, to be in accordance with comments made during the regulatory review period. Board direction in the issuance letter states that the Plan would be considered approved upon written confirmation of conformity from Board staff.

The [revised Spill Contingency Plan](#) (Version 1.1) was received by the Board on February 20, 2018, after which Board staff confirmed concordance with Board direction. This letter hereby confirms that Version 1.1 of the Spill Contingency Plan satisfies the Board's direction in the [January 29, 2018 Issuance Letter](#), and the revised Plan is considered approved as submitted and has been filed on the Public Registry.

The ongoing full cooperation of MACA is anticipated and appreciated. If you have any questions or concerns, please contact me at (867) 598-2413 ext 224 or email sabrina.sturman@slwb.com.

Respectfully,

Sabrina Sturman
Regulatory Specialist
