Dear Mr. Harris,

### **Closure and Reclamation Plan – revision 4 – Version 3.0 – Approved Mineral Exploration Astro Project, Tulita District, NT**

At the Board meeting held on March 22, 2019 to consider the application for a Type A Permit, the Board conditionally approved the Closure and Reclamation Plan (version 2.0) submitted during the review period; requesting that a revised Plan be submitted within 15 days of the Permit start date (by April 9, 2019) to include the additional details about the long-term plan for reclamation of drill sumps and volumes and disposal methods for rock chips that were provided in the responses to review comments (SRRB ID5 and ID8).

The SLWB received the revised Closure and Reclamation Plan (version 3.0) on April 1, 2019. Board staff have reviewed this Plan and confirmed that the revisions conform with the Board direction. This Plan is therefore considered to be approved.
