## 1. Introduction

Evrin Exploration Canada Corp. (Evrin) is actively exploring the Astro Project in a region in the Northwest Territories parallel to the Yukon border within the settlement area of the Tulita District of the Sahtu Dene and Metis Comprehensive Land Claim Agreement (SDMCLCA). Evrin has been, and commits to continue, actively engaging with the appropriate Tulita District Sahtu Dene and Métis land claim organizations, government representatives and community groups in Norman Wells and Tulita. In addition, Evrin has been, and will continue to, conduct ongoing engagement and communication with the Government of the Northwest Territories (GNWT), federal government (e.g. INAC) and the Sahtu Land and Water Board (SLWB).

Evrin has identified that the Astro Project is located in Special Management Zone number 38 with the border of the Astro Project abutting the Doi T'oh proposed conservation initiative Zone number 39. Evrin has endeavored to meet all the appropriate conformity requirements as defined in the SDMCLCA (1-14) and as outlined in the cover letter to the Land Use Permit application.

Evrin has engaged C3 Alliance Corp. to help create a project that is mutually beneficial to indigenous persons, government, communities and the resource sector by identifying and implementing inclusive solutions ([www.c3alliancecorp.ca](http://www.c3alliancecorp.ca)).

This engagement plan outlines Evrin's commitment to open communication and sharing of information with rights holders and interested parties during the project.

## 2. Project Background

The Astro Project covers an area of Northwest Territories adjacent to the Yukon Border from 63.3°N to 63.5°N within the Backbone Range of the Mackenzie Mountains. Evrin has spent the summers of 2017 and 2018 exploring regionally in the Mackenzie Mountains as part of a larger Mackenzie Alliance. The Astro project was identified as a prospective target during this exploration and Evrin's future work will focus on Astro. Evrin is applying for a Class A Land Use Permit for the purpose of mineral exploration.

The Astro Project was staked in 2017 and 2018 by Evrin and is located in 1:250,000 NTS Map Sheets 105P. The project is currently in an early stage of mineral exploration and to date, there has been no mechanical disturbance of the land and there have been no new economically significant mineral discoveries within the area of exploration.

### 3. Engagement Plan

Exploration on the Astro Project is being conducted on lands within the Tulita District of the SDMCLCA. Developing open and transparent communications during the life of the permit will provide more clarity and assistance for the process of engaging all parties.

Engagement of affected parties and the public in general will help build cooperative working relationships and support for on-going work at the property. It will also serve to bring forward important issues, minimize delays due to opposition, and allow Evrim to become better informed on issues affecting indigenous peoples of the region and the sensitivity of land use operations.

The benefits of the Engagement Plan apply to both Evrim and potentially impacted parties. The Plan will provide structured dialogue for communications with the various governments and organizations that might be impacted throughout the life of the project. The Plan encompassed in this document will define the ongoing commitment of Evrim to the various groups.

The formal engagement and communication process will consist of:

- Communications that ensure adequate time for sharing information and review.
- Open two-way communications with indigenous governments and organizations in order to share information and maintain an open dialogue.
- The use of plain language when describing the technical aspects of the program.
- Implementation of the Engagement Plan with follow-up reporting and review.

Types of engagement that will be conducted under the auspices of the Plan will consist of:

1. In Person Meetings
2. Electronic mail (email)
3. Phone calls; direct and conference calls
4. Fact Sheets
5. Community Meetings (Open House sessions)
6. Traditional Knowledge Surveys

In-person meetings will allow for direct discussion of specific issues, initiatives and the addressing of any concerns. Email will allow Evrim to communicate with affected parties and obtain their input in order to address Project-related issues. Availability for phone calls and conference calls will allow for greater clarity of communications. Fact sheets will provide clarity of information in plain language to reduce public concerns.

Community 'open-house' meetings would be established to allow the public to hear relevant project information and provide the opportunity to ask questions and make comments. Evrim's goal is to be as transparent as possible in providing firsthand information, engagement and involvement.

## 4. Engagement Process

### Preparation

- Project Description
- Identification of Issues and Affected Parties
- Initiate Dialogue

### Communication

- Informative
- Open
- Engaging
- Active Participation

### Implementation

- Put Plan into Action
- Receive Feedback and Sharing of Ideas

### Modification

- Evaluation and Assessment
- Modify Plan

Evrin will scale the amount of engagement to the level of project activity, the more activity, the more engagement – less activity, less engagement. However, at a minimum, there will be at least one round of communication annually to update everyone on project activities. Any material change in the accepted plan of activities would be communicated directly to the affected parties and recommendations sought on how to engage related groups with ongoing communications. This will allow Evrim to maintain good two-way communications with affected parties, establish constructive dialogue and ultimately provide benefit to Evrim and all affected stakeholders.

Evrim has engaged C3 Alliance Corp. to help create a project that is mutually beneficial to indigenous persons, government, communities and the resource sector by identifying and implementing inclusive solutions ([www.c3alliancecorp.ca](http://www.c3alliancecorp.ca)). Michael Cunningham of C3 Alliance Corp. is Evrim's main contact during the engagement process. Questions regarding Evrim's engagement activities can be directed to:

- Stewart Harris (VP Technical Services at Evrim) [stewarth@evrimresources.com](mailto:stewarth@evrimresources.com) or
- Laurence Pryer (Project Geologist at Evrim) [pryerl@evrimresources.com](mailto:pryerl@evrimresources.com) or
- Michael Cunningham at [mcunningham@c3alliancecorp.ca](mailto:mcunningham@c3alliancecorp.ca)

Technical questions related to the project may be directed to:

- Stewart Harris (VP Technical Services at Evrim) [stewarth@evrimresources.com](mailto:stewarth@evrimresources.com) or
- Laurence Pryer (Project Geologist at Evrim) [pryerl@evrimresources.com](mailto:pryerl@evrimresources.com) or
- Paddy Nicol (CEO and Director of Evrim) [paddy@evrimresources.com](mailto:paddy@evrimresources.com) or
- Charles Funk (VP New Opportunities and Exploration) [charlesf@evrimresources.com](mailto:charlesf@evrimresources.com)

The Engagement Plan attached was included for review, discussion and comments by the affected parties prior to finalization. Once finalized, the plan will be utilized by Evrim.

The Land Use Permit (LUP) pre-application phase of the Engagement Plan began in early April 2018 with a round of email enquiries followed up by a round of phone calls and subsequent emails, with a company and project introductory information package included as attachments. The focus of this engagement were the Tulita District Land Corporations and Renewable Resource Councils. The April emails were followed-up by initial in-person face-to-face meetings held in Tulita at the end of May 2018. Ongoing communication, summer field work with local hiring, and email/phone-call engagement resulted in project update meetings being held in Norman Wells and Tulita at the end of November 2018.

Evrim then returned to Norman Wells and Tulita, as well as meeting the Tulita District Land Corporation in Calgary, in January 2019 to present and discuss a draft of this Land Use Permit document; hardcopies of the draft LUP application were left with the engaged parties. During this round of engagement, Evrim held a community 'open house' in Tulita as well as meetings with Land Corporations and Renewable Resource Councils. Input from this round of meetings was used to improve the Land Use Permit application prior to submission.

A Traditional Knowledge study (TK) is being undertaken by the Tulita Renewable Resource Council (TRRC) with input from members of the Norman Wells Renewable Resource Council. This study is currently in process. As

of January 31<sup>st</sup> ten interviews had been conducted with elders in Tulita and three in Norman Wells. Three interviews in Norman Wells remain to be conducted.

The TRRC has made it clear to Evrim that their TK Study is considered **CONFIDENTIAL** and is for the Evrim's use only; it is not to be shared or made public. Evrim has discussed the confidentiality issue with the TRRC and with the SLWB. It has been agreed that Evrim will submit the TK study to the SLWB when it is received and the SLWB will only use the document for internal review purposes; the document will remain confidential and out of the public domain.

Please note that the Engagement Log does not include any emails, phone calls or meetings with territorial and federal government representatives or those of the Sahtu Land Use Planning Board (SLUPB) and Sahtu Land and Water Board (SLWB).

## 5. Engagement Plan Details

### Pre-Application Phase

Engagement Trigger	Purpose for Engagement	Organization Engaged	Engagement Format	Recorded Information
Land Use Permit pre-application	Introduction to Project and updates.	Tulita District Land Corporation (TDLC); Tulita Land Corporation (TLC); Fort Norman Metis Land Corporation (FNMLC); Tulita Renewable Resource Council (TRRC); Norman Wells Land Corporation (NWLC); Norman Wells Renewable Resource Council (NWRRC);	Emails with PDF attachments and maps; in-person meetings; phone calls and conference calls; three separate trips to Sahtu communities, open house community meetings	Email Meeting Minutes Phone Call Records Engagement Record Meetings Presentations TK Study

### Application Phase

Engagement Trigger	Purpose for Engagement	Organization Engaged	Engagement Format	Recorded Information
Land Use Permit Submission	Application to SLWB disseminated for public review	Sahtu Land and Water Board (SLWB)- Executive Director	Email with PDF attachment; information dissemination via SLWB	Application in public record

## Exploration Phase

Engagement Trigger	Purpose for Engagement	Organization Engaged	Engagement Format	Recorded Information
Annual Updates	Dissemination of information on exploration program to interested parties	Tulita District Land Corporation; SLWB; Tulita Land Corporation; Fort Norman Metis Land Corporation; Tulita Renewable Resource Council; Norman Wells Land Corporation; Norman Wells Renewable Resource Council	Email notification, telephone. In-person, one-on-one and open house public meetings may be held	Emails, engagement records and meeting minutes
Change in Scope	Drafting of a more comprehensive plan for all aspects of work affected by change in scope.	Tulita District Land Corporation; SLWB; Tulita Land Corporation; Fort Norman Metis Land Corporation; Tulita Renewable Resource Council; Norman Wells Land Corporation; Norman Wells Renewable Resource Council	Formal meetings with SLWB to discuss updates and consultation relevant to scope of work	Meeting Minutes

<b>Proponent Contact:</b>	Stewart Harris, Paddy Nicol, Laurence Pryer
<b>Location (Region/Resource District):</b>	Tulita District, Sahtu Region
<b>Proposed Project:</b>	Astro Project
<b>Date Submitted to Regulators:</b>	1st Feb 2019
<b>Application Type(s) and File Numbers:</b>	SLWB CLASS A LUP

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
April 6, 2018	sent email to Sahtu Land & Water Board ( <b>SLWB</b> ) with detailed questions	Michael Cunningham, Evrim consultant	Paul Dixon, Executive Director, SLWB	seeking clarity & certainty re LUP applications & SLWB meeting schedule	
April 6, 2018	received email from <b>SLWB</b> Executive Director	Michael Cunningham, Evrim consultant	Paul Dixon, Executive Director, SLWB	referred enquiry to staff Sabrina Sturman and Patricia Mcneely, SLWB	
April 6, 2018	received email from <b>SLWB</b> staff	Michael Cunningham, Evrim consultant	Sabrina Sturman, Regulatory Specialist, SLWB	provided detailed response, with hyperlinks, to Evrim questions	
April 24, 2018	sent email & hardcopy introductory engagement material to Tulita District Land Corporation ( <b>TDLC</b> ).	Stewart Harris, VP Technical Services	Clarence Campbell, President, TDLC	provide TDLC with introduction to Evrim & proposed early stage exploration program in Tulita District, Sahtu Region, NT	cc to TDLC Executive Director, Louise Reindeer
April 26, 2018	sent email to <b>SLWB</b> : Access Benefit (A-B) Agreements	Michael Cunningham, Evrim consultant	Sabrina Sturman, Regulatory Specialist, SLWB	Q-situations under which an A-B Agreement is required or expected	Q asked as no definitive guidance provided in documents or by GNWT

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
April 27, 2018	sent email to <b>TDLC</b> President	Michael Cunningham, Evrim consultant	Clarence Campbell, President, TDLC	for M Cunningham to reconnect with CC & request for early phone call/mtg	cc to TDLC Executive Director, Louise Reindeer
April 27, 2018	received email from <b>TDLC</b> Executive Director	Michael Cunningham, Evrim consultant	Louise Reindeer, Executive Director, TDLC	TDLC has set a conference phone call with Evrim for Wed., May 2nd, 2018 at 12noon MT (11am PT)	
April 30, 2018	phone call to TDLC Executive Director	Michael Cunningham, Evrim consultant	Louise Reindeer, Executive Director, TDLC	to confirm details of May 2nd conference phone call, request list of TDLC Board Members & draft Agenda	also to reconnect with Louise Reindeer
April 30, 2018	received email from <b>TDLC</b> Executive Director	Michael Cunningham, Evrim consultant	Louise Reindeer, Executive Director, TDLC	sent a copy of TDLC Board Members	
May 1, 2018	received email from <b>TDLC</b> Executive Director	Michael Cunningham, Evrim consultant	Louise Reindeer, Executive Director, TDLC	sent a copy of draft Agenda as requested	
May 1, 2018	phone call to TDLC Executive Director	Michael Cunningham, Evrim consultant	Louise Reindeer, Executive Director, TDLC	Evrin phone called to discuss details of May 2nd conf phone call	
May 2, 2018	conference phone call: TDLC & Evrim Resources	Stewart Harris, VP Technical Services - lead	Sherry Hodgson, VP, TDLC - lead	discuss proposed early stage exploration program & set meeting in Tulita for week of May 28 - June 1	Issues: possible potential for overlap/impact on traditional land use & lifestyles; TDLC request more detailed maps
May 3, 2018	received email from <b>TDLC</b> Executive Director	Michael Cunningham, Evrim consultant	Louise Reindeer, Executive Director, TDLC	contact phone # for Tulita and Norman Wells Renewable Resources Council	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
May 3, 2018	sent email to <b>TDLC</b> Executive Director	Michael Cunningham, Evrim consultant	Louise Reindeer, Executive Director, TDLC	Evrin request: TDLC confirm May 28 - June 1 meeting date; Renewable Resource Council contacts	
May 3, 2018	received phone call from TDLC Director	Michael Cunningham, Evrim consultant	Arnold Gaudet, Director, TDLC	phone called to advise Evrim of 'arrangements' between the three Land Corporations & three helicopter companies	NWLC - Canadian Helicopters TLFC - Summit Helicopters FNMLC - Sahtu Helicopters
May 10, 2018	sent email & hardcopy introductory engagement material to Tulita Renewable Resource Council ( <b>TRRC</b> ).	Stewart Harris, VP Technical Services	Rocky Norwegian, President, TRRC	provide TRRC with introduction to Evrim & proposed early stage exploration program in Tulita District, Sahtu Region, NT	mentioned Evrim has had conference phone call with TDLC and sending same info to both TDLC and NWRRRC; summer field assistant job posting
May 10, 2018	sent email & hardcopy introductory engagement material to Norman Wells Renewable Resource Council ( <b>NWRRRC</b> ).	Stewart Harris, VP Technical Services	Rhea McDonald, President, NWRRRC	provide NWRRRC with introduction to Evrim & proposed early stage exploration program in Tulita District, Sahtu Region, NT	mentioned Evrim has had conference phone call with TDLC and sending same info to both TDLC and TRRC; summer field assistant job posting
May 10, 2018	received reply from <b>NWRRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Secretary-Treasurer, NWRRRC	acknowledged receipt; suggested visit/mtg when in town; have suitable job applicants	
May 15, 2018	sent email to <b>TDLC</b> Exec Dir requesting confirmation of Evrim mtg in Tulita Wed May 30th with <b>TDLC</b> .	Michael Cunningham, Consultant	Louise Reindeer, Executive Director	provide TDLC with proposed travel plans and meeting date in Tulita - Wed May 30	discussed possible meeting week of May 28 - June 1 in Tulita with TDLC during conference phone call Wed May 02
May 15, 2018	received email from <b>TDLC</b> Exec Dir.	Michael Cunningham, Consultant	Louise Reindeer, Executive Director	Exec Dir will reply after confirming with Board	
May 15, 2018	sent email to <b>TDLC</b> Exec Dir	Michael Cunningham, Consultant	Louise Reindeer, Executive Director	thank you	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
May 16, 2018	sent email to <b>TDLC</b> Exec Dir	Michael Cunningham, Consultant	Louise Reindeer, Executive Director	booking flights & hotels today; assume still ok for May 30th mtg in Tulita	
May 16, 2018	received email from <b>TDLC</b> Exec Dir.	Michael Cunningham, Consultant	Louise Reindeer, Executive Director	confirmed Board agreed to the date; so far only one Member has confirmed	
May 16, 2018	sent email to <b>TDLC</b> Exec Dir	Michael Cunningham, Consultant	Louise Reindeer, Executive Director	thank you for checking with the Board Members	
May 18, 2018	sent email to <b>TDLC</b> Exec Dir	Michael Cunningham, Consultant	Louise Reindeer, Executive Director	confirm Evrim to arrive in Tulita Tuesday pm and depart Thursday am.	
May 22, 2018	received email from <b>NWRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Secretary-Treasurer, NWRRC	reply to May 10th email. Evrim will not be in Norman Wells this trip. Propose a conference phone call this week.	Good to hear NWRRC has possible candidate for summer field assistant position. Ask them to contact Aurora Geoscience - Yellowknife address.
May 24, 2018	sent email to <b>TRRC</b> President	Michael Cunningham, Consultant	Gordon Yakeleya, President, TRRC	follow-up email of May 9th. Apologize for not correctly addressing May 9th email to Mr. Gordon Yakeleya as President	Introduce Michael Cunningham as consultant to Evrim Resources
May 25, 2018	received email from <b>NWRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Secretary-Treasurer, NWRRC	NWRRC would like a teleconference phone call or a meeting which is easier for Evrim.	NWRRC suggests next week would probably be good. Let me know.
May 25, 2018	sent email to Two Rivers Hotel, Tulita	Michael Cunningham, Consultant	Two Rivers Hotel Manager, Danny Yakeleya	request confirmation of hotel reservations for 3 people for 2 nights May 29th & 30th	also request pick up and drop off at Tulita airport to meet arrival & departure flights
May 25, 2018	received email from Two Rivers Hotel, Tulita	Michael Cunningham, Consultant	Two Rivers Hotel Manager, Danny Yakeleya	reservations confirmed. Pick up and drop off confirmed	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
May 28, 2018	email sent to <b>NWRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Secretary-Treasurer, NWRRC	As Evrim is travelling, provide 3 possible time-slots for conference phone call over 2 days.	Suggest: Tue, May 29th 11am-12noon or 1pm-2pm; or Thursday May 31st between 2pm-4pm
May 29, 2018	received email from <b>NWRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Secretary-Treasurer, NWRRC. Email was cc'd to Sherry Hodgson, President, NWLC	NWRRC email says a teleconference is not what our Board is looking for before you start. We want a meeting with your staff, maps and exactly where you are going to work.	Further, speaks to mandate of NWRRC and definition of consultation.
May 29, 2018	sent email to President of <b>NWLC</b>	Michael Cunningham, Consultant	Sherry Hodgson, President, NWLC	Request conference phone call asap to discuss RM, NWRRC email.	Provided timing options and contact details for Stewart Harris, Evrim VP Technical Services.
May 29, 2018	sent email to Rocky Norwegian	Michael Cunningham, Consultant	Rocky Norwegian	M Cunningham had worked with RN in the past.	Touching base to let him know Cunningham will be in Tulita with Evrim Resources arriving Tue May 29th and leaving Thurs May 31st
May 29, 2018	email to <b>TDLC</b> Board & meeting members	Michael Cunningham, Consultant	C Campbell, S Hodgson, J Bayha, A Gaudet, & Louise Reindeer (Exec Dir)	sent a draft Agenda for the meeting in Tulita May 30th	
May 30, 2018	received email from President of <b>NWLC</b>	Michael Cunningham, Consultant	Sherry Hodgson, President, NWLC	ShH provided cell phone number and time availability.	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
May 30, 2018	Evrin meeting with <b>TDLC</b> in Tulita (12noon)	Stewart Harris, Laurence Pryer & Michael Cunningham	<u>In Person:</u> Clarence Campbell, Janet Bayha & Louise Reindeer. <u>On Phone:</u> Sherry Hodgson & Arnold Gaudet	<u>Tulita District Land Corp (TDLC) Issues/Concerns (I/C):</u> 1. use local hires & contractors; 2. support training in Tulita district; 3. seek economic benefits for Tulita district.	<u>Evrin response to TDLC I/C's:</u> 1. agree - looking to do that; 2. understand - will look for opportunities to do that; 3. understand - doing what we can now & will look for future opportunities.
May 30, 2018	Evrin meeting with <b>TRRC</b> (2:15pm)	Stewart Harris, Laurence Pryer & Michael Cunningham	<u>In Person:</u> _____ Gordon Yakeleya, Roderick Yalley, David Menacho, Fred Clement & Rocky Norwegian	<u>Tulita Renewable Resource Council (TRRC) Issues/Concerns (I/C):</u> 1. hunting pressure on mountain caribou esp from Yukon side; 2. Co will need a TK study if apply for LUP next year; 3. use of bear/wildlife & environmental monitors;	<u>Evrin response to TRRC I/C's:</u> 1. Co has strict no hunting policy & will convey concerns to GNWT; 2. understand - that is why we are talking with RRC's now to make introductions & get a head start; 3. the 2018 program is small & based out of outfitters camps - will review & consider if appropriate in 2018. Will review again for 2019.
May 30, 2018	Evrin meeting with <b>TLC</b> (5:15pm)	Stewart Harris, Laurence Pryer & Michael Cunningham	<u>In Person:</u> Clarence Campbell, David Menacho, + others, & Lorraine Doctor	<u>Tulita Land &amp; Financial Corp (TLC) Issues/Concerns (I/C):</u> 1. local hiring & contracting; 2. Co needs Access Agreement to work on Sahtu surface right 'title' land at Mile 222; 3. overhunting of caribou from Yukon side;	<u>Evrin response to TLC I/C's:</u> 1. agree - looking to do that; 2. understand - will draft summary work program document to submit to TDLC for consideration; 3. Co has strict no hunting policy & will convey concerns to GNWT.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
May 30, 2018	sent email to <b>NWRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Sec-Treas., NWRRC & cc'd Sherry Hodgson, President, NWLC	To outline Evrim's 2018 program as small, early-stage 'grassroots' exploration on territorial lands & below threshold required for a land use permit (LUP).	Further outlined engagement efforts to date & set out options for dates to meet in Normal Wells this summer. Also, to send digital copies of power point presentation & hard-copies of 2 large-scale maps used in Tulita meetings.
May 31, 2018	received email from <b>NWRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Sec-Treas., NWRRC	Email says Evrim's suggested dates are all committed. Suggest June 18 as day to meet.	
June 1, 2018	email to <b>NWRRC</b>	Stewart Harris, VP Technical Services	Ruby McDonald, Sec-Treas., NWRRC & cc'd NWLC President, Sherry Hodgson	Evrim is not available to meet June 18. Suggested dates in late July - early August or early September.	Also, noted Co still looking for 2 summer field assistants. Encouraged the candidate that R McDonald had mentioned, to apply.
June 4, 2018	sent email to <b>TRRC</b>	Laurence Pryer, Project Geologist	Gordon Yakeleya, President, TRRC	<u>Action Item</u> : send digital copy of power point presentation given at May 30th meeting in Tulita, as promised.	Also, stated that the promised hard-copies of the large-scale maps would be mailed out in next few days.
June 4, 2018	sent email to the Tulita District Land Corp <b>TDLC</b>	Laurence Pryer, Project Geologist	Clarence Campbell, President, TDLC	<u>Action Item</u> : send digital copy of power point presentation given at May 30th meeting in Tulita, as promised.	Also, stated that the promised hard-copies of the large-scale maps would be mailed out in next few days.
June 4, 2018	sent email to Tulita Land & Financial Corp <b>TLC</b>	Laurence Pryer, Project Geologist	Clarence Campbell, President, TLC	<u>Action Item</u> : send digital copy of power point presentation given at May 30th meeting in Tulita, as promised.	Also, stated that the hard-copies of the large-scale maps left with TLC would be mailed out to other Land Corps & RRC's in next few days.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
June 8, 2018	sent email to <b>FNMLC</b> - Fort Norman Metis Land Corp.	Stewart Harris, VP Technical Services	Rick Hardy, President & cc Arnold Gaudet, Director, FNMLC	provide FNMLC with introduction to Evrim & proposed early stage exploration program in Tulita District, Sahtu Region, NT	Also noted that FNMLC Director Arnold Gaudet, as TDLC member, had participated in both a conference phone call (May 2) and an in-person meeting (May 30 - via phone call-in) between Evrim & TDLC.
June 10, 2018	sent email to the Tulita Land & Financial Corp <b>TLC</b>	Michael Cunningham, Consultant	Clarence Campbell, President, TDLC	Thank you for meeting in Tulita on May 30th. Request names, positions & contact details for the community people at that meeting.	Also, asked for contact details for Lorraine Doctor.
June 11, 2018	received email from <b>TRRC</b>	Michael Cunningham, Consultant	Rocky Norwegian, Manager, TRRC	Reply to June 10th email. Provided confirmation of names & positions of May 30th Evrim-TRRC meeting attendees.	
June 11, 2018	sent email to the Tulita Land & Financial Corp <b>TLC</b>	Stewart Harris, VP Technical Services	Clarence Campbell, President, TDLC	Evrim provide TLC a short work program summary document of proposed 1-day, 14-sample work program on Sahtu surface rights 'title' land around Mile 222, Tulita district (pdf doc).	Evrim & TDLC discussed the possibility of Evrim undertaking work on Sahtu 'title' land at May30 mtg. TDLC requested Evrim provide TDLC with a summary - work to be done, how it would be done & how long it would take. TDLC would consider it & let the company know.
June 19, 2018	sent email to the Tulita Land & Financial Corp <b>TLC</b>	Michael Cunningham, Consultant	Clarence Campbell, President, TDLC	Request that LD contact M Cunningham.	Request names & contact details for the TDLC reps at the May 30th meeting.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
June 25, 2018	sent email to TLC	Michael Cunningham, Consultant	Assistant at Tulita Land Corp	Request names, titles and contact details for the TLC reps at May 30th meeting.	
July 11, 2018	received email from <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec Dir, TDLC, cc'd to Clarence Campbell & Cynthia Levy	TDLC request fax number for Evrim as do not have scanner; want to send signed draft temporary access agreement.	Reply: Evrim provided TDLC with a fax number.
July 11, 2018	received fax from <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec Dir, TDLC.	TDLC provide Evrim with a draft Temporary Access Agreement signed by Clarence Campbell, President. .	Re: Sahtu title (surface rights) lands around Mile 222.
July 13,, 2018	sent email to <b>TLC</b>	Michael Cunningham, Consultant	Lorraine Doctor, Exec Dir, TLC	Request names, titles and contact details for the TLC reps at May 30th meeting.	
July 13, 2018	received email from <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec Dir, TDLC.	TDLC noted that Evrim's letter to TDLC setting out the short work program, related to the desired access agreement, should be attached to the draft Temporary Access Agreement as Exhibit "A". Please confirm.	Evrin Reply: Evrim confirms.
July 14, 2018	email sent to <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec Dir, TDLC.	Evrin confirms it will attach the said letter to the draft access agreement.	Evrin also said the company will discuss and review the draft and get back to the TDLC.
July 16, 2018	received email from <b>TLC</b>	Michael Cunningham, Consultant	Lorraine Doctor, Exec Dir, TLC	Exec Dir provide pdf listing of TLC Board & Staff members.	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
July 16, 2018	sent email to <b>TLC</b>	Michael Cunningham, Consultant	Lorraine Doctor, Exec Dir, TLC	Thank you for the list of board members & staff.	
August 27, 2018	email sent to <b>TDLC</b>	Stewart Harris, VP Technical Services	S Hodgson, C Campbell, J Bayha, A Gaudet & Ex Dir L Reindeer	Evrin confirmed interest in working on Sahtu Lands at Mile 222 as per draft Access Agreement.	Requested negotiation on access fee suggesting \$5,000 vs \$10,000.
August 28, 2018	email sent to <b>NWLC &amp; NWRRC</b>	Stewart Harris, VP Technical Services	Sherry Hodgson, NWLC & Ruby McDonald, NWRRC	Evrin requested possible September dates to meet in Norman Well. Or around the Geoscience Forum in November.	
August 28, 2018	email sent to <b>FNMLC</b>	Stewart Harris, VP Technical Services	Richard Hardy, President FNMLC	Forwarded copy to RH, of email to TDLC members re Sahtu Surface Rights Draft Access Agreement.	
September 10, 2018	received email from <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec. Dir., TDLC	Please delete Clarence Campbell from TDLC & TDBC distribution list.	David Menacho has been named to the TDLC & TDBC on interim basis.
September 10, 2018	received email from <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec. Dir., TDLC	TDLC has agreed to reduce the cost of the Access Agreement to \$5000.00.	In response to Evrin email request dated August 27th.
September 12, 2018	sent email to <b>TDLC</b>	M Cunningham, consultant	Louise Reindeer, Exec. Dir., TDLC	has a new President been named?	or, is there an interim/acting President?
September 14, 2018	email sent to <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec. Dir., TDLC	Request TDLC re-draft the letter & send to Evrin. Request change the term to June 15, 2019 to September 15, 2019.	Change of term requested as the 2018 work program has been completed. Need to do the work next year (2019).
October 3, 2018	email from <b>TDLC</b>	M Cunningham, consultant	Louise Reindeer, Exec. Dir., TDLC	Sherry Hodgson is the VP.	TDLC will appoint a new President at upcoming meeting.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
October 3, 2018	email from <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec. Dir., TDLC	TDLC has amended the fee and date on Access Agreement letter.	
October 5, 2018	email to <b>TDLC</b>	Stewart Harris, VP Technical Services	Louise Reindeer, Exec. Dir., TDLC	Thank you. Please send a copy of the amended agreement.	Will anyone from the TDLC be in Yellowknife in November for the NWT Geoscience Forum?
October 11, 2018	email to <b>Land Corporations &amp; Renewable Resource Councils</b>	Stewart Harris, VP Technical Services; ccd C Funk, L Pryer & M Cunningham	Presidents & Exec Directors of TDLC, TLC, NWLC, FNMLC, NWRRC & TRRC	2018 summer field program wrapped up; should have most results by mid-Nov;	suggest meetings in Norman Wells & Tulita immediately after NWT Geoscience Forum (Nov 20-22); or suggest alternate dates; will follow-up next week;
October 11, 2018	email from <b>FNMLC</b>	Stewart Harris, VP Technical Services	Richard (Rick) Hardy, Pres., FNMLC	request copy of agenda for Geoscience Forum; trying to get GNWT reps to Tulita for Nov 26;	main concern right now is the GNWT work on the Boreal Caribou as an endangered species;
October 11, 2018	email to <b>FNMLC</b>	Stewart Harris, VP Technical Services	Richard (Rick) Hardy, Pres., FNMLC	sent 2 links for the Geoscience Forum & Technical Program	heard from TRRC re mountain caribou but nothing about the GNWT & Boreal Caribou
October 11, 2018	email from <b>FNMLC</b>	Stewart Harris, VP Technical Services	Richard (Rick) Hardy, Pres., FNMLC	forwarded email string re GNWT & Boreal Caribou with map & link;	<i>comment: GNWT &amp; Boreal Caribou area of interest does not appear to overlap Evrim project area of interest</i>
October 12, 2018	email to <b>FNMLC</b>	Stewart Harris, VP Technical Services	Richard (Rick) Hardy, Pres., FNMLC	Thank you for the map & link; we will read through the materials	
October 16, 2018	email from <b>TDLC</b>	Stewart Harris, VP Technical Services; ccd S Hodgson, R Hardy, J Bayha & L Doctor	TDLC Board Members met & agreed to meet with Evrim on Nov 26 in Norman Wells & Nov 27 in Tulita;		

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
October 18, 2018	email to <b>TDLC</b>	M Cunningham, consultant	Louise Reindeer, Exec Dir., TDLC	Evrin requested consideration of meeting dates other than proposed by TDLC (Nov 26-27); suggest Nov 23-26;	however, if not possible, then Evrin will work with the dates of Mon Nov 26 in Norman Wells & Tue Nov 27 in Tulita; need to schedule meetings;
October 19, 2018	phone call to TDLC	M Cunningham, consultant	Louise Reindeer, Exec Dir., TDLC	M Cunningham phone called office five times to follow-up on email; no answer;	office closed?
October 22, 2018	email from <b>TDLC</b>	M Cunningham, consultant	Louise Reindeer, Exec Dir., TDLC	received email; will reply later today	
October 22, 2018	phone call to <b>TDLC</b>	M Cunningham, consultant	Louise Reindeer, Exec Dir., TDLC	M Cunningham phone called: LR says weekend meetings very unlikely as people will have been, or will still be, travelling;	M Cunningham: ok, will work with the TDLC proposed dates of Mon Nov 26 in Norman Wells & Tue Nov 27 in Tulita;
October 22, 2018	email from <b>FNMLC</b>	M Cunningham, consultant	Richard (Rick) Hardy, Pres., FNMLC; cc TDLC Board Members	outlined possible meetings on Fri Nov 23 in Tulita (charter in/out) & Sat Nov 24 in Norman Wells (charter members in/out);	commented for clarification: Evrin providing information; this is not 'consultation'; there are no LUPs or WLs applications yet;
October 22, 2018	email to <b>TDLC</b> Board Members	M Cunningham, consultant	TDLC Board Members; all	in reply to RH & ShH emails re Evrin's proposed alternate dates; appreciate consideration & the options proposed; however, seems too challenging & costly to manage; therefore, stick with original TDLC dates;	set out likely schedule: arrive in Norman Wells 2pm Mon & meet with NWLC & NWRRC; stay overnight; fly to Tulita on Tue am; meet with TDLC, TLC, FNMLC & TRRC on Tue; stay overnight; fly to Yellowknife Wed am; will seek advice about when/how to hold public meetings in future; addressed issue of information sharing - update 2018 & plans for 2019;

October 25, 2018	email to <b>TLC</b>	M Cunningham, consultant	L Doctor, Exec Dir; TLC	Thank you; 10-11am on Tue Nov 27 works for Evrim;	assuming we arrive on time at 9:30am from Norman Wells
October 25, 2018	email from <b>TLC</b>	M Cunningham, consultant	L Doctor, Exec Dir; TLC	you should be on time as flight leaves Norman Wells at 9am	will book time aside for the Board to meet with Evrim
October 25,, 2018	email to <b>TLC</b>	M Cunningham, consultant	L Doctor, Exec Dir; TLC	thank you	
November 26, 2018	email to <b>NWLC, NWRRC, TDLC, TLC, FNMLC, TRRC</b>	S Harris, VP, Evrim	Presidents &/or VP & Executive Directors	Apologies. AC flight from Vancouver to Yellowknife was cancelled due to weather.	Request all meetings be delayed by one day. M Cunningham will phone call to follow-up & confirm.
November 26, 2018	phone call to TDLC	M Cunningham, Consultant	Louise Reindeer, Executive Director, TDLC	phone called to discuss cancelled flight & request to change meeting day.	No answer. Left message on answering machine.
November 26, 2018	email from <b>NWLC</b>	S Harris, VP, Evrim	S Hodgson, Pres., NWLC	Asked - what is the proposed time change?	
November 26, 2018	email to <b>NWLC</b>	S Harris, VP, Evrim	S Hodgson, Pres., NWLC	Request, same time but on Tuesday instead of Monday.	
November 26, 2018	email from <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	In light of your various planned meetings, what groups need to reschedule	
November 26, 2018	phone call from NWLC	S Harris, VP, Evrim	Delaney at NWLC	Request to move meeting back one day should be ok; will confirm later.	Ruby McDonald, NWRRC, is on course today so Tuesday should be better for her.
November 26, 2018	email from <b>FNMLC</b>	S Harris, VP, Evrim	Candice Fraser, FNMLC	I will have to get back to you about rescheduling for Wednesday.	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
November 26, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrim	Candice Fraser, FNMLC	Thank you. Look forward to hearing from you.	
November 26, 2018	email from <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	Sorry but I'm leaving Tulita on Wednesday am. Might see you at the airport.	
November 26, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	Assuming flights can be rebooked, we will be in Norman Wells on Tuesday.	Could we meet in Norman Wells on Tuesday, 3-4pm? Would that work for you?
November 26, 2018	email to <b>TLC</b>	M Cunningham, Consultant	L Doctor, Exec Dir, TLC	As we discussed, we wish to reschedule our planned meeting from Tuesday to Wednesday.	Please see the attached revised meeting schedule.
November 26, 2018	email from <b>TLC</b>	M Cunningham, Consultant	L Doctor, Exec Dir, TLC	Yes, the TLC is ok to meet at 10am on Wednesday.	
November 26, 2018	email from <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	I am President of the FNMLC and our office is in Tulita. I'm leaving there on Wednesday and do not plan on being in Norman Wells this week.	I could come to Vancouver to meet for with you for a briefing on December 10th if that works for you.
November 26, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	I look forward to an introductory meeting at the Tulita airport Wednesday am.	Meeting in Vancouver on December 10th for an update is good for us. Will there be other members of the FNMLC available to meet with us in Tulita on Wednesday (tomorrow)?

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
November 26, 2018	email to TRRC and email & phone call to Rocky Norwegian	M Cunningham, Consultant	TRRC & Rocky Norwegian, Advisor, TRRC	Evrin requests rescheduling our planned meeting by one day - to Wednesday. Will that work for you & the TRRC?	Please see the attached revised meeting schedule. Spoke with RN - said change of meeting day should be ok.
November 26, 2018	email from <b>TRRC</b>	M Cunningham, Consultant	R Norwegian, Advisor, TRRC	We can meet at our office in the RD Clement building at 1:15pm.	
November 26, 2018	email to <b>NWLC &amp; NWRRC</b>	S Harris, VP, Evrin	Delaney at NWLC	thank you for your phone call earlier today. I can confirm 3 of us will be arriving in Norman Wells tomorrow (Tuesday) but on a slightly earlier flight.	Did you manage to speak with Ruby McDonald re the meeting? We had planned for 3-4pm but our schedule is more open so anytime in the afternoon will work for us.
November 26, 2018	email from <b>FNMLC</b>	S Harris, VP, Evrin	R Hardy, President, FNMLC	I hope so (that other FNMLC members might be available to meet).	I'll leave that to Roseanne. Check with her on Tuesday. Her email is in the cc to this email.
November 26, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrin	R Hardy, President, FNMLC	We will follow up with Roseann tomorrow.	
November 27, 2018	email from <b>FNMLC</b>	S Harris, VP, Evrin	R Hardy, President, FNMLC	Sorry but Roseann will not be back in the office until Thursday.	Best that we cancel the meeting and I'll see you in Vancouver in December.
November 27, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrin	R Hardy, President, FNMLC	That's a shame but I agree, let's cancel the (Tulita) meeting.	We'll look forward to seeing you in December.
November 27, 2018	email to <b>Two Rivers Hotel</b> & D Yakeleya	M Cunningham, Consultant	Danny Yakeleya, Mgr, Two Rivers Hotel	We have reservations for two nights at the hotel (Tue & Wed). We arrive in Tulita on North Wright Air at about 9:20am.	I am requesting that someone from the hotel can pick us up at the airport or is there a taxi service?
November 27, 2018	email from D Yakeleya at <b>Two Rivers Hotel</b>	M Cunningham, Consultant	Danny Yakeleya, Mgr, Two Rivers Hotel	Someone will pick you up at the airport in the morning.	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
November 27, 2018	email to <b>Two Rivers Hotel</b> & D Yakeleya	M Cunningham, Consultant	Danny Yakeleya, Mgr, Two Rivers Hotel	Flight to Tulita is delayed. Still sitting in Norman Wells.	Not sure when they'll tell us what's going on.
November 27, 2018	email from D Yakeleya at <b>Two Rivers Hotel</b>	M Cunningham, Consultant	Danny Yakeleya, Mgr, Two Rivers Hotel	I have another appointment at 9:30 - hope to make it.	
November 27, 2018	email to <b>Two Rivers Hotel</b> & D Yakeleya	M Cunningham, Consultant	Danny Yakeleya, Mgr, Two Rivers Hotel	We are now told that flight should board at 9:45 and depart right away.	I'm guessing arrive in Tulita about 10:15am.
November 27, 2018	email to <b>TRRC</b> & R Norwegian	M Cunningham, Consultant	TRRC & Rocky Norwegian	Our meeting with you is scheduled for 1:15 - 2:15pm tomorrow (Wed). But the meeting just before that has been cancelled so we could meet earlier, if you prefer.	This is an information session - brief company overview, bit of a history of their Mackenzie Mts project, a summary of the 2018 work program and a look forward to a possible 2019 field program.
November 27, 2018	meeting with <b>NWLC</b>	S Harris, L Pryer & M Cunningham of Evrim	Sherry Hodgson & Lisa McDonald, NWLC	In Norman Wells, Presentation & Discussion. Left copy of ppt with commitment to send revised/updated ppt via email. Also, left large scale maps of project area for review.	Agreed on tentative dates for another meeting - a pre-LUP application review meeting. Week of January 14-18, 2019.
November 27, 2018	phone call from TDLC	M Cunningham, Consultant	Louise Reindeer, Executive Director, TDLC	LR has been out of town & didn't get message re change of meeting day.	Will not be in Tulita until Thursday. VP is Acting President & lives in Norman Wells. Likely no meeting with Evrim on Wednesday in Tulita.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
November 27, 2018	<b>meeting with NWRRC</b>	S Harris, L Pryer & M Cunningham of Evrim	Ruby McDonald, Sec-Treasurer, NWRRC	In Norman Wells, Presentation & Discussion. Left copy of ppt with commitment to send revised/updated ppt via email. Also, left large scale maps of project area for review.	Agreed on tentative dates for another meeting - a pre-LUP application review meeting. Week of January 14-18, 2019.
November 28, 2018	email from R Norwegian at <b>TRRC</b>	M Cunningham, Consultant	Rocky Norwegian, Advisor, TRRC	We'll just keep the same time as the Board is already informed about the 1:15pm time.	
November 28, 2018	email to <b>NWLC &amp; NWRRC</b>	S Harris, VP, Evrim	Sherry Hodgson & Lisa McDonald, NWLC. Ruby McDonald, NWRRC.	Thank you for taking time to meet with us yesterday; good to meet face-to-face.	Please see the attached revised/updated ppt presentation. We look forward to meeting again the week of January 14-18, 2019.
November 28, 2018	<b>meeting with TLC</b>	S Harris, VP, Evrim & M Cunningham, Consultant	TLC representatives: David Menacho; Lyle Etchinelle; Dawn Widow; Stella B Yallee; & Sally Ann Tatti	In Tulita, Presentation & Discussion. Left copy of ppt with commitment to send revised/updated ppt via email. Also, left large scale maps of project area for review. Meeting notes.	Agreed on tentative dates for another meeting - a pre-LUP application review meeting. Week of January 14-18, 2019.
November 28, 2018	<b>meeting with TRRC</b>	S Harris, VP, Evrim & M Cunningham, Consultant	TRRC representatives: Gordon Yakeleya (Pres.); Fred Clement; Rod Yallee; Richard Andrew; David Menacho; & Rocky Norwegian (Advisor)	In Tulita, Presentation & Discussion. Left copy of ppt with commitment to send revised/updated ppt via email. Also, left large scale maps of project area for review. Meeting notes.	Discussion of TK study/report - Evrim requested proposal & budget from TRRC. Agreed on tentative dates for another meeting - a pre-LUP application review meeting. Week of January 14-18, 2019.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
November 28, 2018	email to <b>TRRC</b> & R Norwegian	S Harris, VP, Evrim	TRRC & Rocky Norwegian, Advisor	Thank you for meeting with us. Please see attached revised / updated ppt presentation.	Re: TK Study Report - Evrim will send more detailed maps. Please send us a copy of the TRRC questionnaire. Look forward to meeting again the week of January 14-18, 2019.
November 28, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	Glad we could meet, even briefly, at Tulita airport. Look forward to seeing you in Vancouver in December.	Please see attached copies of the updated ppt presentation on the company and the project - 2018 review and 2019 plans. Also, we are planning another set of meetings the week of January 14-18, 2019.
November 29, 2018	email from <b>NWRRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRRC	Good morning. Thanks for the presentation and good to meet face to face	
November 29, 2018	email from <b>TRRC</b>	M Cunningham, Consultant	Rocky Norwegian, Advisor, TRRC	See you in January. If you need anything prior, let me know.	Excites me to know possible employment & opportunities may be available to our people now and in the future if successful.
November 29, 2018	email to <b>NWRRRC</b>	M Cunningham, Consultant	Ruby McDonald, Sec-Treasurer, NWRRRC	Thank you for meeting with us on Tuesday. Sorry it was rushed - please send me any other questions you might have.	One item we did not discuss was: given what you heard, does the NWRRRC feel that they should provide a traditional knowledge (TK) report to Evrim to help guide the field program project planning? If so, what is the process, timing and can you provide a budget estimate.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 3, 2018	email from <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC	Donation request letter to Evrim from TRRC for Christmas turkeys, as discussed briefly with Gordon during the meeting in Tulita.	
December 3, 2018	email from <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC	TRRC Traditional Knowledge (TK) study proposal, questionnaire and budget for consideration.	Re: Evrim's 'Astro' project in the Doi T'oh area, Tulita District, Sahtu Region.
December 3, 2018	email to <b>TRRC</b> & R Norwegian	S Harris, VP, Evrim	Nadine Menacho, TRRC & Rocky Norwegian, Advisor, TRRC	Thank you for the study proposal. We will get back to you shortly, possibly with some additional questions.	Also, we will get a couple of hardcopies copies of the Astro project area, at a 1:50,000 scale, sent to you.
December 3, 2018	email to <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC	Thank you for the donation request. I will review it with the mgmt. team.	
December 5, 2018	email to <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC	Evrим would like to proceed with the donation for Christmas turkeys.	To do so in time for Christmas, please provide banking information so we can do an electronic funds transfer (EFT). Or, we can send a cheque by Canada Post.
December 5, 2018	email from <b>TDLC</b>	S Harris, VP, Evrim	Louise Reindeer, Executive Director, TDLC	Did Evrim receive the first (access) agreement for 2018, with signatures?	We are following up since we have not received payment for the (access) agreement.
December 5, 2018	email to <b>TDLC</b>	S Harris, VP, Evrim	Louise Reindeer, Executive Director, TDLC	Good to hear from you, sorry we missed you in Tulita last week. No, I do not believe we did receive a copy of the amended agreement with signatures.	The amended agreement had the dates revised to 2019 send the field program had been completed in early September.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 5, 2018	email from <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC	Thank you for the donation for Christmas turkeys.	Banking information provided so Evrim can do EFT - electronic funds transfer.
December 6, 2018	email to <b>TDLC</b>	S Harris, VP, Evrim	Sherry Hodgson, President & Louise Reindeer, Exec Dir., TDLC	We have reviewed our email correspondence and there was no signed original. Evrim had asked if we could amend the effective dates so that the exploration work could be carried out in 2019.	Can ShH please confirm the status of the surface rights (access) agreement? We could work to finalizing the agreement when we are meeting the week of January 14-18, 2019.
December 6, 2018	email to <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC	The TRRC TK study proposal, questionnaire and budget are acceptable to Evrim. What do you require to proceed?	Evrim had a couple of suggestions for additional questions and a few questions about what would be included in the report and plotted on the maps.
December 6, 2018	email to <b>NWRRRC</b>	M Cunningham, Consultant	Ruby McDonald, Sec-Treasurer, NWRRRC	Following up on Nov 29 email re NWRRRC possibly doing a TK study/report.	Please provide NWRRRC's thought on this question.
December 8, 2018	email from <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	Suggested meeting in Vancouver on Wednesday December 12th.	Will come in morning and head home in early afternoon.
December 10, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	Wed Dec 12th is fine. Provided office address.	
December 10, 2018	email from <b>NWRRRC</b>	M Cunningham, Consultant	Ruby McDonald, Sec-Treasurer, NWRRRC	The NWRRRC is interested in doing a TK study for the planned 2019 summer exploration program.	The process is: we submit a budget and if Evrim accepts then we hire someone to put it together and send it to you.
December 10, 2018	email to <b>FNMLC</b>	S Harris, VP, Evrim	R Hardy, President, FNMLC	We will expect you around 10am. Thank you.	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 11, 2018	email to Land Corporations & Renewable Resource Councils: <b>TDLC, TLC, FNMLC, TRRC, NWLC &amp; NWRRC</b>	S Harris, VP, Evrim	Presidents, VP, & Executive Directors	Thank you for meeting with us on our revised schedule Nov 27 & 28. As mentioned, we plan to submit a LUP application in early 2019. Before we do that, we would like to meet with you to discuss the draft documents. During our November meetings we heard that possible meeting dates in early 2019 are tight.	Therefore, we had proposed meeting with everyone in the week of January 14-18, 2019. We ask that you confirm a date or dates so we can make our travel and other arrangements. M Cunningham will follow-up to confirm.
December 11, 2018	email to <b>NWRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRC	M Cunningham passed along that the NWRRC is interested in doing a TK study for our Astro project. Please forward Evrim a study proposal and budget.	Please explain in the proposal how the TK study would be carried out. We are preparing 1:50,000 scale maps to send to you for the TK study - what is the best way to get them to you?
December 11, 2018	email to <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC & Rocky Norwegian, Advisor	We have 1:50,000 scale maps of the project area for the planned TK study. They can be printed in Yellowknife. What is the best way to get them to you?	There were a couple of questions about how the TK study would be done and possible additional questions to consider. Is there anything else the TRRC requires to proceed with the TK study?
December 11,, 2018	email from <b>NWRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRC	The hard copy maps could be sent to us via Canadian North.	
December 11,, 2018	email to <b>NWRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRC	Thank you. And, request confirmation of NWRRC office address in Norman Wells.	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 11,, 2018	email from <b>NWRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRC	NWRC: PO Box 520, 9 Woodland Drive, Norman Wells, NT X0E 0V0	
December 11,, 2018	email to <b>NWRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRC	thank you, we will update our files.	
December 12,, 2018	<b>meeting</b> with <b>FNMLC</b>	S Harris, VP, Evrim & M Cunningham, Consultant	Rick Hardy, President, FNMLC	Meeting in Vancouver: Evrim provided overview & update ppt as done in Norman Wells & Tulita meetings Nov 27-28, 2019. Meeting notes.	FNMLC usually leaves technical review of LUP applications to the SLWB. Main areas of interest & focus are local benefits - employment, contracts, engagement, etc.
December 12, 2018	email from <b>NWRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRC	The week of Jan 14-18, 2019 is not good for me personally - the next week would be better.	I do not know what the schedule is for ShH and the NWLC - they will let you know.
December 12, 2018	email from <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC	The Jan 14-18, 2019 dates work for the TRRC Board here.	
December 12, 2018	email from <b>TRRC</b>	S Harris, VP, Evrim	Rocky Norwegian, Advisor., TRRC	Thank you for the donation for Christmas turkeys. The fastest way to get the maps here is via courier.	We can ask the Elders about migration patterns and locations will be identified on the maps.
December 12, 2018	email to <b>NWRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRC	Maps for the TK study should be delivered to you in Norman Wells via North Wright Air later today.	Please let me know when you have received them all right. We look forward to receiving you proposal on the TK study.
December 12, 2018	email to <b>NWRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRC	The maps should be on the North Wright Air flight arriving at 6pm today.	
December 13, 2018	phone call to TLC	M Cunningham, Consultant	Lorraine Doctor, Executive Director, TLC	phone called to try to confirm meeting dates for Jan 14-18, 2010.	No answer. Left message on answering machine.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 14, 2018	email to <b>TLC</b>	M Cunningham, Consultant	Lorraine Doctor, Executive Director, TLC	Email to TLC asked about their donation request & to try to confirm meeting dates for Jan 14-18, 2019.	
December 14, 2018	email to <b>NWLC</b>	M Cunningham, Consultant	Sherry Hodgson, President, NWLC	We would like to confirm the NWLC is available to meet with Evrim the week of Jan 14-18, 2019.	If you confirm then we can start the planning process.
December 14, 2018	email from <b>NWLC</b>	M Cunningham, Consultant	Sherry Hodgson, President, NWLC	Only Mon Jan 14, 2019 is open currently - in the afternoon or early evening.	Jan 15th is booked now so cannot meet then.
December 14, 2018	email from <b>NWRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRC	I picked up the maps from North Wright this morning. Thanks.	
December 14, 2018	email to <b>NWRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRC	Thank you for confirm receipt of the maps.	We look forward to receiving a proposal on the TK study.
December 14, 2018	phone call to <b>TLC</b>	M Cunningham, Consultant	Lorraine Doctor, Executive Director, TLC	I spoke with LD re the donation request and asking for confirmation of planned meeting on January 16-17, 2019. She said she would get back to me on Mon Dec 16th.	LD indicated they were interested in a donation and they had tentatively blocked off the week of Jan 14-18, 2019 to meet with Evrim. She would check with David Menacho when he gets back in the office.
December 17, 2018	email from <b>TLC</b>	M Cunningham, Consultant	Lorraine Doctor, Executive Director, TLC	Attachment: Letter requesting a donation to buy Christmas food hampers	
December 17, 2018	phone calls to <b>TLC</b>	M Cunningham, Consultant	Lorraine Doctor, Executive Director, TLC	Left message requesting TLC-Evrim meeting confirmation date.	Evrim available in Tulita on either Wed Jan 16th or Thu Jan 17th.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 18, 2018	call from <b>TLC</b>	M Cunningham, Consultant	Receptionist, TLC	Passed along message from LD & D Menacho re meeting.	TLC confirms they can meet with Evrim on either Wed Jan 16th or Thu Jan 17th.
December 18, 2018	email to <b>NWLC</b>	M Cunningham, Consultant	Sherry Hodgson, President, NWLC	Follow-up to our Nov 27th meeting and our enquiry about someone in Norman Wells helping us organize a community open-house session when we are in Norman Wells for meetings January 14-15, 2019.	Sh H and Lisa McDonald suggested that someone in the NWLC office could help with that. Can you please put me in touch with that person? As you know, time is short.
December 18, 2018	email from <b>NWLC</b>	M Cunningham, Consultant	Sherry Hodgson, President, NWLC	Yes, Delanie McDonald in our office is the person to talk to.	
December 18, 2018	email to <b>TRRC</b> & <b>phone call</b> to Rocky Norwegian, Advisor	M Cunningham, Consultant	Nadine Menacho, Office Mgr., TRRC & Rocky Norwegian, Advisor	Can you please confirm the mailing address for the TRRC? Left voice message for Rocky Norwegian.	Also, the maps for the TK study are ready to be sent out. What is the best way to get them to you? Later - spoke with RN - suggested send maps via North Wright Air addressed to Roy Desjarlais.
December 18, 2018	email from <b>TRRC</b>	M Cunningham, Consultant	Nadine Menacho, Office Mgr., TRRC & Rocky Norwegian, Advisor	Address: TRRC, PO Box 29, Tulita, NT X0E 0K0	
December 18, 2018	email from <b>FNMLC</b>	M Cunningham, Consultant		Auto Reply: old email address no longer in use.	Please use: membershipno60@gmail.com and/or exec_dir@fnmlc.ca
December 18, 2018	email from <b>FNMLC</b>	M Cunningham, Consultant		Re: Community Open-House session in Tulita - can only suggest BJ Services for catering.	provided list of FNMLC emails: membership@fnmlc.ca; or, president@fnmlc.ca; or, exec_dir@fnmlc

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 18, 2018	email to <b>TRRC</b>	M Cunningham, Consultant	Nadine Menacho, Office Mgr., TRRC & Rocky Norwegian, Advisor	Four maps for the TK study should be on the North Wright Air flight from Yellowknife to Tulita tomorrow.	Addressed to Roy Desjarlai, as requested.
December 18, 2018	email from <b>TRRC</b>	M Cunningham, Consultant	Rocky Norwegian, Advisor, TRRC	Ok. Thanks. I'll let him know.	
December 19, 2018	email from <b>NWRRRC</b>	M Cunningham, Consultant	Ruby McDonald, Sec-Treasurer, NWRRRC	NWRRRC will be doing the TK study for Evrim.	We will get the proposal to your office as soon as we can.
December 19, 2018	email to <b>NWRRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRRC	We are pleased that the NWRRRC will be doing a TK study for us; we look forward to receiving your proposal. A number of other land claim organizations have indicated they are available to meet the week of Jan 14-18, 2019; therefore we must proceed with that plan.	Tentative plan: in Norman Wells Jan 14-15 and in Tulita Jan 16-17, 2019. We hope that other members of the NWRRRC, especially the TK group, can meet with us in Norman Wells. Also, we would be pleased to schedule a conference phone call or video conference phone call with you, at a later date, to review the material presented at the January 14-18, 2019 sessions.
December 19, 2018	email to <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC & Rocky Norwegian, Advisor	The maps for the TK study have been sent via North Wright Air today; they should arrive about 5:40pm.	Please let us know when you have received them. Thank you.
December 20, 2018	email from <b>NWRRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRRC	I will ask my Board to attend the Jan 2019 meeting and take notes. I will look into the idea of a video conference phone call later.	Question - has Evrim talked to the community of Ross River about your plans in the Mackenzie Mts?

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
December 20, 2018	email to <b>NWRRRC</b>	S Harris, VP, Evrim	Ruby McDonald, Sec-Treasurer, NWRRRC	Thank you. Should M Cunningham contact RM or Lisa McDonald	
December 20, 2018	email from <b>TDLC</b>	S Harris, VP, Evrim	Louise Reindeer, Executive Director, TDLC	TDLC office will be closed for the holidays from noon on Dec 21 and reopen January 3, 2019.	
December 20, 2018	email to <b>TRRC</b>	S Harris, VP, Evrim	Nadine Menacho, Office Mgr., TRRC & Rocky Norwegian, Advisor	Just checking to see if you received the maps for the TK study that were sent via North Wright Air.	
January 2, 2019	email to <b>TDLC</b>	M Cunningham, Consultant	L Reindeer, Exec Dir, TDLC; R Hardy, Pres FNMLC	Evrin requests to meet with TDLC as part of their upcoming meetings in Calgary.	Evrin requested time on Thu Jan 10th.
January 3, 2019	email to <b>NWLC &amp; NWRRRC</b>	M Cunningham, Consultant	S Hodgson & Delanie McDonald (NWLC) & R McDonald (NWRRRC)	Request guidance & assistance re holding a community open house in Norman Wells.	Evrin had many questions.
January 3, 2019	email to <b>NWLC &amp; NWRRRC</b>	M Cunningham, Consultant	S Hodgson, President, NWLC	Request confirmation of 1.5-2 hr meeting Mon pm Jan 14	Evrin outlined purpose of meeting as reviewing planned 2019 work program & draft LUP application materials.
January 3, 2019	email to <b>NWRRRC</b>	M Cunningham, Consultant	R McDonald, Sec-Treas, NWRRRC	Request confirmation of 1.5-2 hr meeting Tue am Jan 15.	Evrin outlined purpose of meeting as reviewing planned 2019 work program & draft LUP application materials.
January 3, 2019	call from <b>TLC office</b>	M Cunningham, Consultant	TLC office staff	Message: DM & LD gave ok for meeting either Wed 16th or Thu 17th Jan 2019.	

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
January 3, 2019	email to <b>TLC</b>	M Cunningham, Consultant	L Doctor, Exec Dir, TLC	Request TLC provide their best day/date option for meeting with Evrim	Options: Wed Jan 16, 1:30 - 3pm; or Thu Jan 17, 9:30 - 11am; or Thu Jan 17, 1:30 - 3pm.
January 3, 2019	email from <b>TLC</b>	M Cunningham, Consultant	L Doctor, Exec Dir, TLC	TLC said: The 16th afternoon will work for us.	
January 3, 2019	email to <b>TDLC, TLC, FNMLC, TRRC &amp; R Norwegian</b>	M Cunningham, Consultant	L Reindeer, L Doctor, FNMLC, TRRC & R Norwegian	Request guidance & assistance in hosting a community open house in Tulita - Wed 16th or Thu 17th Jan 2019.	Evrin had many questions.
January 3, 2019	email from <b>FNMLC</b>	M Cunningham, Consultant	Membership, FNMLC	To rent meeting hall, call the Hamlet office at 867-588-4471.	Provided a number of suggestions for the community open house in Tulita.
January 3, 2019	call to <b>Tulita Hamlet Office</b>	M Cunningham, Consultant	Lindsay Norwegian, Admin Ass't, Hamlet of Tulita	Evrin called to ask about renting a meeting hall for a community open house.	Discussed size of room needed and costs.
January 3, 2019	email from <b>Tulita Hamlet Office</b>	M Cunningham, Consultant	Lindsay Norwegian, Admin Ass't, Hamlet of Tulita	Hamlet emailed the Hamlet Rental Form for Evrim to fill out & email/fax back.	
January 3, 2019	email to <b>Tulita Hamlet Office</b>	M Cunningham, Consultant	Lindsay Norwegian, Admin Ass't, Hamlet of Tulita	Got it - thank you. Will get it filled out and sent back.	
January 3, 2019	email to <b>TDLC</b>	M Cunningham, Consultant	L Reindeer, Exec Dir, TDLC	Follow-up to previous email requesting meeting with TDLC in Calgary.	Evrin suggested later in the day - 3-5pm, if that works better for TDLC.
January 3, 2019	email from <b>TDLC</b>	M Cunningham, Consultant	L Reindeer, Exec Dir, TDLC	Re Community Open House in Tulita - suggestions.	Suggested: call Hamlet office to rent space; they can also set up tables & chairs; etc.

Date	Activity	Proponent Contact	Community Contact	Purpose	Notes
January 3, 2019	email from <b>TLDC</b>	M Cunningham, Consultant	L Reindeer, Exec Dir, TDLC	TDLC confirms meeting with Evrim Thu Jan 10th, 3:15 - 5pm in Calgary.	Requested an Agenda.
January 3, 2019	email to <b>Tulita Hamlet Office</b>	M Cunningham, Consultant	Lindsay Norwegian, Admin Ass't, Hamlet of Tulita	Evrin emailed the filled-in and signed rental agreement.	Re rental of Arena Hall on Wed Jan 16, 5-8pm.
January 3, 2018	email to TDLC	M Cunningham, Consultant	L Reindeer, Exec Dir, TDLC	Thank you for confirming the meeting. Agenda is short.	Agenda: overview of our DRAFT materials for a land use permit application for activities planned for 2019.
January 4, 2019	email from <b>Tulita Hamlet Office</b>	M Cunningham, Consultant	Lindsay Norwegian, Admin Ass't, Hamlet of Tulita	Received completed rental application - Arena Hall, Jan 16th.	
January 4, 2019	email from <b>NWRRRC</b>	M Cunningham, Consultant	R McDonald, NWRRRC	NWRRRC & NWLC Board & Members will meet with Evrim.	Mon 14 Jan 2019 after 1pm
January 4, 2019	email to <b>Tulita Hamlet Office</b>	M Cunningham, Consultant	Lindsay Norwegian, Admin Ass't, Hamlet of Tulita	Thank you for confirming receipt. Will call later to confirm plans.	
January 4, 2019	email to <b>NWRRRC</b>	M Cunningham, Consultant	R McDonald, NWRRRC	Thank you for confirming the meeting with NWRRRC & NWLC Boards & Members.	We are still finalizing flight schedules but looks like we can expect to arrive in Norman Wells about 2pm
January 4, 2019	email to <b>FNMLC</b>	M Cunningham, Consultant	Roseanne McPherson, Exec Dir, & Membership, FNMLC	Email to try to confirm day, date & time of possible meeting with interested FNMLC members.	Provided meeting options on January 16th & 17th. Noted that Evrim had met with R Hardy, Pres., in mid-Dec 2018.
January 7, 2019	email from <b>FNMLC</b>	M Cunningham, Consultant	Richard Hardy, Pres, FNMLC	No need to plan a meeting with FNM.	
January 7, 2019	email to <b>FNMLC</b>	M Cunningham, Consultant	Richard Hardy, Pres, FNMLC	Very well, thank you.

January 15, 2019	email from <b>TLC</b>	M Cunningham, Consultant	L Doctor, Exec Dir, TLC	Evrin meeting set for Wed 1:30pm at TLC office	FYI - NWLC Self-Government AIP signing at same time - may affect open house turnout
January 15, 2019	email to <b>TLC</b>	M Cunningham, Consultant	L Doctor, Exec Dir, TLC	thank you for the update. Yes, we heard about the AIP signing yesterday.	
January 15, 2019	meeting with <b>NWRRRC</b>	S Harris & L Pryer (Evrin) and M Cunningham (Consultant)	R McDonald, Margaret McDonald, Leon Andrew of NWRRRC & Larry Trongeau (Negotiator)	Discussion of traditional knowledge (TK) study for Evrin's project. Review of process of contacting NWRRRC & TRRC separately re TK study. NWRRRC was not happy with the process.	In the end, the NWRRRC decided not to do their own TK study. They will leave it to the TRRC to do but strongly suggested a number of NWRRRC members be interviewed as well. Meeting Notes.
January 16, 2019	meeting with <b>TRRC</b>	S Harris & L Pryer (Evrin) and M Cunningham (Consultant)	G Yakeleya, Fred Clement, D Menacho, R Yallee, R Andrew (Board) and S B Yallee & R Norwegian (staff)	in Tulita: Discussion of TK study. Review of meeting with NWRRRC & their decision. Met two TRRC members who will work on the TK study. Went through project presentation, handouts & maps.	Overview of past work & work planned for 2019. Review of DRAFT LUP application materials; asked for feedback so as to modify, if necessary, prior to submission. Meeting Notes.
January 16, 2019	meeting with <b>TLC</b>	S Harris & L Pryer (Evrin) and M Cunningham (Consultant)	D Menacho, Dawn Widow, L Echinelle, S B Yallee, Andrea Bernarde (Board) and L Doctor & T Etchinelle (staff)	in Tulita: Presentation, handouts & maps. Overview of past work & work planned for 2019.	Review of DRAFT LUP application materials; asked for feedback so as to modify, if necessary, prior to submission. Meeting Notes.

# 7. Meeting Minutes

**C3 Alliance Corp**  
**Evrin Resources – Tulita District Land Corporation 30 May 2018 Meeting Notes**

**Purpose:** Introductory Meeting Evrim – Tulita District Land Corporation (TDLC)  
**Date:** Wednesday, May 30, 2018  
**Time:** 12:00pm noon  
**Location:** TDLC Office, Tulita, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Tulita District Land Corp (TDLC)

Clarence Campbell, President (CC)  
Janet Bayha, Secretary-Treasurer (JB)  
Louise Reindeer, Executive Director (LR)

On Conference Call Phone

Sherry Hodgson, VP (ShH)  
Arnold Gaudet, Director (AG)

Evrin Resources Corp.

Stewart Harris, VP Technical Services (SH)  
Laurence Pryer, Project Geologist (LP)  
Michael Cunningham, Consultant (MC)

---

**Summary of Discussions**

**1. Introductions and**  
**2. Welcoming Remarks**

- CC said that the Tulita Land Corporation (TLC) was meeting at 5pm today. They would like Evrim to attend that meeting as well.

AI – Evrim agreed – 5:15pm.

- CC and JB commented that “consultation takes place at the community land corporation level”.

- CC also mentioned to be aware of the Benefits Corporation.

**3. Project Overview by SH and LP – Power Point & Handout + Large Scale Maps**

- SH and LP provided an overview of the company and the planned 2018 early stage exploration program based upon a power point presentation and using hard-copy handouts.

- the presentation and follow-up discussion were enhanced using large scale maps of the regional area of interest with SLUP zones, mineral claims, outfitters camps, Mile 222, etc. clearly marked.

**AI 2&3** – Evrim committed to send digital copies of the power point presentation to all the Land Corporations as well as sending hard-copies of the large-scale maps to the TDLC.

#### 4. General Discussion – ALL

- a. TDLC – spoke about Doi T'oh and work being done there this year. The contract work from last year was not completed. There is about two - three weeks work left to do. That group will be in there in July to finish last years work; they will not wait till the end of August. Evrim may not be talking to the right people.  
**AI 1** – LP asked TDLC for contact information for the group of people expected to go into the Mile 222 and Doi T'oh park area this July.
- b. TDLC – asked if Evrim will be using local Sahtu businesses. Discussion around Evrim using North Wright Air for their fixed wing contract and splitting their helicopter use contracts between Sahtu Helicopters and Canadian Helicopters. All have ownership and/or relationship agreements with Tulita district land corporations.  
TDLC – mentioned a list of approved Tulita Businesses. Evrim requested a copy.  
**I/C** – Evrim and other companies working in the district should hire local workers and contractors.
- c. TDLC – talked about Prospector Training Courses. Government does these courses and they cover exactly what Evrim is doing this year – training for early stage sampling. The problem is that they almost always hold the courses in Yellowknife, and not in the Sahtu district; they should have them here.  
**I/C** – Evrim should help and support training and employment in the Tulita District.  
SH – said that he would convey that message to the GNWT when they meet. He noted that the Summer Field Assistant Job Posting had been in the district for about a month but there have been no applicants. He asked the TDLC to encourage potential candidates to apply – we need enthusiastic workers.  
SH – also said Evrim could sponsor people to take the training courses, in Yellowknife or in Tulita district.
- d. TDLC – asked about the number of hours per day the Summer Field Assistants would have to work.  
LP – generally about 10 hours per day. Crews go out by helicopter starting at 8am and are usually back in camp by 6pm. There is also some time doing work in the evening time. The field work is physical – when doing geological mapping, you walk about 15km per day and when doing sampling you walk about 5km per day. The sampling crews are moved from site to site by helicopter. We do work in the rain, so bring your rain gear and boots.
- e. TDLC – talked about training DVDs or online videos showing people how to do the type of sampling Evrim plans to do this summer.

LP – yes, there are some online by Peter Risby.

**AI 4** – LP will do some research and send out a link to sites.

- f. TDLC – asked if all work in Tulita District, is it close to Mountain River and TK.  
LP-SH – said that all work was in the Tulita District and not close to Mountain River (further up).  
MC – said that the company is just starting the process of looking into a traditional knowledge study (TK). No LUP is required this year but by starting to talk to the land claim organizations, including the renewable resource councils, Evrim would be in a good position to begin development of a LUP application for next season, including a TK report, is a LUP is necessary.  
I/C – the need for a traditional knowledge study.
- g. TDLC – asked about if working further south near Keele River?  
LP – said the work program is always to the northwest of the Keele River and not near it. TDLC asked CC and JB about the proposed work areas in relation to Sahtu surface rights lands; they provided assurance of the location. (Note – TDLC was on the phone and did not have access to the large-scale maps that Evrim had laid out on the table for the TDLC to review.)  
**AI 2** – LP – again committed to send hard-copies of the large-scale maps to all the Land Corporations, including to TDLC at the Norman Wells Land Corporation.
- h. TDLC – if successful, would Evrim source goods from Yukon or NWT side? He was asking specifically if machinery, equipment and supplies would be bought and mobilized-in from NWT.  
SH – it is far to early to say.  
TDLC – asked Evrim to confirm just soil sampling only this year.  
LP – yes, soil and stream sediment sampling only.  
I/C – TDLC very interested in economic benefits for Tulita District, NT.

## 5. Agreements/Commitments/Next Steps

No Specifics beyond identified Action Items (AI).

## 6. New Business

- a. Working on Sahtu Surface Rights (Title) Land at Mile 222.  
TDLC – Evrim is interested in taking 12-20 samples within the Mile 222 Sahtu Surface Rights lands area. It would be 1 – 2 days of work. We know we require an Access Agreement and would like to talk to you about that.  
TDLC – if you give us a scope of work and location, TDLC will check with our legal counsel about sending you a draft Agreement.  
**AI 5** – SH-LP to send TDLC a program scope of work summary with a map (what, where, when, etc.).

**7. End Meeting**

**8. Next Meeting:** not scheduled.

**Evrin Resources – Tulita Renewable Resource Council  
30 May 2018  
Meeting Notes**

**Purpose:** Introductory Meeting Evrin – Tulita Renewable Resource Council (TRRC)  
**Date:** Wednesday, May 30, 2018  
**Time:** 2:15pm  
**Location:** TRRC Office & Two Rivers Hotel Common Room, Tulita, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Tulita Renewable Resource Council (TRRC)

Gordon Yakeleya, President (GY)  
Roderick Yalley, Vice President (RY)  
David Menacho, Director (DM)  
Fred Clement, Director (FC)  
Rocky Norwegian, Manager (RN)

Evrin Resources Corp.

Stewart Harris, VP Technical Services (SH)  
Laurence Pryer, Project Geologist (LP)  
Michael Cunningham, Consultant (MC)

---

**Summary of Discussions**

**1. Introductions and Welcoming Remarks**

**2. Project Overview by SH and LP – Power Point & Handout + Large Scale Maps**

- SH and LP provided an overview of the company and the planned 2018 early stage exploration program based upon a power point presentation and using hard-copy handouts.

- the presentation and follow-up discussion were enhanced using large scale maps of the regional area of interest with SLUP zones, mineral claims, outfitters camps, Mile 222, etc. clearly marked.

- Evrin stressed that for 2018 there was no land use permit (LUP) needed as activity is below threshold and work was on territorial lands – no camps, no geophysical surveys, no drilling, no helicopter pads, etc. If results are positive, then likely need LUP in 2019.

**AI 1&2** – Evrin committed to send digital copies of the power point presentation to all the Land Corporations and Renewable Resource Councils as well as sending hard-copies of the large-scale maps to the TRRC.

**3. General Discussion – ALL**

a. TRRC – What do you consider ‘long term’ benefits? Here in Tulita our TRRC wants to pass along knowledge to our young people.

SH – I understand, and we can look at how we can help with that.

TRRC – just to clarify 'long term', will the company do something now or only later? We know the company is in very early stages but looking to develop for the long term – that is, if there is no development then no benefits.

**AI 1** –

- b. TRRC – so this year is just sampling?

SH – yes. We are looking to go from one sample per 15 km<sup>2</sup> to one per 2 km<sup>2</sup>.

SH and LP explain process of increasing sample density.

**I/C** –

- c. TRRC – There is a lot of concern about pressure on mountain caribou herds especially due to hunting coming from the Yukon side.

**I/C** – hunting pressure on mountain caribou herds.

- d. TRRC – if getting LUP next year then will need traditional knowledge (TK) study. MC – how does TRRC do a TK study? Does it usually require a field component, or do you simply meet with your Elders' group to review maps of the proposed work program area?

TRRC – no, no field program is needed; we work with our Elders. TRRC talked about oral TK he's heard related to 'massacre or sickness areas'.

**I/C** – Evrim will need a TK study if applying for a LUP next year.

- e. TRRC – Bears. Be careful out there. There are a lot of bears and they seem to be getting more aggressive.

LP – yes, thank you. We know – last year we had about 40 bear sightings.

TRRC – how many local hires will you have?

LP – likely 2-3. We are advertising for two local summer Field Assistants now.

TRRC – as TRRC, our role is safety and protection of protect Wildlife and the Environment. We can provide Wildlife Monitors and Environmental Monitors.

**AI 3** – Evrim to consider hiring bear monitors for the 2018 exploration program.

**I/C** – Bears and Wildlife Monitors.

- f. TRRC – the TRRC is a small committed group but our annual funding seems to keep getting smaller. We would appreciate anything you can do for us.

- g. TRRC and TRRC – as meeting wrapped-up, they gave positive closing comments about the company coming in to talk to the TRRC so early and the exploration project as it could provide future jobs for the youth.

- h. TRRC – requested \$200 per TRRC Director at the meeting (\$800 total).

SH – agreed but said Evrim will require an invoice; a paper trail to pay against.

**AI 4** – TRRC to send invoice for Director's 'per diems' and Evrim to pay upon receipt of invoice.

**4. Agreements/Commitments/Next Steps**

No Specifics beyond identified Action Items (AI).

**5. New Business**

No new business

**6. End Meeting** – 3:15pm

**7. Next Meeting:** not scheduled.

**8. Additional Notes**

- a. Nadine Menacho is TRRC Secretary – email: [trrc@northwestel.net](mailto:trrc@northwestel.net)

**C3 Alliance Corp**  
**Evrin Resources – Tulita Land & Financial Corporation 30 May 2018**  
**Meeting Notes**

**Purpose:** Introductory Meeting Evrim – Tulita Land & Financial Corporation (TLC)  
**Date:** Wednesday, May 30, 2018  
**Time:** 5:15pm  
**Location:** TLC Office, Tulita, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Tulita Land & Financial Corporation (TLC)

Clarence Campbell, President (CC)  
David Menacho, VP (DM)  
Janet MacCauley, Board Member (JM)  
Bradley Menacho, Board Member (BM)  
Stella Bayha-Yallee, Board Member (SB-Y)  
Sally Tatti, Board Member (ST)  
Lyle Etchinelle, Board Member (LE)  
Shelly Widow, Youth Rep (SW)

**Summary of Discussions**

**1. Introductions and Welcoming Remarks**

**2. Project Overview by SH and LP – Power Point & Handout + Large Scale Maps**

- SH and LP provided an overview of the company and the planned 2018 early stage exploration program based upon a power point presentation and using hard-copy handouts.
  - the presentation and follow-up discussion were enhanced using large scale maps of the regional area of interest with SLUP zones, mineral claims, outfitters camps, Mile 222, etc. clearly marked.
  - Evrim stressed that for 2018 there was no land use permit (LUP) needed as activity is below threshold and work was on territorial lands – no camps, no geophysical surveys, no drilling, no helicopter pads, etc. If results are positive, then likely need LUP in 2019.
- AI 1** – Evrim committed to send digital copies of the power point presentation to all the Land Corporations. Evrim left hard-copies of the large-scale maps with the TLC.

### 3. General Discussion – ALL

- a. TLC – questions re local hiring and business contracts. How many local hires will you have and what fixed-wing and helicopter companies are you using?  
SH-LP – we will have a crew of 10-12 with 2-3 local hires (posted for 2 summer field assistants but no applicants so far). We are using North Wright Air for fixed wing aircraft and both Sahtu and Canadian Helicopter. All have ownership/relationship agreements with Sahtu land corporations.  
TLC – what about Summit for both/either fixed or rotary wing (owned by TLC?)?  
SH-LP – Summit did submit a proposal; however, they likely will not have a helicopter hanger in Norman Wells (it is for sale) and they do not have float planes based in Norman Wells – they are only on contract and client must pay mobilization costs. These became important factors in contract decisions. (Note: TLC has ownership position in Summit.)  
**I/C** – community interested in local hiring and contracting.
- b. TLC – question re prospect generator business model: so, if you find something then you sell out to a major and who is your partner?  
SH – yes. Likely that at some point a joint venture (JV) company would be formed and the major company would take a majority ownership position. The name of the partner is confidential at this time. (Note: this comment may be related to past concerns about ‘successor clauses’ being in any Agreement.)
- c. TLC – question re Mile 222 area. Has there been work/sampling done in the Mile 222 area before; think so.  
LP – yes but does not recall who did the work. TLC-LP discussion re possibly work done by Peter Risby who has claims in the area. TLC thinks he sold out to John Witteman who then sold to Ross Burns. (Note: I believe Ross Burns died a year or two ago – if it is the same ‘Ross Burns’.)
- d. General Discussion – re sampling on Sahtu surface rights (title) land around Mile 222 – one sample per 15 km<sup>2</sup> – 12-20 samples – one day’s work. Need to get Access Agreement.  
**I/C** – Evrim will need Access Agreement to work on Sahtu ‘title’ lands at Mile 222.
- e. TLC – message from Ross River, YT – very concerned about the amount of caribou hunting in the mountains coming from the Yukon side. Company should talk to government about this.  
**I/C** – overhunting of caribou from the Yukon side.
- f. TLC – if Evrim needs surveying, the TLC has an agreement with Challenger Geomatics based in Yellowknife.  
TLC – we should get that – so far got nothing.

SH-LP – we will note that, but we are unlikely to need surveying anytime soon.  
Project has to advance a fair way before we will need survey work done

- g. SH – final comments. Thank you all for the meeting today. There will be more engagement later if/when we need to apply for a LUP.

**4. Agreements/Commitments/Next Steps**

No Specifics beyond identified Action Items (AI).

**5. New Business**

No new business

**6. End Meeting** – 6:00 pm

**7. Next Meeting:** not scheduled.

**8. Additional Notes**

- a. About 10 minutes into the meeting, Evrim noticed that there appeared to be a tape recorder on the table – meeting was being recorded and company was not asked or advised.

**Evrin Resources – Norman Wells Land Corporation (NWLC)  
27 November 2018  
Meeting Notes**

**Purpose:** Introductory & Project Update Meeting 2018-2019  
**Date:** Tuesday, November 27, 2018  
**Time:** 3:00 pm  
**Location:** NWLC/NWRRC Office, NWLC Bldg, Norman Wells, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Norman Wells Land Corporation (NWLC)  
Sherry Hodgson, President, NWLC (SHH)  
Lisa MacDonald, Member, NWLC (LM)

Evrin Resources Corp.  
Stewart Harris, VP Technical Services (SH)  
Laurence Pryer, Project Geologist (LP)  
Michael Cunningham, Consultant (MC)

---

**Summary of Discussions**

**1. Introductions and Welcoming Remarks**

**2. Project Overview by SH – Power Point & Handout + Large Scale Maps**

- SH provided an overview of the company, a summary of the 2017 and 2018 work, the scoping down process and an outline of the planned/ proposed 2019 work program.
- the presentation and follow-up discussion were enhanced using large scale maps of the scoped-down area of interest that also showed the SLUP zones, Sahtu surface rights area, mineral claims, outfitters camps, Mile 222, etc. clearly marked.
- started off to examine >2100 km<sup>2</sup>; used soil/stream sampling; staked 890 km<sup>2</sup> mineral claims; started in 2017 taking ~1sample/10km<sup>2</sup>; now focused on the 'Astro' zone just north of Mile 222.
- Evrin noted that for 2018 there was no land use permit (LUP) needed as activity is below threshold and work was on territorial lands – no camps, use of outfitter camps and lodges (one in Yukon), no geophysical surveys, no drilling, no constructed or excavated helicopter pads, etc. 2018 Phase One program included similar wide-spaced (~1sample/10km<sup>2</sup>) sampling, follow-up ~1sample/2km<sup>2</sup> sampling and wide-spaced ~400 metre-spaced soil sampling.
- Evrin said that the 2018 early summer Phase One results were sufficiently positive that they returned in late summer to compete a more detailed 'in-fill' sampling program comprising soil sampling at 200- and 50-metre sample spacings and local detailed rock sampling and mapping.
- the results to date (mid-November) are sufficiently positive to recommend a 2019 field work program to their senior management team and to their external partners, who would be funding the 2019 exploration program.

- 2019 program: Phase One would to comprise more detailed mapping and rock sampling; detailed geochemical soil sampling; a helicopter-borne geophysical survey; and, if Phase One results warrant, some helicopter-supported diamond or reverse circulation drilling.

- currently preparing DRAFT land use permit (LUP) application that we would like to review with the NWLC and others before finalizing and submitting to SLWB.

**AI 1&2** – Evrim committed to send updated digital copies of the power point presentation to all the Land Corporations and Renewable Resource Councils {Completed}. Hard copies of the on-hand power point were left with the NWRRRC. The two large scale maps outlining the 2018 area of work that included the identified ‘Astro’ area of special interest are being left with the NWLC (Sherry Hodgson & Lisa MacDonald).

### 3. General Discussion – ALL

- a. NWLC – Q – so, before you submit the LUP, you will come back to review the application with the communities?

SH – A – yes, that is the plan; if we can agree on dates – what dates would you suggest?

NWLC – with the Christmas – New Years office closures and then the opening up of the winter road, which means people drive out on holidays, we are now booking into February. The winter road season is roughly January 1<sup>st</sup> – end of March. Just checked TLC calendar – currently the week of January 14-18, 2019 is available. Therefore, suggest that week. We have ‘self-government’ meetings the week of January 21-24.

NWLC – also, suggest an open community meeting at the same time; feed the people. NWLC can organize the open community meeting.

**I/C** –

**AI** –

- b. SH – you are welcome to keep the hard copies of the power point presentation that I gave you today and I will send you an updated version later – we’ve added in a bit more information since these were printed.

SH – you can also keep the large 1:250,000 scale maps we put on the table today showing the large area of interest, our mineral claims and the 2019 focused area of interest – Astro.

**I/C** –

**AI** –

- c. LM – commented that it was her son Jared MacDonald that worked for Evrim this past summer.

**I/C** –

**AI** –

**4. Agreements/Commitments/Next Steps**

No Specifics beyond identified Issues/Concerns **(I/C)** and Action Items **(AI)**.

**5. New Business**

No new business

**6. End Meeting** – 4:15pm

**7. Next Meeting:** As discussed, Evrim requested it to be scheduled for week of January 14<sup>th</sup> – 18<sup>th</sup>, 2019; specifics tbd.

**8. Additional Notes:**

**Evrin Resources – Norman Wells Renewable Resource Council (NWRRC)  
27 November 2018  
Meeting Notes**

**Purpose:** Introductory & Project Update Meeting  
**Date:** Tuesday, November 27, 2018  
**Time:** 4:15pm  
**Location:** NWLC/NWRRC Office, NWLC Bldg, Norman Wells, NT

**AI 1&2** – Evrin committed to send updated digital copies of the power point presentation

to all the Land Corporations and Renewable Resource Councils {Completed}. Hard copies of the on-hand power point were left with the NWRRC. The two large scale maps outlining the 2018 area of work that included the identified 'Astro' area of special interest were left with the NWLC (Sherry Hodgson & Lisa MacDonald).

### 3. General Discussion – ALL

- a. NWRRC – noted that NWRRC/NWLC is affiliated with Canadian Helicopters and North Wright Air.
  - spoke about the Doi T'oh (Canol Trail) clean up the last few years and that there has been a lot of training of youth to work on the project – possible hires for Evrim.
  - Jared MacDonald worked for Evrim on 2018 field program – he is Ruby's sister's grandson.
  - noted that Sahtu Helicopters is locally indigenous owned and is part of Great Slave Helicopters.
  - said, as part of NWRRC, she reviews a lot of research applications from universities' professors, doctorates and grad students to do work in the Mackenzie Mts but the NWRRC questions if they are all really doing 'research' – thinks some of them are working for mining companies.

**I/C** – NWRRC wants Evrim to hire local youth. She wants Evrim to hire local contractors to work on the project. Benefits for local communities from exploration are a priority.

**AI 1** – Evrim has been and will continue to both hire local youth and hire local contractors. (note – Evrim's last two years of expenditures demonstrate support for local hires and contractors)
  
- b. NWRRC – Q – do you get a land use permit (LUP)?  
SH – A – no, not yet, not for 2018. However, we do expect to be applying for a LUP for 2019. That depends on the approval of the proposed work program and budget by our management team and by our partner.  
**I/C** –
  
- c. NWRRC – suggest Evrim meet with the Sahtu Renewable Resource Board (SRRB) in Tulita.  
**I/C** –  
**AI 2** – Evrim will investigate how the SRRB might be involved in the project.
  
- d. MC – following our discussion with Sherry Hodgson and Lisa MacDonald of the NWLC, it is being suggested that we aim for the week of January 14-18, 2019 to come back into Norman Wells and Tulita to talk about details of a LUP application.  
**I/C** – its been suggested that Evrim pre-consult with land claim organizations to get their input prior to finalizing a LUP application and to demonstrate how that

prior consultation led to modifications to the initial draft application.

**AI 3** – Evrim to prepare a DRAFT LUP to present to the LCs & RRCs Jan 14-18.

**4. Agreements/Commitments/Next Steps**

No Specifics beyond identified Issues/Concerns (**I/C**) and Action Items (**AI**).

**5. New Business**

No new business

**6. End Meeting** – 5:15pm

**7. Next Meeting:** Evrim requested it to be scheduled for week of January 14<sup>th</sup> – 18<sup>th</sup>, 2019; specifics tbd.

**8. Additional Notes**

**Evrin Resources – Tulita Land & Financial Corporation (TLC)  
28 Nov 2018  
Meeting Notes**

**Purpose:** Project Update Meeting – 2018 Field Season and Plans for 2019  
**Date:** Wednesday, November 28, 2018  
**Time:** 10:15 am  
**Location:** TLC Office, Tulita, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

- Evrin said that the 2018 early summer Phase One results were sufficiently positive that they returned in late summer to complete a more detailed 'in-fill' sampling program comprising soil sampling at 200- and 50-metre sample spacings and local detailed rock sampling and mapping.

- the results to date (mid-November) are sufficiently positive to recommend a 2019 field work program to their senior management team and to their external partners, who would be funding the 2019 exploration program.

**AI 1** – Evrim committed to send digital copies of the updated power point presentation to all the Land Corporations {Completed}. Evrim left hard-copies of the large-scale maps with the TLC.

### 3. General Discussion – ALL

a. TLC – Q – is project still at ‘early stage’ and what is ‘project generation’?

SH – A – Yes, the project is still at an early stage. The work done in 2017 and the Phase One 2018 program was done to identify a project. Project generation is the appraisal of a large tract of land (in this case we started with ~2100 km<sup>2</sup>) with the goal of identifying a project or projects in the area each on the order of ~100 km<sup>2</sup> for more focused exploration.

TLC – Q – is there going to be a gold rush?

SH – A – I would have to guess that a gold rush would be unlikely, even a gold rush like those of placer gold mining portrayed in the media.

TLC – Q – do you do any ‘fracking’ and how far apart do you take samples?

SH – A – No, any drilling carried out by Evrim would not entail ‘fracking’. ‘Fracking’ is specific for oil and gas development and involves high pressure injection of fluids into the earth to fracture rocks. Our drill holes at the initial stage would be on the order of several hundred metres or a few kilometres apart.

I/C –

AI –

b. TLC – Q – do we get a report of the results?

SH – A – we are required to file detailed project activity reports with the government. The first one is to be filed this year. It becomes open to the public after two years. Of course, we also come into the community to update you on what we’ve done and what we plan to do. The general outline is in the power-point slide presentations and maps that we leave with you.

c. TLC – In general comments TLC noted that this degree of reporting is similar to that of oil and gas exploration companies and that they do not receive reports from other entities (government, academia) either.

d. TLC – wants reports so that the TDLC can know what is on their land.

e. General unresolved discussion on the level of detail the TDLC would like to see in reporting.

**AI** – SH and MC to discuss with GNWT, C3 and Evrim on appropriate levels of disclosure / reporting.

TLC – Q – are you just selling it (the project) before telling us?

SH – A – We are working with a partner on this project so are not planning on selling

the project at this time. If we were to attempt to sell the project, we would inform the TDLC in a meeting such as this one.

TLC – Q – have some of our people been working with you?

SH – A – this year, there were two local Sahtu youth who worked with us as field assistants – Jarryd MacDonald from Norman Wells and Matthew Yakeleya from Tulita. They were very good in the field and hard workers.

- f. SH – Evrim would like to work with you to plan for our next meeting to be held in the week of January 14-18, 2019.

SH – with the success we have had this year, we are recommending a field program in 2019 and anticipate that we will require a land use permit (LUP). We have prepared a large part of a 'DRAFT' LUP but cannot finish the main part, the Project Description part, until the work program and budget are approved by our partner. We won't get that until late in December 2018. Our plan, and request to the land claim organizations, is to come back into the communities with a DRAFT LUP and supporting documents for pre-consultation sessions to help guide us in finalizing the Project Description. After receiving feedback from the January 14-18, 2019 sessions, we will finish the LUP application and submit it to the Sahtu Land and Water Board (SLWB). Again, we ask you to hold dates for us to meet with you in the week of January 14-18, 2019.

- g. DW – suggest you block time with Lorraine (Doctor) – pick a day.

DW – but if you need to cancel, then we need to know.

**I/C –**

**AI –** prepare a proposed meeting schedule for January 14-18, 2019 and circulate it for discuss to NWLC, NWRRC, TLC, FNMLC, TDLC and TRRC. Include possible open community meetings in both Norman Wells and Tulita.

- h. TLC – Q – with your drilling, how far down do you go?

SH – Q – down to about 400 metres. The hole is quite narrow – about 4” (~10cm).

**I/C –**

**AI –**

- i. TLC – do you do donations? Every year we buy turkeys for our Elders for Christmas. They are very expensive up here. Can we send you a request for donations?

SH – A – I know we do donations in Mexico where we have significant projects, but we have not yet made any donations in the NT. Please send me a request and I'll take it up with our senior management team.

**I/C –** communities want and expect companies working in their traditional lands to be engaged with them and provide benefits and opportunities. Sometimes expectations can be high.

**AI** – discuss donations policy with senior management team and review donation request from TLC when it arrives.

- j. TLC – in 2019 will you come back to tell us about the results?  
SH – our project report goes to government and then becomes public after two years.  
TLC – we would like to see some report back to the community and for companies to hire local people.  
SH – if we have a 2019 field program then we will come back to update you again like we are doing now.  
TLC – Q – how were the people selected?  
SH – A – we advertised for candidates through the land claim organizations that we met with in May. Candidates were asked to send their resumes to Aurora Geoscience in Yellowknife as they directly supervise the field work. We had few candidates and chose the two that seemed to have the most experience.  
TLC – Q – what training do they need to get hired?  
SH – Q – some of the types of training that we look for are: First Aid; Bear Aware; Helicopter Safety; etc.  
TLC – Q – some did not see the jobs advertised. Where and when was it posted.  
SH – A – as I said, it was shortly after our May meetings and we sent it to all the land claim organizations that we met asking for it to be posted.  
**I/C** – TLC members feel they do not get enough information back from companies and people working in their traditional lands.  
**AI** – Continue to commit to, and deliver on commitment to, provide updates.
- k. SH – if we have a camp, we may have need of a Bear Monitor but will discuss that with the TRRC.
- l. TLC – we have businesses in the communities but do not see any benefits. We will meet with Evrim in January.  
**I/C** –  
**AI** – as above, prepare a proposed meeting schedule for January 14-18, 2019 and circulate it for discuss to NWLC, NWRRC, TLC, FNMLC, TDLC and TRRC. Include possible open community meetings in both Norman Wells and Tulita.
- m. TLC – MacKay Range is our business arm.
- n. SH – We would be very interested to see a business registry so we can know what services are available.  
**I/C** – there can be competition between businesses owned/operated by land claim organizations, such as MacKay Range, and those that are privately owned/operated by land claim beneficiaries.  
**AI** – companies need to be aware of the competition and manage tendering processes to also manage expectations.

**4. Agreements/Commitments/Next Steps**

No Specifics beyond identified Action Items (AI).

**5. New Business**

No new business

**6. End Meeting** – 11:30 am

**7. Next Meeting:** Evrim requested it to be scheduled for week of January 14<sup>th</sup> – 18<sup>th</sup>, 2019; specifics tbd.

**8. Additional Notes**

**Evrin Resources – Tulita Renewable Resource Council (TRRC)  
28 November 2018  
Meeting Notes**

**Purpose:** Update Meeting – 2018 Field Season and Plans for 2019  
**Date:** Wednesday, November 28, 2018  
**Time:** 1:15pm  
**Location:** TRRC Office, 2<sup>nd</sup> Flr, RD Clement Bldg, Tulita, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Tulita Renewable Resource Council (TRRC)

Gordon Yakeleya, President (GY)  
Roderick (Rod) Yallee, Vice President (RY)  
Richard Andrew, Director (RA)  
David Menacho, Director (DM)  
Fred Clement, Director (FC)  
Rocky Norwegian, Manager (RN) - staff

Evrin Resources Corp.

Stewart Harris, VP Technical Services (SH)  
Michael Cunningham, Consultant (MC)

---

**Summary of Discussions**

- 1. Introductions and**
- 2. Welcoming Remarks**

- 3. Project Overview by SH – Power Point & Handout + Large Scale Maps**

- SH provided an overview of the company, a summary of the 2017 and 2018 work, the scoping down process and an outline of the planned/ proposed 2019 work program.
- the presentation and follow-up discussion were enhanced using large scale maps of the scoped-down area of interest that also showed the SLUP zones, Sahtu surface rights area, mineral claims, outfitters camps, Mile 222, etc. clearly marked.
- Evrin noted that for 2018 there was no land use permit (LUP) needed as activity is below threshold and work was on territorial lands – no camps, use of outfitter camps and lodges (one in Yukon), no geophysical surveys, no drilling, no constructed or excavated helicopter pads, etc. 2018 Phase One program included similar wide-spaced (~1sample/10km<sup>2</sup>) sampling, follow-up ~1sample/2km<sup>2</sup> sampling and wide-spaced ~400 metre-spaced soil sampling.
- Evrin said that the 2018 early summer Phase One results were sufficiently positive that they returned in late summer to complete a more detailed 'in-fill' sampling program comprising soil sampling at 200- and 50-metre sample spacings and local detailed rock sampling and mapping.
- the results to date (mid-November) are sufficiently positive to recommend a 2019 field work program to their senior management team and to their external partners, who

would be funding the 2019 exploration program.

**AI 1&2** – Evrim committed to send updated digital copies of the power point presentation to all the Land Corporations and Renewable Resource Councils {Completed}. Hard copies of the on-hand power point were left with the TRRC as were two large scale maps outlining the 2018 area of work that included the identified 'Astro' area of special interest.

#### **4. General Discussion – ALL**

- a. TRRC – asked or challenged: company NOT working there now; if so then you should have consulted with us so you know about traplines, caribou, etc..  
MC – We met with the TRRC and other land claim organizations in May 2018 to review what was done in 2017 and to discuss what was planned for 2018. Both years were small, early stage programs that did not require a LUP and so there were no triggers to require a formal engagement or consultation process. Still, the company came to provide information to the land claim organizations.  
TRRC – that was over in the hotel boardroom.  
**I/C** –  
**AI** –
- b. TRRC – what is the size of the proposed airborne geophysical survey?  
SH – about 200 km<sup>2</sup>; possibly as much as 300 km<sup>2</sup>.  
DM – we (TRRC/community) are very concerned about the possible impacts on caribou – both calving and during migration.  
TRRC – indicated that most of the caribou activity in the 'Astro' area of interest is further to the south – south of the Canol Trail (Doh T'oi) and Mile 222.  
**I/C** – people are concerned about impacts on caribou calving and migration  
**AI** –
- c. TRRC – What about all the money companies spend on the work on site – contracts and consultants? We have a lot of people in the Sahtu that have businesses – for example, that do drilling. We need to have our people working.  
MC – We understand and agree. Evrim hired two local men as field assistants this past summer and they worked out very well. The company has also hired fixed wing and helicopter companies that are affiliated with Sahtu land claim organizations. They hire local people and businesses for the work being done. For 2019, the company will look at what work needs to be done and work with the Land Corporations to identify potential local candidate companies. We need to see if the old Business Registry is still in effect and is current.  
**I/C** – pressure to hire local people and contract local businesses.  
**AI** – send an email to the TDLC, TLC and FNMLC asking about the 'old' Business Registry (might have only existed for the Norman Wells businesses).

- d. SH – right now there is no specific scope of work or set budget for the proposed 2019 field work program but expect to have both by the end of December 2018. We are planning in anticipation that the recommended program and budget will be approved. We are preparing DRAFT Land Use Permit (LUP) application now, including a Project Description. Coming out of our meetings in Norman Wells, it was decided Evrim should commit to coming back up into Norman Wells and Tulita in the week of January 14<sup>th</sup> – 18<sup>th</sup>, 2019 to present the DRAFT 2019 plan to the Land Corporations, the Renewable Resource Councils and to hold open house community meetings.  
**AI** – Evrim to prepare a DRAFT LUP and supporting documents to present to the LCs & RRCs Jan 14-18.
- e. TRRC – When do you start and end your field seasons?  
SH – it depends on what work must be done, the elevation of the work and how late spring (freshet) comes. For a full season of work, we would like to start by the end of May or early June and be finished by the middle of September.  
**I/C** –  
**AI** –
- f. SH and MC – if Evrim defines an area around the ‘Astro’ area of interest next week, how long would it take for the TRRC to do a traditional knowledge (TK) assessment report? The ‘Astro’ area of interest is labeled on the 1:250,000 scale map we left with you – it’s the zone of two blocks labeled ASTRO.  
TRRC and TRRC – not long. We would first have to prepare a budget and get the company’s ok. We would need to know what questions you have as well. We have a set of questions that we normally ask but you can add in your own.  
SH and MC – we are not sure what questions we need to ask but please send us your list. Also send in your budget estimate based on what we have talked about today.  
TRRC and TRRC – suggest Evrim send an email with an outline of the proposed work area and an outline of the work program you would like to do in 2019. Do that first. Then TRRC will send a budget estimate based on that scope of work {Completed}.  
**AI** – Evrim to prepare an email to send to the TRRC providing both a detailed scope of work and map of the Astro area of interest for the TRRC to use in developing a budget estimate and timeline for a TK study and report {Completed}.  
**AI** – Evrim to prepare a 1:50,000 scale map of the Astro area of interest for the TRRC Elders to use as a base for their TK study.
- g. MC – when we met with Ruby MacDonald of the NWRRC we had very little time and did not discuss a TK study report. Given the location of the proposed work, do we need a TK report from both the TRRC and the NWRRC?  
TRRC and TRRC – yes; that’s the way we’ve been doing things. Many members

of the NWRRC came from Tulita and some of the TRRC members came from Norman Wells. However, we do not work together on TK reports.

**IC** –

**AI** –

- h. TRRC – will you consider working with us to get our young people out into the field to do things with exploration companies like sampling? There is funding available to do training.  
SH – Yes, of course. We have hired locally this year - two people, one from Tulita and one from Norman Wells. We expect to have a slightly larger crew next season so should be looking to hire a few more local field assistants. Some general discussion about hiring levels and hiring for the work to be done.  
**I/C** – communities have done quite a bit of training, with government funding and some company support, over the years. They see training as a way to get jobs with companies working in their areas.  
**AI** – companies with small early stage projects need to identify specific training opportunities related to actual jobs on their projects in the foreseeable future.
- i. TRRC – commented that their TRRC members are usually up in the mountains hunting caribou about September 15-25 every year.  
**I/C** –  
**AI** – include the September 15-25 hunting season in project planning.
- j. TRRC – talked a bit about their surprise when the community all went up to hunt caribou at one of the favourite spots only to find an exploration camp there – that was at Caribou Flats.  
SH – said that Evrim had heard about Caribou Flats from Trevor Bremner at GNWT-Lands in Norman Wells, yesterday.
- k. MC – asked about holding a community meeting in Tulita when Evrim comes back up the week of January 14<sup>th</sup> – 18<sup>th</sup>, 2019: who do we work with to set up the meeting and have food catered.  
TRRC and TRRC – you can go through any of the organizations like the TRRC or TLC but the hall rental (Arena) is done through the Hamlet.  
**I/C** –  
**AI** – be sure to seek advice on how best to plan for and implement an open house community meeting with food and refreshments in Norman Wells and Tulita.
- l. TRRC – wanted Evrim to know that the TRRC arranges for training of both Environmental Monitors and Wildlife Monitors – graduates get their ‘tickets’. TRRC commented that “they are our eyes and ears on the ground”.

m. SH – We look for candidates with a combination of wilderness first aid, bear aware, and helicopter training. If keen candidates lack this training, we are interested in supporting this training. Other exploration-specific training is provided on the project as part of the exploration program.

**I/C** – with small early stage projects, hiring additional field staff can strain the operational budget. Each position must be a full-time job that adds real value to the project.

**AI** – evaluate if and how Environmental and Wildlife Monitors might fit within the 2019 project scope of work.

**5. Agreements/Commitments/Next Steps**

No Specifics beyond identified Issues/Concerns (**I/C**) and Action Items (**AI**).

**6. New Business**

No new business

**7. End Meeting** – 2:45pm

**8. Next Meeting:** Evrim requested it to be scheduled for week of January 14<sup>th</sup> – 18<sup>th</sup>, 2019; specifics tbd.

**9. Additional Notes:**

**C3 Alliance Corp**  
**Evrin Resources – Tulita District Land Corporation 10 Jan 2019 Meeting Notes**

**Purpose:** Introductory Meeting Evrim – Tulita District Land Corporation (TDLC)  
**Date:** Thursday, January 10, 2019  
**Time:** 3:15pm pm  
**Location:** BDP Law Office, Calgary  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Tulita District Land Corp (TDLC)

Sherry Hodgson, VP (ShH), NWLC  
Richard (Rick) Hardy, FNMLC Pres. (RH)  
Janet Bayha, Sec-Treas (JB), TLC  
Louise Reindeer, Executive Director (LR)

Evrin Resources Corp.

Stewart Harris, VP Technical Services (SH)  
Laurence, Pryer, Project Geologist (LP)  
Michael Cunningham, Consultant (MC)

---

**Summary of Discussions**

- 1. Introductions and**
- 2. Welcoming Remarks**
  - Evrim thanks TDLC for making time to meet as part of their other meeting in Calgary
- 3. Project Overview by SH and LP – Power Point & Handout + Large Scale Maps**
  - SH & LP use ppt presentation to outline the current status of Evrim’s Mackenzie Mts project and an overview of materials in the DRAFT land use permit (LUP) application
  - the key ‘ask’ is for the TDLC to provide comments on the materials in the DRAFT LUP application within the next 10-14 days so Evrim can consider the comments and update the LUP application documents.
- 4. General Discussion During/After Evrim Presentation – ALL**
  - a. Exploration:
    - RH – you indicated each step in your exploration plan is dependent upon the success of current work. What do you consider as ‘success’?
    - SH – that current results continue to indicate the potential for discovery of an economic mineral deposit.
    - RH – if you find gold, how do you plan to get it out?
    - SH – that will be up to the mining engineers but likely construct a road link to the Canol Trail road and then into Yukon.
    - RH – will the airborne and ground geophysics be done consecutively or concurrently.

SH – mostly concurrently but some may be done consecutively. This is somewhat dependent upon what sort of winter and spring we get – the amount of snow cover, how quickly it melts, timing of freshet and possibly the location and timing, if it is an area of lambing or kidding.

RH – any work being done on the other two areas – Penfold & Norseman?

SH – No, not at this time.

RH – what about in Yukon?

SH – No, there is a staking moratorium in place.

#### Sahtu Lands:

RH – comment: all the ‘green’ areas on your large maps are our areas so you will have to cross it.

RH – you will need to demonstrate to SLWB that you have land tenure to set up a camp. You will need to talk with us if you are going to set up a camp on our land.

RH – so, you are not going onto Sahtu lands?

SH – we had worked on an Access Agreement in 2018 to do a bit of sampling but had asked for the dates to be changed so the work could be done in 2019; ran out of time.

#### Benefits:

RH – how many field assistants will you have in your phase 1 in 2019?

SH/LP – likely, 2-4 local summer field assistants in 2019. We had 2 in 2018.

RH – when will you have your ‘specs’ for the airborne geophysics?

SH – likely about the time of the PDAC conference in Toronto – early spring (March).

RH – we’d like at least a couple of month’s notice or upcoming work and contracting opportunities.

SH – Agreed.

LP – timing of notice of contracting may be somewhat dependent upon the timing of the receipt of the LUP.

RH – from the FNMLC perspective, we are most interested in what you will be proposing, in the LUP application, in terms of Benefits – showing that you are in compliance with the Sahtu Land Use Plan (SLUP). We would like to see, in the LUP application, a list of goods and services that you will require – e.g. fixed wing planes, helicopter services, equipment rentals, number and types of drills, pumps, foodstuffs, drilling specifications, etc.

RH – most of our members do not live in Tulita or the Tulita district; most are elsewhere across Canada. Maybe someone has a business in Yukon supplying fuel or food, etc.

#### b. PPT Handouts, Maps & DRAFT LUP Applications

SH/LP – do you wish to take away any/all of the maps on the table, copies of the power-point presentation and we have two copies of the DRAFT LUP application

that you can take away as well.

ShH – yes; we'd like to take away any hard copies you have, and can you send us the DRAFT LUP application digitally so we can share with our members?

SH/LP – yes, we can send you an updated version of the power-point presentation plus the DRAFT LUP application – this is a DRAFT and will be changing over the coming days/weeks as we get more comments & feedback.

**AI 1** – Evrim to send TDLC members copies of updated power point presentation and DRAFT LUP application documents.

c. M Cunningham Questions/Suggestions:

MC – what is Evrim going to do with any core and/or core boxes & core racks?

Where will the core be logged? Where/how will the core be stored?

MC – besides the required 8 sections to the LUP application, the company might consider having an Emergency Preparedness Plan or Emergency Management Plan – what are the protocols & procedures should a serious emergency develop (Who's in charge of what? Who's on the priority contact list? Who's managing the onsite activities & who's managing the communications? Etc.)

d. JB –

I/C –

## 5. Agreements/Commitments/Next Steps

No Specifics beyond identified Action Items (AI).

## 6. New Business

a. Working on Sahtu Surface Rights (Title) Land at Mile 222.

SH – Evrim is interested in taking 12-20 samples within the Mile 222 Sahtu Surface Rights lands area. It would be 1 – 2 days of work. We know we require an Access Agreement and would like to talk to you about that.

CC – if you give us a scope of work and location, LR will check with our legal counsel about sending you a draft Agreement.

**AI 5** – SH-LP to send TDLC a program scope of work summary with a map (what, where, when, etc.).

## 7. End Meeting

8. **Next Meeting:** No date set for next meeting with TDLC; however, Evrim meeting with NWLC & NWRRC next Mon 14<sup>th</sup> Jan and with TLC & TRRC next Wed 16<sup>th</sup> Jan.

**Evrin Exploration Canada Ltd. –  
Norman Wells Land Corporation (NWLC)  
&  
Norman Wells Renewable Resource Council (NWRRC)  
14 January 2019  
Joint Meeting Notes**

**Purpose:** Project Update, 2019 Project Plans & LUP Application Overview Meeting  
**Date:** Monday, January 14, 2019  
**Time:** 3:00 pm  
**Location:** NWLC/NWRRC Office, NWLC Bldg, Norman Wells, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Norman Wells Land Corporation (NWLC)  
Sherry Hodgson, President, NWLC (ShH)

Self Government Chief Negotiator  
Larry Torongeau (LT)

Norman Wells Renewable Resource  
Council (NWRRC)  
Ruby McDonald

Evrin Resources Corp.  
Stewart Harris, VP Technical Services (SH)  
Laurence Pryer, Project Geologist (LP)  
Michael Cunningham, Consultant (MC)

---

**Summary of Discussions**

**1. Introductions and Welcoming Remarks**

**2. Project Overview by SH – Power Point & Handout + Maps (Mackenzie Mts & Astro)**

- Provided an overview of the 2018 field program activities and general results leading to identification of the 'Astro' project area of focus for 2019;
- Provided an outline of the planned 2019 field program activities (stream & soil sampling plus airborne & ground geophysics) that if successful could lead to a small drill program (both reverse circulation (RC) and core drilling);
- Told the group that Evrin was meeting the land corporations (LCs) and renewable resource councils (RRCs) this week to:
  - discuss plans to submit a land use permit (LUP) application to the Sahtu Land and Water Board (SLWB) at end-January or early-February;
  - outline the contents of the draft LUP application for discussion;
  - leave behind hard-copies of the draft LUP for their review (plus send it to them digitally for ease of review and further dissemination to other members); and
  - request comments and feedback on the draft LUP application so Evrin can make edits to the draft prior to submitting it so as to make a better application.

### 3. LUP Application Overview by LP –

- Provided comments and explanations about the draft LUP application summarizing key points of the eight sections to the application (SLWB format);
- Evrim is consulting broadly on the draft LUP application prior to submission;
- Noted that Evrim is applying for Class A LUP for a term of three (3) years – long enough to test the geological and exploration models;
- The plan is to have the camp at Mile 222 and fly crews out to site daily including drills and drill crews.

**AI** – Evrim committed to send updated digital copies of the power point presentation and draft land use permit (LUP) application to all the Land Corporations and Renewable Resource Councils.

### 4. General Discussion – ALL – many talking points are based on presentation slides.

NWLC/RRC – Comments – the NWLC and NWRRC have members all over the place; in the Sahtu, in the NWT and elsewhere. The demographics of our communities are quite different. R McDonald is here representing the NWRRC Board; she will review all the materials and advise her Board. Together we will advise Evrim when it should hold a full community meeting. We will review the draft LUP documents and provide comments.

**I/C** – NWLC/RRC suggested – for meetings, especially community meetings, is to anticipate frequently asked questions and prepare FAQ sheets.

**AI** – Evrim did that: prepared FAQ sheets for subsequent meetings and open house that week.

#### Location

NWLC/RRC – Q – are you working only in NWT, not Yukon?

SH – A – no, just NWT.

NWLC/RRC – Q – you said the camp would be at Mile 222 but what do you mean by using ‘already developed infrastructure’?

LP – A – we will work with the regulatory authorities to locate our camp in an area of Mile 222 that has already been previously disturbed, like an old camp site, where land has been cleared. We will try to do as little ‘new’ disturbance as possible, for our needed infrastructure, both at the camp location and in the Astro project field work area.

#### Technical

NWLC/RRC – Q – how deep will the drilling go?

SH – A – 200-500 metres for the core drilling. RC drilling will be shallower (50-200m).

NWLC/RRC – Q – on your phase 1 geophysics – will the airborne and ground geophysics be done at the same time or one after the other?

SH – A – some could be done at the same time in different areas or one after the other, with the airborne being first, on the same area – in order to focus in on a drill target.

NWLC/RRC – Q – how will you avoid calving and kidding areas?

SH – A – we will look at both the scientific and traditional knowledge about when and where the calving and kidding happen in our project area and we will also watch for signs as we move about the project area by helicopter.

RM – Q – do you have a sample of what drill cuttings or core look like?

SH – A – no, we do not have samples here with us now. However, SH went on to explain what they were, what they looked like and how they were handled.

### TK Study

NWLC/RRC – Q – who is doing the traditional knowledge (TK) study?

SH – A – we asked both the NWRRC and the TRRC if they were interested in doing TK study for the project area. Both said yes so, we have been moving forward with both groups.

NWLC/RRC – Q – why are you doing two studies? Why both?

SH – Q – both RRCs indicated they were interested, and we thought both RRCs had members who had information to offer.

NWLC/RRC – Q – got any ideas Ruby (R McDonald)?

NWLC/RRC – A – we are talking tomorrow about the TK study. We want the right information in the TK study. Evrim cannot get a LUP without a TK study. We were going to get Leon Andrew to do the TK study for the NWRRC. He is on the regional renewable resource board (SRRB). His brother Frank is Chief in Tulita and saw the poster about the TRRC doing a TK study.

MC – Comment – we have to work to sort this out.

NWLC/RRC – Comment – you should have cc'd both RRCs in same email.

NWLC/RRC – this can be fixed.

NWLC/RRC – we will meet here tomorrow at 1pm to talk about the TK study. The NWRRC is not happy with the process you followed here so far on the TK study.

MC – I apologize. I did not cc both RRCs on the same email about a TK study. I was seeking the best advice, but no one suggested doing a joint NWRRC-TRRC TK study.

### Program Benefits

NWLC/RRC – Q – you say the program benefits to the community are relate to the scale of the project (e.g. jobs). At what point do we negotiate a Cooperation Agreement?

SH – A – if successful this year and we have continued success next year with a larger drill program, we might then be in a position to do that. I think if we progressed to the stage where we began drilling out or defining a mineral resource might be a fair time to start that process.

NWLC/RRC – then possibly at that time you'd negotiate an Access & Benefits Agreement?

SH – Yes.

NWLC/RRC – Q – do you know Midnight Sun Drilling? It is one of our partners.

SH – A – yes. They are one of the companies we believe is qualified to do RC drilling in Canada; another is Northspan. It is good to know Midnight Sun are your partner.

NWLC/RRC – Q – do you have plans for a camp?

LP – A – yes. It is outlined in the Project Description part of the draft LUP application.

NWLC/RRC – Q – do you have a camp set up and tents? We have tents to rent.

LP/SH – A – no; we do not have a camp or camp supplier yet. What size are your tents?

NWLC/RRC – A – they are about 20' x 20'.

### Fuel Management

NWLC/RRC – Q – what if the plastic tray or bottom and perimeter liner rips?

SH – A – the plastic trays are tough; hard to rip. They are designed for the purpose of storing fuel drums and containing leaks and I've worked with them before.

NWLC/RRC – Q – will this fuel storage will be at Mile 222 and how will you get the barrels in/out? What about the barrels breaking?

SH/LP – A – yes, our fuel barrels will be stored at Mile 222 and will trucked in/out from Yukon over the North Canol Road. The barrels being used will be new style barrels that are more easily damaged than the older (1970s-1980s) era barrels. There are fuel barrel handling best practices in place to minimize potential damage.

### Wildlife, Archaeology & Environment

NWLC/RRC – Q – so, does that mean you will be hiring wildlife and environmental monitors?

LP – A – as we are establishing a camp, that is something that we are open to considering.

### Winding Up Thoughts and Comments

NWLC/RRC – for the members at large, if you get to a discovery stage then you will need to negotiate an Access and Benefits Agreement.

SH/LP – briefly went over the large-scale maps showing how exploration in the past two years, across the very large Mackenzie Alliance area of interest, led to three smaller focus areas and now down to one target area – the Astro project.

SH – in terms of planning for Sahtu regional benefits, Evrim can put together a list of services that the Project will need. We can provide it to the land corporations and ask for a list of local Sahtu companies that might be able to provide those services

NWLC/RRC – we have a list of pre-approved Sahtu companies that we can supply to Evrim with the expectation that at least one of them will be able to bid on all of the work being done.

SH – we must evaluate all companies and proposals in terms of applicability, safety metrics and cost competitiveness.

**I/C** – community benefits

**AI** – Evrim to prepare and circulate a list of services the project will require.

## **5. Agreements/Commitments/Next Steps**

No Specifics beyond identified Issues/Concerns (**I/C**) and Action Items (**AI**).

**6. New Business**

No new business

**7. End Meeting** – 4:15pm

**8. Next Meeting:** No date set.

**9. Additional Notes:**

**Summary of Discussions**

- 1. Opening Prayer**
- 2. Introductions and Welcoming Remarks**
- 3. Project Overview by SH – Power Point & Handout + Maps (Mackenzie Mts & Astro)**
  - Provided an overview of the 2018 field program activities and general results leading to identification of the ‘Astro’ project area of focus for 2019;
  - Provided an outline of the planned 2019 field program activities (stream & soil sampling plus airborne & ground geophysics) that if successful could lead to a small drill program (both reverse circulation (RC) and core drilling);
  - Told the group that Evrin was meeting the land corporations (LCs) and renewable resource councils (RRCs) this week to:
    - discuss plans to submit a land use permit (LUP) application to the Sahtu Land and Water Board (SLWB) at end-January or early-February;
    - outline the contents of the draft LUP application for discussion;
    - leave behind hard-copies of the draft LUP for their review (plus send it to them digitally for ease of review and further dissemination to other members); and
    - request comments and feedback on the draft LUP application so Evrin can make edits to the draft prior to submitting it so as to make a better application

### **LUP Application Overview by LP –**

- Provided comments and explanations about the draft LUP application summarizing key points of the eight sections to the application (SLWB format);
- Evrim is consulting broadly on the draft LUP application prior to submission;
- Noted that Evrim is applying for Class A LUP for a term of three (3) years – long enough to test the geological and exploration models;
- The plan is to have the camp at Mile 222 and fly crews out to site daily including drills and drill crews.

**AI** – Evrim committed to send updated digital copies of the power point presentation and draft land use permit (LUP) application to all the Land Corporations and Renewable Resource Councils.

### **4. General Discussion – ALL**

- a. TLC – Q – how long will the LUP be for?

SH – A – three years. That should give us enough time to explore and decide if we're being successful.

TLC – Q – if you need more time on the Permit, do you apply ahead of time?

SH – A – we can apply for an extension, to do the same type (scope) of work; but, if we want to go bigger or do something new then we need a new permit.

- b. Technical: Geophysics – Airborne and Ground

TLC – Q – do you use drones (for airborne geophysics)?

SH – A – no, not yet but it is likely coming – maybe in 5 years. The technology on a small drone is not quite good enough yet.

TLC – Comment – suggest you use ground geophysics instead of airborne geophysics because the helicopter noise scares the animals.

TLC – Q – how long do you have the cables on the ground?

SH – A – explained the process: the survey is laid out in a grid pattern consisting of a number of lines up to a few kilometres in length. It might take 1-2 days to do a survey; the cables are moved as the survey progresses; an electrical pulse is sent through the cables at each stop, then cables moved; at the end, nothing is left behind on the ground.

TLC – Q – how long does the electrical pulse last?

SH – A – at each stop or station, an electrical pulse lasting 10-20-30 seconds would be put through the cables that creates a temporary electromagnetic field that is sent into the ground. Machines then read or interpret how the ground reacts to the electromagnetic field.

TLC – Q – I'm thinking about 'fracking', how it affects the land and can cause earthquakes. In doing this survey, how are you affecting the land?

TLC-SH – discussion of how this type of survey works including the low power of the electro-magnetic energy pulse – only about 1-2 amps vs 60-100 amps

service in most homes. There are no long-term effects of the survey.

TLC – Q – how does the airborne EM survey work?

SH – A – very similar to the ground survey. An electromagnetic pulse is generated and the sensors beneath the helicopter can measure the effects in the earth. The EM pulse has no effect on the helicopter. It is very much like the technology in your mobile phone – same idea.

TLC – Q – how long is the project work?

SH – A – just the summer months – possibly May to September.

#### Technical: Drilling – Core and Reverse Circulation (RC)

TLC – Q – how much water do you use for drilling each hole?

SH – A – if pumps run all day then a maximum of 68-82 m<sup>3</sup>/day – newer and more realistic estimate of 35-40 m<sup>3</sup>/day – or about 8-9,000 gallons/day.

TLC – Q – what do you do with the water?

SH/LP – A – for core drilling, water is pumped from a source (lake or stream) into large tubs. Some goes down the drill hole but unused water (overflow) drains back onto the ground. The water used by the drill either has two parts – drill return water and lost water. The lost water is 'lost' to the rock underground; it flows into natural fractures in the rock. The drill return water comes back to surface with silt-sized drill cuttings; this goes into a depression or sump where the fine material settles.

SH – for the reverse circulation (RC) drilling, no water is used – it runs on compressed air.

TLC – Q – what do you do with the drill samples?

SH – A – for the core drilling, half is sent to a lab for analysis and half stays on site in core boxes. The GNWT wants core kept on site.

SH – A – for the RC drilling, these are chip samples, so half is sent to a lab for analysis and the other half is left on site.

TLC – Q – what about the drill holes? What do you do with them?

SH – A – we put a picket in them so we can find them again. The 'casing' sometimes has to be left behind as it becomes stuck in the hole. If that happens then we cut off the casing at ground level.

#### Caribou Flats

TLC – Comments – Caribou Flats is a mess with core, core racks and core boxes all over. TLC provide comments on Caribou Flats; how messy it is. TLC & TLC say they need to get government to do something about Caribou Flats.

SH – commented on the value of old core – it can be relogged and resampled by geologists after many years to help them understand the geology of the area.

#### Community Benefits

SH – provided an overview of local community benefits from 2017-2018 exploration programs. Said that Evrim would provide a list of goods and services

required for the planned 2019 work program. And, at the appropriate time, Evrim would look to negotiate a Cooperation Agreement.

TLC – suggested Evrim should work with Mackay Range and Summit Air that are owned or affiliated with the TLC. The other companies you mentioned working with are affiliated with other LCs and RRCs.

LP – noted that it appears the Summit Air hanger in Norman Wells is for sale and they may be moving operations out of the area. However, Evrim will contact Summit Air.

TLC – there are other camps at Mile 222, maybe you can negotiate something with them. Or, maybe you could buy 'our' tents.

I/C – local benefits opportunities.

AI – Evrim to circulate a list of goods, services, contracts, purchases, rentals, etc. that it will need for the 2019 exploration program. Evrim to include Summit Air in list of service supply companies to contact.

**5. Agreements/Commitments/Next Steps**

No Specifics beyond identified Action Items (AI).

**6. New Business**

No new business

**7. End Meeting – 3:15 pm**

**8. Next Meeting:** No date set.

**9. Additional Notes**

**Evrin Resources – Tulita Renewable Resource Council (TRRC)  
15 January 2019  
Meeting Notes**

**Purpose:** Project Update, 2019 Project Plans & LUP Application Overview Meeting  
**Date:** Wednesday, January 16, 2019  
**Time:** 10:30am  
**Location:** TRRC Office, 2<sup>nd</sup> Flr, RD Clement Bldg, Tulita, NT  
**Notes:** Summary of Discussions with Action Items (**AI**) and Issues/Concerns (**I/C**)

**Attendees:**

Tulita Renewable Resource Council (TRRC)

Gordon Yakeleya, President (GY)  
Roderick (Rod) Yallee, Vice President (RY)  
Richard Andrew, Director (RA)  
David Menacho, Director (DM)  
Fred Clement, Director (FC)  
Rocky Norwegian, Manager (RN) – staff  
Stella B. Yallee (SY) – staff

Evrin Resources Corp.

Stewart Harris, VP Technical Services (SH)  
Laurence Pryer, Project Geologist (LP)  
Michael Cunningham, Consultant (MC)

---

**Summary of Discussions**

- 1. Opening Prayer**
- 2. Introductions and Welcoming Remarks**

GY – introduced Evrin to the two people who will conduct the interviews and prepare the TK study and report for the Astro project: Joanne Lennie and Cecil MacCauley. There was discussion about which maps they need, the process they use and the time it might take.

GY – thanked Evrin for the donation towards buying Christmas turkeys.

MC – updated the TRRC on Evrin's discussions with the NWRRC about doing a traditional knowledge (TK) study for the Astro project area: TRRC to proceed as planned with the additional interviewing of 3-5 NWRRC members; numbers and names to be confirmed. The NWRRC will not do a separate TK study.

- 3. Project Overview by SH – Power Point & Handout + Maps (Mackenzie Mts & Astro)**
  - Provided an overview of the 2018 field program activities and general results leading to identification of the 'Astro' project area of focus for 2019;
  - Provided an outline of the planned 2019 field program activities (stream & soil sampling plus airborne & ground geophysics) that if successful could lead to a small drill program (both reverse circulation (RC) and core drilling);
  - Told the group that Evrin was meeting the land corporations (LCs) and renewable resource councils (RRCs) this week to:

- discuss plans to submit a land use permit (LUP) application to the Sahtu Land and Water Board (SLWB) at end-January or early-February;
- outline the contents of the draft LUP application for discussion;
- leave behind hard-copies of the draft LUP for their review (plus send it to them digitally for ease of review and further dissemination to other members); and
- request comments and feedback on the draft LUP application so Evrim can make edits to the draft prior to submitting it so as to make a better application.

#### **LUP Application Overview by LP –**

- Provided comments and explanations about the draft LUP application summarizing key points of the eight sections to the application (SLWB format);
- Evrim is consulting broadly on the draft LUP application prior to submission;
- Noted that Evrim is applying for Class A LUP for a term of three (3) years – long enough to test the geological and exploration models;
- The plan is to have the camp at Mile 222 and fly crews out to site daily including drills and drill crews.

**AI** – Evrim committed to send updated digital copies of the power point presentation and draft land use permit (LUP) application to all the Land Corporations and Renewable Resource Councils.

#### **4. General Discussion – ALL**

##### a. Wildlife

TRRC – Q – asked about Evrim’s caribou calving avoidance plans?

SH – A – we will rely on the scientific and traditional knowledge that we can get including any studies or maps available from the Sahtu Renewable Resource Board (SRRB).

##### b. Technical

TRRC – Q – how deep does your drill hole go?

SH – A – from 200 – 500 metres for core drilling and 50 – 200 metres for the reverse circulation (RC) drilling.

TRRC – Q – what kind of helicopter do you use?

LP – A – in the past we have used an A-Star and we are likely to use the same or similar in 2019.

TRRC – Q – do you use any additives in your drill mud? We need to know. We need to protect our animals from activity.

SH – A – there may be additives used in the core drilling; however, these are non-toxic and we can share copies of their MSDS sheets if you wish. (Material Safety Data Sheets) No additives are used in the reverse circulation (RC) or air drilling. There may be training and employment opportunities for local workers on the drill program.

c. Community Benefits

SH – provided a summary of local benefits from the last two year’s exploration programs including the hiring of local summer field assistants and contracting of fixed wing and helicopter companies. He also outlined a list of the type of work activities and requirement for 2019 and noted there may be opportunity for local contracts.

SH – committed to continuing to provide project updates and to negotiate a Cooperation Agreement at the appropriate time.

TRRC – Comment – it would be good to be able to show benefits to Sahtu people and businesses in the LUP application; it could help smooth the review.

LP – once we have the LUP, then we can circulate a list of project requirements (e.g. purchases, rentals, services, contracts, etc.).

TRRC – the challenge is that you are working so close to the Yukon border with road access – so much cheaper; access from NWT is costly. We need to aim for long-term benefits and not necessarily immediate benefits.

TRRC – Q – what do you do with your full drums at the end of the year or project? Could you give them to our hunters for them to use?

SH/LP – A – most of the drums will be aviation and diesel fuel, not gasoline.

Also, there is a liability issue for the company – our name is on the barrels and we need to account for all of them.

d. Camp

TRRC – Q – about your camp – are you going to bring in your own camp or use a camp that is already at Mile 222?

SH – A – we have to plan on bringing in our own but could use an existing camp if it is available for the time we need one.

TRRC – There is no connection or benefits agreement between the Englobe camp and Sahtu people.

TRRC – Q – how will you get rid of your waste?

LP – A – we have set out a plan in the LUP application that follows the MVLWB and SLWB guidelines for waste management.

e. Environmental and Wildlife Monitors

TRRC – Q – will you be hiring Environmental and Wildlife monitors?

SH – A – we are a small company, and this is a small project. It is hard to justify someone to do solely that job; they would have to complete other jobs as well i.e. camp manager, soil sampling. If so, then possibly.

TRRC-SH-LP – Discussion about Monitors – the RRCs always wants our Monitors out on projects. LP – e.g. last summer we hired Jaryd McDonald as a field assistant, as a sampler but he was also trained and held a ticket as both Environmental and Wildlife Monitor.

TRRC – we train a lot of our people to do environmental and wildlife monitoring; we make it a requirement.

TRRC – there have been more bear attacks recently so you will need Wildlife

Monitors.

SH/LP – all our field assistants carry bear spray and radios. They scan the area they plan to work in from the helicopter before they set down. Once on the ground they must have situational awareness.

TRRC – we are now seeing wolf packs attacking people.

**5. Agreements/Commitments/Next Steps**

No Specifics beyond identified Issues/Concerns (**I/C**) and Action Items (**AI**).

**6. New Business**

No new business

**7. End Meeting** –11:45am

**8. Next Meeting:** No date set.

**9. Additional Notes:**
