Dear Mr. Brookes,

Waste Management Plan v. 2.0; Spill Contingency Plan v. 2.0; Sediment and Erosion Control Plan v. 2.0 Board Staff Confirmation of Conformity with Board Direction – Plans Approved as Submitted

The Sahtu Land and Water Board (SLWB or the Board) met on March 8, 2019 to consider the Land Use Permit application submitted by GNWT - Department of Infrastructure (GNWT-INF) to complete geotechnical investigations in support of the Great Bear Bridge Project. In the [March 8, 2019 Decision Letter](#), the Board granted issuance of the Permit S19S-001 and required GNWT-INF to submit revisions to the WMP, SCP and SECP by March 20, 2019, to be in accordance with comments made during the regulatory review period. Board direction in the decision letter states that the Plans would be considered approved upon written confirmation of conformity from Board staff.

The revised [Waste Management Plan v.2.0](#), [Spill Contingency Plan v.2.0](#), and [Sediment and Erosion Control Plan v.2.0](#) were received by the Board on March 12, 2019, after which Board staff confirmed revisions made in accordance with Board direction. This letter hereby confirms that the revised Plans are considered approved as submitted and have been filed on the Public Registry.

The ongoing full cooperation of GNWT – INF is anticipated and appreciated. If you have any questions or concerns please contact Bonnie Bergsma at (867) 496-2778 or email bonnie.bergsma@slwb.com.

Yours Sincerely,

Bonnie Bergsma, M.Sc.
Regulatory Specialist
