---

Hello Patricia,

Sorry for the delayed response as it has been very steady on my end.

Please see schedule C for costs associated for non-resident dumping:

<https://www.normanwells.com/sites/default/files/17-09%20Service%20Rates%20By-Law%20-%20signed.pdf>

If you find you are good with these rates, and have the approximate amount of garbage once the contract is awarded, we should be good to go to accept the domestic garbage. Please let me know if you have any questions or concerns.

Regards,

Alex

**Subject:** RE: Disposal of solid waste in Norman Wells landfill

Hi there,

Thanks for the response regarding our inquiry.

The size and quantity of waste to be disposed would be generally limited to more domestic waste associated with a temporary lunch trailer. We are not operating a camp as part of this project, so – the waste would be very small. Please let me know if you are in agreement to this.

Thank you for the acknowledgement about the batteries and contaminated soil – we will be sure to communicate that with our contractor when they are selected.

Hello Patricia,

I hope all is well, sorry for the delayed response as I was just seeing if the development officer had any input to your request.

After discussions with her I just have a few concerns.

What is the size and quantity of your projected waste? Also please keep in my mind right now we cannot except batteries or contaminated soil in our landfill.

Please let me know if you have any other questions or concerns.

Regards,

Alex

**Subject:** Disposal of solid waste in Norman Wells landfill

Good afternoon,

The Department of Infrastructure is completing a regulatory application to the Sahtu Land and Water Board for the construction of the Prohibition Creek Access Road located southeast of Norman Wells.

Prior to submitting our application, INF needs to confirm with the Town of Norman Wells that we have approval to dispose any project related non-hazardous waste at the landfill. The waste is expected to be a mix of domestic-type garbage, food scraps, perhaps some cardboard, plastics and other material. There may be batteries, animal carcasses (in case of any collision) or contaminated soils.

We need written confirmation that the Town would accept the solid waste from the project. INF would contact you prior to any disposal so we can confirm volumes and types of waste and also take pictures of anything we deposit in the landfill.

Please email me back with confirmation that we will be able to use the landfill for this project. We are trying to get the application submitted by end of this week – so, your quick reply would be appreciated.

Thank you,

Mársı | Kinanāskomitin | Thank you | Merci | Hąı' | Quana | Qujannamiik | Quyanainni | Máhsı | Máhsı | Mahsi
