Date: October-09-18 2:31:00 PM

Hi Arlen,

Thank you for your email, notifying the Wek'èezhìi Land and Water Board of the upcoming modification to Gamèti's water treatment plant.

Please note that as per Part E(2) of the Water Licence, the Licensee will have to provide to the Board site plans of the modifications, within 90 days of the modifications being completed.

Regards,
Brodie Costello.

Subject: W2018L3 WTP Modification Notice

Hello Brodie,

With Jessica on leave, I write to you regarding the Gameti file.

On behalf of the Hamlet of Gameti and the Government of the Northwest Territories, we would like to provide notice to the WLWB of upcoming modifications to the community's water treatment plant. These modifications will still follow the licence requirements and guidelines. Improvements to the treatment system will take place by installation of a new factory assembled treatment system planned to be installed during the summer of 2019. No changes or modifications to the raw water intake line will take place.

Please confirm acceptance of this notification, or if additional information is required please contact me either by phone or email indicated below.

Regards,

Arlen Foster P. Eng.
