Subject: Re New Nadina's Extension request for LUP W2011C0004

Hi Ellen,

As stated below, the Land Use Permit W2011C0004 expires on September 4, 2017, an extension request of not more than two years must be submitted 60 days prior to the expiry date of the Permit. As part of the extension process please submit to the Wek'èezhii Land and Water Board:

1. A letter stating the reason for the extension request;
2. The length of time requesting for (a maximum of two-years can be requested);
3. Any other information which would support the extension request, including the status of

the land use operations; and

4. Proponents are required to engage the affected parties about the extension request prior to submitting the request to the Board. Refer to the [MVLWB Engagement Guidelines for Applicants and holders of Water Licences and Land Use Permits](#) for further direction.

A list of affected parties can be found in the attached document and should be contacted as soon as possible, as stated above (#4). Once communications has been established with the affected parties, please allow time for response before sending all documents to our office.

Here is [the link to](#) an example for an extension request that can be used when New Nadina submits their extension request.

Don't hesitate to contact Board staff should you require further information.

Masi,

Roberta Judas
