Dear Claudine Lee,

RE: Final Plan Request – Mining and Associated Activities at Lac de Gras, NT

Based on our land use records, Land Use Permit W2013D0006 expires on April 29, 2021. Pursuant to subsection 26(6) of the Mackenzie Valley Land Use Regulations (MVLUR), no further extensions of this Permit can be considered. Restoration, as well as clean up and removal of equipment, materials, building, etc., must be completed.

Pursuant to section 29 of the MVLUR, Dominion Diamond Mines ULC (Dominion) is now required to submit a final plan with the following content:

1. A map, normally at a scale of 1:50,000 showing your location, area, and distances of all land use operations. Sketches are acceptable but all maps must have the north indicator, scale and coordinates clearly marked.
2. A summary of the hectares utilized in each aspect of the land use operation; and
3. A calculation of land use fees.

Should Dominion wish to continue its land use operations, it may apply for a new land use permit, pursuant to section 19 of the MVLUR. If Dominion would like to apply for a new permit, please submit the permit application a minimum of 60 days prior to the expiry date of Land Use Permit W2013D0006. Please refer to the Boards' [Guide to the Land Use Permitting Process](#) when preparing the application and contact Board staff with any questions. As per the Boards' [Engagement and Consultation Policy](#), Dominion must conduct pre-submission engagement prior to submitting a land use permit application. Please refer to the Boards' [Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits](#) for information and guidance on pre-submission engagement. As per section 3.2.2 of the Boards' [Guide to the Land Use Permitting Process](#), engagement should be initiated well in advance of the submission of the application.

If Dominion should have any further questions, please contact me at (867) 713-2500 or e-mail rjudas@wlwb.ca.

Yours Sincerely,
