## **1.0 INTRODUCTION**

The purpose of Adamera Minerals Corp.'s Engagement Plan is to provide a detailed proposal for open communication between Adamera and nearby communities, Aboriginal groups, government agencies and regulatory boards during the application for a Land Use Permit, throughout the project life, and during the reclamation process. By providing information regarding the company's planned initial stage exploration activities, the affected parties will have an opportunity to voice any concerns, suggestions and possible solutions to any issues that may arise. Both the sensitivity of the northern environment and its importance to Aboriginal People in terms of livelihood and cultural significance are very important to the employees of Adamera Minerals, particularly in how we design and operate our various exploration programs. To that end we would welcome any comments and suggestions with respect to our proposed program near Hepburn Lake.

## **2.0 ENGAGEMENT PROCESS**

Adamera Minerals is dedicated to providing the interested parties with information in a timely manner, which will allow each group sufficient time to review, discuss, and provide feedback. At any time, parties are encouraged to contact the company for any additional information required.

### Company Representative (Corporate):

Zoe Pratt  
GIS Manager  
z.pratt@adamera.com  
Ph: 604 689-2010  
Fax: 604 484-7143

### Company Representative (On-site):

Unknown at this time.  
Phone and fax numbers for camp will be provided when communication contract is finalized.

Throughout the consultation process, Adamera hopes to encourage open communication and participation from all parties which will allow the company to re-evaluate and where possible, modify any proposed course of action which may be a cause for concern.
