Hi Jessica

Benton Resources is working on a deal to sell its share in the Providence Lake Project. Once complete, we will need to transfer the leases, LUP and camp ownership to the new owner.

Can you direct me to the correct transfer forms to initiate the process? It is my understanding that as the seller, we need to submit a separate transfer form for the leases and the LUP. Once those forms are submitted, the new potential owner would need to initiate consultation and provide an updated exploration plan for the project before the assignment approval is given, correct? Is there a document or web page that could explain the process for us?

Thank you,

Nathan Sims
