Roberta

On behalf of Benton Resources, I have attached an engagement log as well as a location map to be amended to our application for extension.

If we are missing other items let me know and I'll see that they are completed immediately.

Thank you,

Nathan

Hi Cliff,

Thank you for your email. Board staff have reviewed the email sent by Benton Resources Inc. (Benton Resources) and note that an Engagement Log was not included as suggested in the email sent to Benton Resources Inc. on August 13, 2020. As described in the Boards' [Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits](#), an Engagement Log/Record is a requirement for an Extension Request. Please provide an Engagement Log (i.e., to summarize in a table or other form) to summarize the engagement with-Pre-Submission Engagement Contact List, including: who was contacted (when and how), who responded with what information, and who Benton Resources followed up with/when and if no response was provided the first time.

The template for Engagement Log's is provided in Appendix E of the [Engagement Guidelines](#). An example of an acceptable Engagement Log is [linked here](#) for your convenience.

As previously discussed, please submit your extension request as soon as possible. Should you have any questions or concerns don't hesitate to contact Board staff.

Masi,

Roberta Judas

Good Day,

I'm doing a follow up on the email I sent August 14th 2020 in regards to Benton Resources Inc. Land Use Permit Extension. I have copied the original email below. Could you please respond if you have any concerns with the extension of the permit or a quick response letting me know that you have no concerns.

Thank you for your time,

Cliff Hickman

Good Day,

I am writing you this letter on behalf of Benton Resources Inc.(684 Squier Street, Thunder Bay, Ontario, P7B 4A8). Benton Resources holds a land use permit (W2015C0008) for mineral exploration in the Credit Lake area. (approximately 250kms north northeast of Yellowknife) for the purpose of mineral exploration. They have completed the mineral exploration work but still have a camp on Credit Lake. The permit is set to expire Sept 23, 2020 and due to Covid restriction it may not be possible for us to have the camp out and cleaned up in time. We are asking for your approval in granting a 1 year extension on the permit in order to give us sufficient time to take out the camp and clean up the camp site. I have attached a copy of the permit to this email for your records. Could you please respond with any questions or concerns, or a message stating you approve the extension so we can proceed to move forward.

Thanks for your time,

Cliff Hickman
