Dear Ms. Camsell-Blondin:

Subject: 2016 Updated Diavik Management Plans

As specified in Water License WL2015L2-0001 Part H Item 12, Diavik Diamond Mines (2012) Inc. (DDMI) has conducted a review of the current versions of the following management plans:

- Processed Kimberlite Containment Facility Operations Plan
- North Inlet Water Treatment Plant Operations Plan
- Sewage Treatment Facility Plan
- Ammonia Management Plan

No changes are noted for each of the above four management plans.

Other management plans noted in Part H Item 12, specifically the Waste Management Plan, Water Management Plan, Waste Rock Management Plan, and Hazardous Materials Management Plan have been updated and are currently at various stages of review with the WLWB.

If you have any questions regarding the above, please contact the undersigned at your convenience.

Yours sincerely

David Wells
Superintendent - Environment

Cc: Sarah Elsasser, WLWB
