February 27, 2019

Mr. Sean Sinclair
P.O. Box 2498, 300-5201, 50th Avenue
Yellowknife, NT X1A 2P8

Dear Mr. Sinclair,

Re: Waste Rock Management Plan Version 8.1

The Wek’èezhii Land and Water Board (WLWB or the Board) met on February 27, 2019 to consider Version 8.1 of Diavik Diamond Mines (2012) Inc.’s (DDMI) Waste Rock Management Plan (WRMP). Version 8.1 was submitted to address the Board’s August 24, 2018 Directive and Reasons for Decision for Version 8.0 of the WRMP.

The Board has approved Version 8.1 of the WRMP, as submitted. The Board notes the commitments made by DDMI in the cover letter to the Version 8.1, and within the Conformance Table of Board Directives in Version 8.1, to monitor and report the quantity and destination of all Type III material, any exceedance of the action level of 2% of the total material mined from A21 in any given month, and the monthly percentage of biotite schist xenoliths estimated in mined Type I material. The Board looks forward to receiving these updates in the monthly SNP reports. The Board thanks DDMI for their ongoing efforts.

Sincerely,

Joe Mackenzie
Chair, Wek’èezhii Land and Water Board
