Dear Rick Schryer,

**Final Plan Request – Care and Maintenance of the NICO, JBG, and Sue-Dianne Properties, NICO Site at Hislop and Lou Lake area, NT**

Based on our land use records, Land Use Permit W2016C0002 expires on March 23, 2021. Prior to the expiry date of this permit, restoration, clean up and removal of equipment, materials, building, etc., must be completed.

Should you require additional time to complete your land use operation, refer to subsection 26(6) of the Mackenzie Valley Land Use Regulations regarding extensions to a land use permit. An extension request of not more than two (2) years must be received before the expiry date of the permit. If an extension of the permit is not requested, pursuant to subsection 29 of the Mackenzie Valley Land Use Regulations, the Permittee is required to submit a Final Plan within sixty (60) days of expiry including:

1. A map, normally at a scale of 1:50,000 showing your location, area, and distances of all land use operations. Sketches are acceptable but all maps must have the north indicator, scale and coordinates clearly marked.
2. A summary of the hectares utilized in each aspect of the land use operation; and
3. A calculation of land use fees.

If you have any further questions, please contact me at (867) 713-2500 or e-mail [rjudas@wlwb.ca](mailto:rjudas@wlwb.ca).

Yours Sincerely,

Hello Rick,

Please find attached a letter requesting a final plan for Land Use Permit W2016C0002. Based on previous [correspondence](#), Fortune Minerals Limited (Fortune) indicated that it would like to request an extension to Permit W2016C0002. Should Fortune no longer wish to request an extension, the attached letter provides information regarding submission of a final plan. Guidance is also provided below should Fortune wish to proceed with its plan to request an extension for Permit W2016C0002.

Section 6.2 of the [MVLWB Guide to the Land Use Permitting Process](#) provides guidance regarding extension requests. The request can be submitted in letter or email format and should include the information outlined in section 6.2 of the Guide. As discussed, an extension is for a continuation of activities already permitted, thus it would be helpful if the request could also include confirmation that no new activities are being proposed.

As per the Board's [Engagement and Consultation Policy](#), Fortune must conduct pre-submission engagement. The Board's [Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits](#) (see Appendix B) outlines the expectations for engagement with potentially affected parties. A record of engagement related to the extension request is also required and should be included with the extension request. A copy of the pre-submission engagement Contact Lists is attached to this email.

Should you have any questions or concerns regarding this information or the attachments, please don't hesitate to contact Board staff.

Masi,

**Roberta Judas**
