**Flag Status:** Completed

Hi Ben,

You should have received a formal Advisory that went out through the LWBs' Online Review System on March 19<sup>th</sup>, that can also be found on the Boards' websites [here](#).

As the Advisory states, *"Any Parties requiring an extension to a comment, response, or submission deadline, should submit a request in writing."* So the onus is on the applicants/proponents to inform Board staff and make any requests in writing.

In response to the request INF has made RE the Annual Report in the email below, please consider this email as formal approval for an extension to the submission date for the Annual Report, as requested.

Masi,

**Ryan Fequet, MSc., PMP**

Executive Director

**Subject:** TASR: Water Licence Annual Reporting!

Hi Jessica,

As you are aware, the COVID-19 problem has disrupted normal working environment for all of us, including NSI. In light of this, is the Board considering reviewing/extending/suspending current and applicable deadlines due to the COVID-19 disruption until normal work life resumes? Or would the Board consider these deadlines on a case-by-case basis? On that note, and until the Board comes out with a formal directive in the wake of COVID-19, I would like to request that the WLWB extends the deadline for the TASR Water Licence Annual Report to April 30, 2020 for now.

Thanks,  
Benjamin
