Dear Ms. Francis & Ms. Jokela:

Re: RTX Exploration Drilling at Diavik Progress Report - August 2020

Following Condition 8 of the Land Use Permit W2017C0002, namely;

The Permittee shall submit a progress report to the Inspector and the Board every month during which there is an active drill program.

we wish to inform you of the progress of our drilling program.

Work on our exploration program continued throughout the month of August using the Downing Duralite 250B drill. During this period, twelve drill holes were completed. The following table is a breakdown of the collar coordinates (NAD83 UTM 12N), dip, azimuth and drilling distances that were completed on each hole. Attached at the end of this letter is a map showing the relative location between the holes and with the mine site.
