Re: Final Clearance and Closure: Land Use Permit G02Q009, Quarry Operation, In-Town-Pit

Ms. Nazon,

The lands, specified in the above Land Use Permit were transferred to MACA at the end of October 2003. At that point the Gwich'in Land and Water Board ceased to be the regulating authority for land and water use for these lands. Land Use Permit G02Q009 therefore became invalid at the time the land transfer took place, the file however remained open.

Indian and Northern Affairs Canada recently performed a final inspection (October 12, 2006), which indicates that all aspects were found to be acceptable at the site, and recommended closure of the file.

Please be advised that the requirement for a final plan has been waved, and that final clearance of Land Use Permit G02Q009 has been granted. Our file is now closed.

If you have any questions, please do not hesitate to contact me at (867) 777-7963 or h_harlander@glwb.com.

Yours sincerely,

Helga Harlander
Land and Water Technician
