**Explanatory Remarks -**

**Quarry 230:**

During the inspection on October 25, 2016 there are a few concerns observed by the inspector.

GNWT Industry, Tourism & Investment (ITI) did not notify Department of Lands Inspectors prior to the commencement of operations at the 230 quarry site and the Gwich'in campground construction site as identified in *Section 26(1)(b) Time, item 6* in the conditions of the land use permit.

At the Gwich'in Campground site work at the site was underway and there is a total of 7 new campsite pads constructed and 6 of which have culverts installed and the work is close to completion.

A pre-survey was not submitted to Department of Lands 10 days prior to the commencement of operations as identified in the conditions of the quarry permit.

### ENVIRONMENTAL INSPECTION REPORT

Department of Lands was not notified prior to the end of the quarrying at the 230 site as indicated in the conditions of the quarry permit.

Department of Lands would like to know if there will be anymore activity occurring within the quarry under the permit. If the quarry work is completed we request that a pre and post survey data be submitted to us as soon as possible.
