Dear AlecSandra,

Re: G18X005 and G18L8-001 Inuvik Wind Project LUP and Water Licence

We have reviewed the above applications, and based on this review and the negative Archaeological Impact Assessment, we have no issues or concerns at this time.

The area in question is seasonal habitat for caribou, and Gwich'in participants have traditionally used the area for harvesting caribou. There are several trails nearby.

As with any application, if archaeological or heritage materials are encountered during the development within the Gwich'in Settlement Area, all work must cease immediately as required by law, and the DCH and the Prince of Wales Northern Heritage Centre in Yellowknife must then be contacted.

Sincerely,

Sharon Snowshoe
