Date: Friday, November 30, 2018 4:48:58 PM

Good Day AlecSandra,

The Nihtat Renewable Resources Council would like to request an extension to comment on the proposed Applications, preferably after the Christmas holidays in order for our Council to thoroughly review the documents.

Thank You,

Allen Firth,
Nihtat Renewable Resources Council.
Inuvik, NT.

Subject: Request for Comments - NWT Energy Corporation (03) Ltd. - Inuvik Wind Project (G18X005 and G18L8-001)

Good Afternoon,

Please be advised that NWT Energy Corporation (03) Ltd. has submitted to the Gwich'in Land and Water Board the following:

- An application for a Type "A" Land Use Permit for the purpose of constructing, operating and maintaining a wind turbine, an all-season access road, powerlines, and associated electricity infrastructure at Highpoint, approximately 12 km east of the Town of Inuvik, NT; and
- An application for a Type "B" Water Licence for water use during project construction.

The applicant requests a term of 5 years for each authorization, with activities beginning in early 2019.

Due to file size, application documents are available directly through the [Online Review System](#). All documents and decisions pertaining to this file will also be maintained on the [GLWB Online Public Register](#), which can also be viewed in person on the second floor of the Alex Moses-Greenland Building in Inuvik.

Reviewers are invited to submit comments directly through the Online Review System, or to submit them to the Board via mail or email. **Please submit your comments on the application in writing by 5:00 pm, Friday, November 30, 2018.**

Please note that the draft Permit has been developed using the MVLWB's current *Standard Land Use Permit Conditions Template*. The purpose of this draft Permit is to allow parties to comment on Board staff's suggested conditions. These draft materials are not intended to limit in any way the scope of parties' comments. The Board is not bound by the contents of the draft Permit and will make its decision at the close of the proceeding on the basis of all the evidence and arguments filed by all parties.

Also, under the *Preliminary Screening Requirement Regulations of the Mackenzie Valley Resource Management Act* (MVRMA), the Board must conduct a preliminary screening for an application for a proposed development that requires a land use permit, unless it is exempt from Part 5 of the MVRMA. Reviewers are encouraged to provide comments and recommendations (e.g. on impacts and mitigation measures) to assist with the completion of the preliminary screening. Comments made by reviewers regarding impacts of this project to wildlife and wildlife habitat in this preliminary screening will inform the GNWT Minister of Environment and Natural Resources' determination regarding whether a Wildlife Management and Monitoring Plan will be required for this project as per Section 95 of the *Wildlife Act*.

Should you have questions or comments pertaining to these applications, feel free to contact me by email at amacdonald@glwb.com or by phone at (867) 777-4954.

Warm Regards,

AlecSandra Macdonald
