Dear AlecSandra Macdonald:

Information Request – MVLUR Section 18 Eligibility for Proposed Geotechnical Program on Commissioners Lands in Inuvik

Thank you for the information request dated January 19, 2022 regarding eligibility under Section 18 of the *Mackenzie Valley Land Use Regulations* and EGT Northwind's application (G21S003) for a Type A Land Use Permit to conduct a geotechnical drilling program.

We can confirm that the Town of Inuvik (Town) has applied for tenure for the land identified in EGT Northwind's application. EGT Northwind would be required to obtain permission to occupy for the geotechnical drilling program from the Town once the Town has acquired tenure from the Department of Lands.

In advance of tenure being granted to the Town of Inuvik, EGT Northwind would have to request a permission to occupy the site directly from the Department of Lands for this short-term and interim occupancy. This request can be made to Derise Rehm, Manager, Commissioner's Land, at Derise_Rehm@gov.nt.ca.

Please let us know if you require any additional information.

Sincerely,

Melanie Williams, P. Eng.
Director, Land Administration
